She's sure everyone can live together. But when her father and this wolf-pack leader clash, she'll have to choose a side... Mae Cogan's father warned her off werewolves. But she stubbornly believes that humans and shifters deserve to peacefully coexist, even if dating them could be dangerous. And when she's instantly attracted to a rugged and sexy alpha, she abandons all caution for a chance to get intimate. Damon Hale knows he must earn his pack's respect. After his brother's suicide, the best thing for his people would be to find his true shifter mate and show his leadership. But when an alluring human turns out to be his destiny, he fears claiming an outsider as his partner will only lead to tragedy. As Mae battles loyalty to her father and her longing to be in Damon's arms, she starts to doubt whether it's worth betraying family for the rough and violent ways of the wolf. And caught between protecting his own and fulfilling his needs, Damon is forced to push her away when pups start getting kidnapped. Will the fated pair give in to their passions and let love forge the strongest bond? The Marking is the captivating first book in The Moon Goddess paranormal romance series. If you like dark stories, steamy encounters, and thrilling twists and turns, then you'll adore Destiny Diess's enthralling tale. Buy The Marking to shift into darkness today!

This epoch-making and monumental work on Vedic Mathematics

unfolds a new method of approach. It relates to the truth of numbers and magnitudes equally applicable to all sciences and arts. The book brings to light how great and true knowledge is born of intuition, quite different from modern Western method. The ancient Indian method and its secret techniques are examined and shown to be capable of solving various problems of mathematics. The universe we live in has a basic mathematical structure obeying the rules of mathematical measures and relations. All the subjects in mathematics-Multiplication, Division, Factorization, Equations, Calculus, Analytical Conics, etc.-are dealt with in forty chapters, vividly working out all problems, in the easiest ever method discovered so far. The volume, more a 'magic', is the result of intuitional visualization of fundamental mathematical truths born after eight years of highly concentrated endeavour of Jagadguru Sri Bharati Krsna Tirtha.

The book depicts the interesting story of a mysterious Indian mathematician, Srinivasa Ramanujan, with no college education, whose mathematics in a series of letters to a Cambridge Mathematician, G.H. Hardy, shook the entire mathematics community. It is an exciting journey of a poor, self-taught and god-gifted mathematician who by the age of 31 became the youngest Fellow of Royal Society of London. Even after almost

100 years of his death at the age of 32, his results mysteriously find applications in modern world such as in the study of black holes, quantum gravity, cryptography and many others. Ramanujan's life story and work has inspired numerous people and generations of mathematicians around the globe and continue to excite even today. We hope that the book will reach the current generation and generate interest in mathematics.--
