Allie loves baseball. It's the one thing that has been consistent in her lately complicated life. Allie's father left recently, and now Allie has a new family -- her mother's new girlfriend, Phyllis, and son Miles have moved in. It's taking some adjustment, mostly because Miles seems determined to get under her skin. Things start looking up when Allie gets invited to join the boy's baseball team as their new pitcher. But then Miles announces he's quitting the boy's team and tries out for Allie's old team -- a girl's team! Allie is sure he's doing it just to annoy her, but Miles insists that he just likes the girl's style of play better. As Allie struggles to

find her place on the boy's team, she starts to see that Miles is just trying to fit in as well, and that it may be even harder for him than it has been for her.

Hello Tease A&C Black

Selah Davis loves her life as a journalist in Seattle (or so she says) but on a rare trip home to Marietta to cover the Copper Mountain Rodeo, she confesses to her best friends over drinks that her one regret in life is not sleeping with her high school boyfriend, Levi Monroe. Into the bar walks Levi, also home for the rodeo. When her friends dare her to proposition him for a one night stand, she's at first appalled... but the more she thinks about remedying her one regret, the less she can get him and their electric chemistry out of her head. Selah's always been her parents' good daughter. Would it hurt just for one night to be a

warm tone and avoids being nothing more than a series of stories about humor or an overly theory-laden academic book. It provides readers with a book that is enjoyable to read, informative, playful, and educational. That's why this is best described as a playbook. The book is meant to provide a sort of text that is missing in the current books out there that profess to be humor how-tos. It takes research related to humor and discusses it in an informed yet accessible fashion.

This book is a sociolinguistic study of children's talk and how they interact with one another and their teachers in multilingual, multicultural and multiethnic schools. It is based on tape recordings and ethnographic observations of majority Greek and minority Turkish-speaking children at an Athens primary school. It offers the reader a unique look into the ways in which children draw upon their rich interactional histories and share, transform and recontextualize linguistic and other semiotic resources in circulation to construct play frames and explore, adopt, resist available as well as novel social roles and identities. Drawing on ethnographically informed approaches to discourse, the book shows the ways in which verbal phenomena such as teasing, joking, language play, music making and chanting can provide a productive locus for the study of the negotiation of social identities and roles at school. This book will be of interest to scholars, researchers and students of sociolinguistics, discourse analysis, cultural studies, and multicultural education. It will also be of interest to anthropologists and sociologists.

At the same time that this book shows the value of gender research in provoking new currents of thought, it also brings into focus two aspects of gender that are often confused: how gender operates as a cultural category that affects communication behavior, and how communication and language function to create gender categories.

When it first appeared in 1993, Barrie Thorne's *Gender Play: Girls and Boys in School* became an instant classic in the budding fields of feminist sociology and childhood studies. Through detailed first-hand observations of fourth and fifth graders at play, she investigated questions like: Why do girls and boys tend to self-segregate in the schoolyard? What can playful teasing and ritualized games like "cooties" and "chase and kiss" teach us about how children perform gendered identities? And how do children articulate their own conceptions of gender, distinct from those proscribed by the adult world? A detailed and perceptive ethnography told with compassion and humor, *Gender Play* immerses readers in the everyday lives of a group of working-class children to examine the social interactions that shape their gender identities. This new Rutgers Classic edition of *Gender Play* contains an introduction from leading sociologists of gender

Michael A. Messner and Raewyn Connell that places Thorne's innovative research in historical context. It also includes a new afterword by one of Thorne's own students, acclaimed sociologist C.J. Pascoe, reflecting on both the lasting influence of Thorne's work and the ways that American children's understandings of gender have shifted in the past thirty years.
