This book is the authors contribution to the debate on Britains future relationship with the European Union. Unusual circumstances led him to spend over ten years researching the significance of European integration. He discovered that a British Secret Service Agent, who investigated Jackthe-Ripper crimes, wrote about a political alliance of European nations (how it would develop, its character and future) even before the French Founding Fathers of the European Project, Jean Monnet and Robert Schuman, were born in 1888 and 1886 respectively. According to the Intelligence Officer, a Confederation of European Nations would develop through a great European crisis. And this European Confederacy would become the next major political feature in history after the restoration of the Jews to Palestine. He made this forecast before Theodor Herzl, the Father of Zionism, formed the Zionist movement in 1896. The state of Israel for the Jews was created in Palestine in May 1948. Two years later, in May 1950, the European Union was born in Paris with The Schuman Plan. These events occurred exactly as the Intelligence Officer had predicted. The author shares with the reader the important advice Schuman and Chancellor Adenauer offered to Europeans concerning the survival of the European Project. The writer responds to David Camerons Bloomberg speech. He offers a critique of his vision for Britain and Europe. He explains whether an independent Scotland should seek EU membership or not. The writer also reveals his communication with an Archbishop concerning the Church of Englands support of Britains membership of the European Union. This volume explains the significance of the national emblem of Great Britain (The Royal Coat of Arms) and what Britishness implies. British values and identity are concealed in Britains heraldrythe symbol of the Sovereignty of the British people.

*Blood of the Reich* Macmillan

Welcome to the intriguing world of an adventurous American Intelligence Agent, Colonel Sidney Forrester Mashbir (1891-1973), who spent the 1920s and 1930s in alliance with the Japanese Royal Family and other top leaders of Japan. Together, they made a valiant effort to prevent war between their nations. In this thrilling saga, we explore the life of Mashbir, a real-life James Bond, a master spy, who pioneered the beginning of the CIA. He utilized secret diplomacy and dangerous missions to shape world events. His long career began in the early 1900s, continuing into the Atomic Age Mashbir so embraced the Japanese language and customs, that he came to regard himself as a samurai in spirit. Through his dedication to understanding the Japanese culture, Mashbir achieved a closer intimacy with Emperor Hirohito than any Westerner. In spite of Mashbir and his Japanese allies' courageous, peace-keeping efforts, World War II erupted. Mashbir was then forced to take a pivotal role in defeating Japan, a nation and its people whom he had so befriended. In 2010, sixty-five years after the end of World War II, President Barack Obama awarded the Congressional Gold Medal, the nation's highest civilian honor, to the thousands of mainly Nisei, Japanese Americans, who had served under Colonel Mashbir's command in a top secret intelligence organization called A.T.I.S. This award was given in recognition of their major contributions to winning that conflict. The Emperor and the Spy, is based on the author's acquisition of Colonel Mashbir's never-before-revealed intimate letters, secret official documents, and photographs. It is a rare occasion when the personal papers of a spy come to light These primary source materials, along with other diverse historical archives were extensively researched. This was combined with interviews with Mashbir's family, giving a window to an exciting untold story . . . The goal of this historical novel is to create an exciting and dramatic representation of the time period. To better achieve this, significant events and individuals have been included, who may or may not have been directly involved with Mashbir. *The Opium Prince* Bantam

The dictator who grew so rich on his country's cocoa crop that he built a 35-storey-high basilica in the jungles of the Ivory Coast. The austere, incorruptible leader who has shut Eritrea off from the world in a permanent state of war and conscripted every adult into the armed forces. In Equatorial Guinea, the paranoid despot who thought Hitler was the saviour of Africa and waged a relentless campaign of terror against his own people. The Libyan army officer who authored a new work of political philosophy, The Green Book, and lived in a tent with a harem of female soldiers, running his

country like a mafia family business. And behind these almost incredible stories of fantastic violence and excess lie the dark secrets of Western greed and complicity, the insatiable taste for chocolate, oil, diamonds and gold that have encouraged dictators to rule with an iron hand, siphoning off their share of the action into mansions in Paris and banks in Zurich and keeping their people in dire poverty.

