HARVEY CLARA

An Introduction Wipf and Stock Publishers

Discusses the social, cultural, intellectual, and aesthetic aspects of American literature

Realities of Foreign Service Life Cambridge University Press

Rev ed. of: Documents to accompany America's history.

British and American Peacekeeping Doctrine and Practice After the Cold War NYU Press

A chronological survey of Congregationalism throughout the course of its history and a collection of biographies of significant Congregationalists form the core of this reference volume. Youngs demonstrates how the Puritan way of seeing God, humanity, and salvation has continued to influence Americans and how the unique spiritual sensibility of the early Puritans endured throughout the colonial period and long afterwards. The volume contains a ten-chapter historical essay as well as a biographical dictionary of leading Congregationalists. To enhance further study, a bibliographic essay is also included.

Man and Christ Wayne State University Press

This book contains entries from thousands of publications whether in English, Hebrew, Yiddish, and German—books, research reports, educational and general periodicals, synagogue histories, conference proceedings, bibliographies, and encyclopedias—on all aspects of Jewish education from pre-school through secondary education.

A Personal and Public Life Macmillan

Undocumented migration is a global and yet elusive phenomenon. Despite contemporary efforts to patrol national borders and mass deportation programs, it remains firmly placed at the top of the political agenda in many countries where it receives hostile media coverage and generates fierce debate. However, as this much-needed book makes clear, unauthorized movement should not be confused or crudely assimilated with the social reality of growing numbers of large, settled populations

lacking full citizenship and experiencing precarious lives. From the journeys migrants take to the lives they seek on arrival and beyond, *Undocumented Migration* provides a comparative view of how this phenomenon plays out, looking in particular at the United States and Europe. Drawing on their extensive expertise, the authors breathe life into the various issues and debates surrounding migration, including the experiences and voices of migrants themselves, to offer a critical analysis of a hidden and too often misrepresented population.

Interreligious Reflections, Six Volume Set Routledge

Now available in three thematic volumes, the second edition of *Moral Issues in Global Perspective* is a collection of the newest and best articles on current moral issues by moral and political theorists from around the globe. Each volume seeks to challenge the standard approaches to morality and moral issues shaped by Western liberal theory and to extend the inquiry beyond the context of North America. Covering a broad range of issues and arguments, this collection includes critiques of traditional liberal accounts of rights, justice, and moral values, while raising questions about the treatment of disadvantaged groups within and across societies affected by globalization. Providing new perspectives on issues such as war and terrorism, reproduction, euthanasia, censorship, and the environment, each volume of *Moral Issues in Global Perspective* incorporates work by race, class, feminist, and disability theorists. *Human Diversity and Equality*, the second of the three volumes, examines issues of equality and difference and the effects, within and across borders, of kinds of discrimination on the basis of race, ethnicity, gender, disability, class, and sexual orientation. Nine essays are new, four of which were written especially for this volume. *Moral Issues in Global Perspective* is available in three separate volumes—*Moral and Political Theory*, *Human Diversity and Equality*, and *Moral Issues*.

New and Popular Titles Springer

Since the 1990s and the recent rise of the Black Lives Matter movement, there has been a rise in diverse racial representation on television. In particular, Black characters evolved and began to

move away from racial stereotypes. In this collection of essays, the representation of Black characters in professionally defined careers is examined. Commentary is also provided on the portrayal of Black people in relation to stereotypes alongside the importance of Black representation on screen. This work also introduces the idea of the Black-collar category to highlight the Black experience in white-collar jobs. The essays are divided into six parts based on themes, including profession, and focuses on a select number of Black characters on TV since the 1990s.

Current research increasingly highlights the role of early literacy in young children's development—and informs practices and policies that promote success among diverse learners. The *Handbook of Early Literacy Research* presents cutting-edge knowledge on all aspects of literacy learning in the early years. Volume 2 provides additional perspectives on important topics covered in Volume 1 and addresses critical new topics: the transition to school, the teacher-child relationship, sociodramatic play, vocabulary development, neuroimaging work, Vygotskian theory, findings from international studies, and more.

A Bibliography of Jewish Education in the United States

John Wiley & Sons

The *Bloomsbury Encyclopedia of Popular Music* Volume 8 is one of six volumes within the 'Genre' strand of the series. This volume discusses the genres of North America in relation to their cultural, historical and geographic origins; technical musical characteristics; instrumentation and use of voice; lyrics and language; typical features of performance and presentation; historical development and paths and modes of dissemination;

influence of technology, the music industry and political and economic circumstances; changing stylistic features; notable and influential performers; and relationships to other genres and sub-genres. This volume features over 100 in-depth essays on genres ranging from Adult Contemporary to Alternative Rock, from Barbershop to Bebop, and from Disco to Emo.

