Collocations are word combinations that occur in natural speech more frequently than can be explained by chance. In English, we say, "take a bath" (or "have a bath" in British English), but in Japanese the equivalent is "get in a bath," o-furo ni hairu. The verb hairu is the one that collocates with o-furo. It has long been recognized that the study of collocations can lead to more natural language production, and yet until now there has been no book on the subject for learners of Japanese. *Common Japanese Collocations* will be the first resource to introduce the most frequently used noun-and-verb and noun-and-adjective combinations. The book is divided into six thematic chapters centering on daily life. Each chapter presents more than a hundred key entries, which consist of a noun and a selection of words that go with that noun. Some collocations come with example sentences that demonstrate how the word pair can be used in a sentence. In addition, throughout the book there are notes on common usage errors.

The Rules of Persuasion Bloomsbury Publishing

Why on earth would anyone give up a life on the open road for the regimen of a vast Japanese conglomerate? And is it really so different in Japan from everywhere else? Niall Murtagh spent years as a world traveller - hitchhiking to Istanbul, bussing to Kathmandu and crossing the Atlantic in a home-built yacht. In 1986 he closed the door on his adventurous life and settled down in Japan, eventually joining Mitsubishi as a Salaryman - a man in a shiny suit with a shiny attache case in a conglomerate with 100,000 employees. And what happens when you give up the Salaryman life? The book follows life after the corporation, giving fresh perspectives on the nature of Japanese business culture and the problems faced by outsiders in Japan.
