The Wardrobe (Storycuts) West Academic

Big Data in History introduces the project to create a world-historical archive, tracing the last four centuries of historical dynamics and change. Chapters address the archive's overall plan, how to interpret the past through a global archive, the missions of gathering records, linking local data into global patterns, and exploring the results.

Two Bad Pilgrims A&C Black

****New Adult Romance**** Needing an escape from her past, Avery chooses a college where no one knows her. Keeping a low profile was the plan, falling for the intense frat boy, Jase wasn't. Yet she can't deny how alive she feels when he's near. Even as common sense implores her to stay away, her body begs her to get closer. Jase, numb from his own family drama, has grown bored with weekends fueled by nameless girls and countless bottles when he meets Avery. Helping her cope with her past is better than dealing with the bullshit his own life's served up. Determined to drive away the painful secret she's guarding, he appoints himself her life coach, and challenges her to new experiences. Getting close to her and being the one to make her smile are simply perks of the job. But when Avery's past boldly saunters in, refusing to be forgotten, can Jase live with the truth about the girl he's fallen for? Recommended for 17+ due to mature themes and sexual content.

Mark Davison examines several legal models designed to protect databases, considering in particular the EU Directive, the history of its adoption and its transposition into national laws. He compares the Directive with a range of American legislative proposals, as well as the principles of misappropriation that underpin them. In addition, the book also contains a commentary on the appropriateness of the various models in the context of moves for an international agreement on the topic. This book will be of interest to academics and practitioners, including those involved with databases and other forms of new media.

Laughter and Reflection Klaus-Jurgen Bathe

A heart-warming short story of friendship and love from the pen of bestselling novelist Judy Nunn. When struggling young journalist Nancy buys a tiny rundown terrace in Surry Hills she knows nothing about the previous owner, other than the old lady died six months earlier. But a dusty box retrieved from underneath the old wardrobe in an upstairs bedroom soon changes all that. And the lives, loves and losses of Emily Roper and her best friend Margaret are tantalisingly revealed...

Kalevala BlueHeart Press

This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Handbook of Student Skills Sprintprint Random House Australia
 Updated with an emphasis on current issues, this classic casebook emphasizes developments in international law, with expertly edited cases and problems for class discussion. Cases and Materials on International Law offers a treatment of the subject for introductory and advanced classes and detailed readings and reference materials for those who wish to pursue topics in depth. The fourth edition enriches every chapter with new information on institutions contributing to the sources and enforcement of international law, including the World Trade Organization, the International Criminal Tribunals for Yugoslavia and Rwanda, the prospective International Criminal Court, and organizations in the fields of law of the sea and arms control. International criminal law now has a chapter of its own, and the casebook gives expanded treatment to human rights, environmental law, and economic law.

Sixty Five Hours Honey Bear Books

New review of bird conservation compiled by Ian Burfield and Frans van Bommel In 1994 BirdLife International published the landmark Birds in Europe: their Conservation Status - the first ever review of the conservation status of all regularly occurring European birds. This book rapidly became a cornerstone of BirdLife's conservation work and is widely used by the European Commission, national governments and NGO's. Fully updated, Birds in Europe: Population Estimates, Trends and Conservation Status covers the European continent from Greenland in the west

to the Urals in the east, and from Svalbard in the north to the Canary Islands in the south, including Balkan and Caucasian countries where political instability made data collection impossible in 1994. Setting a new standard for conservation data, Birds in Europe (1994) was highly praised for the depth and breadth of its research. Monitoring programmes established since then have provided an even higher accuracy and quality of data for Birds in Europe (2004). Full population data is included on all 526 species regularly occurring in Europe. Half a page is devoted to each species, including an illustration, distribution map, population and trends data, status information, and a concise summary of its status across Europe. What the reviewers said about Birds in Europe (1994): "This work can only be described as monumental" British Birds "Anyone travelling to a European country should use this book to find out what is really happening" British Birds "This professionally researched, excellently presented and yet affordable book provides a unique review of the conservation status of European birds" Biological Conservation "an astonishing tour de force" Ibis "an ornithological bible for any bookshelf..Bird Book of the Year 1995" Birdwatch "a veritable goldmine of information on breeding and wintering populations across the continent" Birdwatch "Should be compulsory reading for Europe's environment ministers" New Scientist "Any serious birder will find this fascinating reading" New Scientist "The baseline for the conservation of the birds of Europe" Birding World '...easily readable information has been crammed into a small space, with which it is possible to get a good general picture of the status of a species in Europe' - Alula. 'An invaluable indicator of the health of Europe's birdlife, clearly showing where conservation efforts should be concentrated. The publishers should be congratulated.' Birdwatch 'A fascinating browse... well-produced and not expensive, so everyone with a serious interest in the birds of Europe should own a copy.' Birding World 'Genuinely continent-wide... a frightening amount of information is packed into each species account, but the layout is clear and you can cut to the chase quickly if you are in a hurry... Deserves a wide audience. Highly recommended.' British Birds

Beethoven's World Viking Childrens Books

Not mighty in size, but mighty in resourcefulness and industry, the ant has crawled the earth since prehistoric times. It has dwelt in rainforest tree trunks and acorns of oak trees, beneath logs, and under sidewalks. It has protected forests by capturing insects, cleared weeds away from acacia trees, and by growing gardens has released important nutrients into the soil. Seed lifters, dirt diggers, social beings, ants have the most advanced brain of all insects! So watch where you step, especially on a warm day: a small but mighty ant may be underfoot.

Anthem for Mixed Voices with Organ Accompaniment

Nelson Thornes

In every major city, there exists a complex exchange between urban space and the institution of the theatre. City Stages is an interdisciplinary and materialist analysis of this relationship as it has existed in Toronto since 1967. Locating theatre companies? their sites and practices? in Toronto's urban environment, Michael McKinnie focuses on the ways in which the theatre has adapted to changes in civic ideology, environment, and economy. Over the past four decades, theatre in Toronto has been increasingly implicated in the civic self-fashioning of the city and preoccupied with the consequences of the changing urban political economy. City Stages investigates a number of key questions that relate to this pattern. How has theatre been used to justify certain forms of urban development in Toronto? How have local real estate markets influenced the ways in which theatre companies acquire and use performance space? How does the analysis of theatre as an urban phenomenon complicate Canadian theatre historiography? McKinnie uses the St. Lawrence

Centre for the Arts and the Toronto Centre for the Performing Arts as case studies and considers theatrical companies such as Theatre Passe Muraille, Toronto Workshop Productions, Buddies in Bad Times, and Necessary Angel in his analysis. City Stages combines primary archival research with the scholarly literature emerging from both the humanities and social sciences. The result is a comprehensive and empirical examination of the relationship between the theatrical arts and the urban spaces that house them.