Liberation Theologies in the United States Westview Press
A critical history of the Americanization of legal education in fourteen countries The second half of the twentieth century witnessed the export of American power—both hard and soft—throughout the world. What role did US cultural and economic imperialism play in legal education? *American Legal Education Abroad* offers an unprecedented and surprising picture of the history of legal education in fourteen countries beyond the United States. Each study in this book represents a critical history of the Americanization of legal education, reexamining prevailing narratives of exportation, transplantation, and imperialism. Collectively, these studies challenge the conventional wisdom that American ideas and practices have dominated globally. Editors Susan Bartie and David Sandomierski and their contributors suggest that to understand legal education and to respond thoughtfully to the mounting present-day challenges, it is essential to look beyond a particular region and consider not only the ideas behind legal education but also the broader historical, political, and cultural factors that have shaped them. *American Legal Education Abroad* begins with an important foundational history by leading Harvard Law School historian Bruce Kimball, who explains the factors that created a transportable American legal model, and the book concludes with reflections from two prominent American law professors, Susan Carle and Bob Gordon, whose observations on recent disruptions within US law schools suggest that their influence within the global order of legal education may soon fall into further decline. This book should be considered an invaluable resource for anyone in the field of law. *Reformed Systematic Theology, Volume 2* HarperCollins College
The media's presentation suggests that American teenage culture today is the most violent, sexual, and amoral youth culture in history. In this book, Nichols and Good deconstruct the negative images held by large numbers of adults. Recognizing that many teenagers are left by adults to socialize themselves and the consequences of this "careless indifference," the authors' goal is

to influence a more positive view leading to stronger social policies and better services, resources, and programs to meet the needs of America's youth. Unique features of America's Teenagers--Myths and Realities: Media Images, Schooling, and the Social Costs of Careless Indifference include: *powerful analytic lenses used to revisit typical depictions of youth; *a wealth of information brought to bear on understanding teenagers' behavior; and *consideration of a broad range of adolescent behaviors across critical socializing settings. The book begins with a discussion of the continuing myth of adolescence--how and why youth are devalued, and an overview of current beliefs about youth drawn from two 1990s Public Agenda Polls. This is followed by chapters on youth and the media, and the pressures that youth face in various dimensions of their lives. Topics include youth violence; the sex lives of teenagers; tobacco, alcohol, drugs, and teens; healthy living and decision making; working teens; and youth and education. The concluding chapter pulls together themes generated throughout the book and provides examples of policies that would underscore the value of viewing youth as a social investment. General guidelines are provided for teachers, parents, policymakers, and citizens to facilitate responding to youth in meaningful, proactive ways that improve the quality of life for teenagers and the broader society.

Small Press Record of Books in Print Routledge
The deep divides that define politics in the United States are not restricted to policy or even cultural differences anymore. Americans no longer agree on basic questions of fact. Is climate change real? Does racism still determine who gets ahead? Is sexual orientation innate? Do immigration and free trade help or hurt the economy? Does gun control reduce violence? Are false convictions common? Employing several years of original survey data and experiments, Marietta and Barker reach a number of enlightening and provocative conclusions: dueling fact perceptions are not so much a product of hyper-partisanship or media propaganda as they are of simple value differences and deepening distrust of authorities. These duels foster social contempt, even in the workplace, and they warp the electorate. The educated -- on both the right and the left -- carry the biggest guns and are the quickest to draw. And finally, fact-checking and other proposed remedies don't seem to holster too many weapons; they can even add bullets to the chamber. Marietta and

Barker's pessimistic conclusions will challenge idealistic reformers.

