Subsequently, a new approach emerged influenced by the development of cognitive psychology, with its emphasis on information-processing models. First published 2012 Organizational behavior is the study of individuals and their actions within the context of the organization in a workplace setting. It is an interdisciplinary field that includes sociology, psychology, communication, and management; and it complements the academic studies of organizational theory (which is more macro-level) and human resource studies (which is more applied and business-related). Organizational behavior | Psychology Wiki | Fandom The role of psychology in organizational behavior is related to its value in the determination of the relationship between the mental health and general wellbeing of individuals in relation to their behavior at work. It is actually a field of study where psychologists use several parameters to access how different work environments and trends affect the health and performance of employees. What Is the Role of Psychology in Organizational Behavior? "Organisational behaviour is a subset of management activities

concerned with understanding, predicting and influencing individual behaviour in organisational setting."—Callahan, Fleenor and Kudson. Organizational Behaviour: Definition, Characteristics and ... Organizational Behavior is concerned with the study of what people do in an organization and how that behavior affects the performance of the organization. OB studies put the focus on motivation, leader behavior and power, interpersonal communication, group structure and processes, learning, attitude development and perception, change processes, conflict, work design, and work stress. Organizational Behavior Explained: Definition, Importance ... It enables people interested in human behaviour in the workplace, but without a background in psychology, to follow the development of this influential discipline. It is a wide ranging, honest and representative survey of the field and is a very useful resource to undergraduates, postgraduates and professionals in occupational psychology, business studies and management science."