Sixth Series Cambridge University Press

Named "one of the best books of 2006" by The New York Sun Described by Carl Van Doren as "a harmonious human multitude," Benjamin Franklin was the most famous American of his time, of perhaps any time. His life and careers were so varied and successful that he remains, even today, the epitome of the self-made man. Born into a humble tradesman's family, this adaptable genius rose to become an architect of the world's first democracy, a leading light in Enlightenment science, and a major creator of what has come to be known as the American character. Journalist, musician, politician, scientist, humorist, inventor, civic leader, printer, writer, publisher, businessman, founding father, philosopher, Franklin is a touchstone for America's egalitarianism. Volume 2 takes Franklin from his marriage in 1730 to his retirement as a printer at the beginning of 1748, examining the mysteries of the illegitimate William Franklin's birth and mother and Franklin's increasing civic activities—starting the Library Company in Philadelphia in 1731, forming Pennsylvania's first volunteer fire company, and becoming an advocate for a clean Philadelphia environment. J. A. Leo Lemay assesses Franklin's numerous writings, attributing to him for the first time a deistic Indian speech, remarking on his use of the second African American persona in journalism, and analyzing his publishing sensation of 1747, *The Speech of Miss Polly Baker*. These belletristic works are complemented by Franklin's religious, political, and scientific writings, which he produced prodigiously. U.S. Government Information, Publications, Periodicals, Electronic Products Wipf and Stock Publishers
Examines Eleanor Roosevelt's life as a professional woman, a wife and mother, and, finally, a woman who illuminated her times and exemplified the complexities of womanhood in the twentieth century.

Exploring Contemporary Migration Prentice Hall

Mention a diplomatic career and most people imagine high-level meetings, formal dress and cocktail parties. Few stop to think that behind the occasional glitter of official functions are thousands of families facing all the routines and crises of life--births, deaths, childrearing, divorce--far from home, relatives, and friends, in an unfamiliar and sometimes unfriendly country and culture. This

book provides reflections and perspectives on the realities of Foreign Service life as experienced by members of the Foreign Service community around the world. The writers share their unvarnished views on a wide variety of topics they care about: maintaining long-distance relationships, raising teens abroad, dealing with depression, coping with evacuations, readjusting to life in the United States, and many others. These are stories from the diplomatic trenches—true experiences from those who have lived the lifestyle and want to share their hard-learned lessons with others. If you are new to the Foreign Service, this book will offer insights and practical information useful in your overseas tours and when you return home. Even if you are a seasoned veteran of the Foreign Service, the reports and reflections of others may encourage you to compare and evaluate your own experiences. If you (or your partner) are contemplating joining the Foreign Service, this book can serve as a reality check, giving you honest, personal perspectives on both the positive and negative aspects of Foreign Service life. If you are a student wondering what the Foreign Service is all about, this book will broaden your knowledge and provide you with an insider's view not found in any textbook.

essays.

Critical Histories Broadview Press

In the nascent United States, religion often functioned as a justifier of oppression. Yet while religious discourse buttressed such oppressive activities as slavery and the destruction of native populations, oppressed communities have also made use of religion to critique and challenge this abuse. As *Liberation Theologies in the United States* demonstrates, this critical use of religion has often taken the form of liberation theologies, which use primarily Christian principles to address questions of social justice, including racism, poverty, and other types of oppression. Stacey M. Floyd-Thomas and Anthony B. Pinn have brought together a stellar group of liberation theology scholars to provide a synthetic introduction to the historical development, context, theory, and goals of a range of U.S.-born liberation theologies. Chapters cover Black Theology, Womanist Theology, Latino/Hispanic Theology, Latina Theology, Asian American Theology, Asian American Feminist Theology, Native American Theology, Native Feminist Theology, Gay and Lesbian Theology, and Feminist Theology. Contributors: Grace Ji-Sun Kim, Mary McClintock Fulkerson, Nancy Pineda-Madrid, Robert Shore-Goss, Andrea Smith, Andrew Sung Park, George (Tink) Tinker, and Benjamin Valentin.

Six Volume Set Constituting Friendship Across Religions (Vol 1), Memory and Hope (Vol 2), Sharing Wisdom (Vol 3), The Crisis of

the Holy (Vol 4), The Future of Religious Leadership (Vol 5), and The Religious Other (Vol 6) Oxford University Press

Now available in a new second edition, *Working World: Careers in International Education, Exchange, and Development* offers an engaging guide for cause-oriented people dedicated to begin or enhance careers in the now burgeoning fields of international affairs. Mueller and Overmann expand their original dialogue between a career veteran and a young professional to address issues that recognize the meteoric rise of social media and dramatic geopolitical events. They explore how the idea of an international career has shifted: nearly every industry taking on more and more international dimensions, while international skills—linguistic ability, intercultural management, and sensitivity—become ever more highly prized by potential employers. This second edition of *Working World* offers ten new and four significantly updated profiles as well as new and expanded concepts that include work-life balance, the importance of informational interviews, moving on, and key building blocks for international careers. Like the award-winning first edition, *Working World* is a rare and valuable resource to students and graduates interested in careers in international affairs, mid-career professionals who want to make a career change or shift, as well as guidance counselors and career center specialists at universities.