From the international bestselling author—a “cinematic, rip-roaring adventure mystery” about Egypt's ancient past and a race for priceless treasure (Booklist). In 523 BC, the Persian pharaoh Cambyses dispatched an army across Egypt's desert to destroy the oracle at Siwa—only for the entire force to be overwhelmed by a sandstorm and lost forever. Two and a half millennia later, a mutilated corpse is washed up on the banks of the Nile at Luxor; an antiques dealer is savagely murdered in Cairo; and a British archaeologist is found dead at an ancient necropolis of Saqqara. The incidents appear unconnected, but Inspector Yusuf Khalifa of the Luxor police is suspicious. And so is the archaeologist's daughter, Tara Mullray. Following a trail of clues from both the past and the present, they enter a labyrinth of intrigue, violence, and betrayal. Their desperate search for the truth could lead them to the same fate as Cambyses's long-lost army . . . In this “textured, well-researched and expertly paced debut” (Publishers Weekly) with “a plot as complex as a hall of mirrors, and almost as gripping as a death threat” (Kirkus Reviews), bestselling author and real-life archaeologist Paul Sussman made his explosive entrance into the thriller field.

The world was told that the last Tsar of Russia and his family were butchered in the 'cellar massacre' at Ekaterinburg in 1918. Yet diplomats and reporters did not believe it. And the longest court case of the century failed to explode Anna Anderson's claim to be the Tsar's youngest daughter, Grand Duchess Anastasia. Anthony Summers and Tom Mangold spent five years tracking down witnesses and long-lost documents. The search led to Moscow, Tokyo and Washington and their persistence finally paid off when they found a suppressed official dossier - the File on the Tsar. It shows that the public was fed a lie. The Romanovs did not all die at Ekaterinburg, but became pawns in an international power game, involving Lenin, the Kaiser, the British Royal Family and British Intelligence. And in London, over 80 years later, the cover-up goes on.

Following his international bestsellers *Roma* and *Empire*, Steven Saylor's *Dominus* continues his saga of the greatest, most storied empire in history from the eternal city at the very center of it all. A.D. 165: The empire of Rome has reached its pinnacle. Universal peace—the Pax Roma—reigns from Britannia to Egypt, from Gaul to Greece. Marcus Aurelius, as much a philosopher as he is an emperor, oversees a golden age in the city of Rome. The ancient Pinarius family and their workshop of artisans embellish the richest and greatest city on earth with gilded statues and towering marble monuments. Art and reason flourish. But history does not stand still. The years to come bring wars, plagues, fires, and famines. The best emperors in history are succeeded by some of the worst. Barbarians descend in endless waves, eventually appearing before the gates of Rome itself. The military seizes power and sells the throne to the highest bidder. Chaos engulfs the empire. Through it all, the Pinarius family endures, thanks in no small part to the protective powers of the fascinum, a talisman older than Rome itself, a mystical heirloom handed down through countless generations. But an even greater upheaval is yet to come. On the fringes of society, troublesome cultists disseminate dangerous and seditious ideas. They insist that everyone in the world should worship only one god, their god. They call themselves Christians. Some emperors deal with the Christians with toleration, others with bloody persecution. Then one emperor does the unthinkable. He becomes a Christian himself. His name is Constantine, and the revolution he sets in motion will change the world forever. Spanning 160 years and seven generations, teeming with some of ancient Rome's most vivid figures, Saylor's epic brings to vivid life some of the most tumultuous and

consequential chapters of human history, events which reverberate still.

Frederick Forsyth, The Master Storyteller, Presents Five Brilliantly Ingenious Tales of Murder, Justice, Intrigue and Revenge A miracle in war-torn Siena that begins with the persecution of a young nun in the turbulent days of the sixteenth century and culminates in the bitter German retreat from Italy; a drug-smuggling heist on an international flight where the knock are only one step ahead of the smugglers; a ruthless urban murder, where a brilliant QC decides to defend the killers, resulting in a startling act of justice; an incandescent art scam at a famous London auction house, and a brilliantly plotted revenge that shatters the elegant world of Old Masters - each story is a remarkable tour de force. And above all here is a brilliant novella, 'Whispering Wind', which begins with the single survivor of Custer's Last Stand at the battle of Little Big Horn. It follows the defense from rape and murder of a Cheyenne girl and a flight across the mountains and forests of the West, ending in a savage present-day manhunt in the wild lands of Montana. Whether his theme is international espionage, miraculous events in war-torn Italy or a Customs drug bust, the stories in *The Veteran* all share Forsyth's trademark for compulsive storytelling, his clinical eye for authentic detail and an unnerving sense of suspense. Not since his New York Times bestselling story collection *No Comebacks* has he crafted such remarkable work. Five breathtaking tales from the greatest storyteller of them all.

Review " With this book, Niraj has put Allahabad back on the Literary Map.\* " - Amitabh Bachchan, Legendary Film Actor. " Great potential for making a very interesting, informative historical film." - Zaheeda, Actress - The Gambler, Prem Pujari About the Book The Prologue introduces us to a British cemetery in Chunar, where startling discoveries are made regarding the grave of a Sufi mystic and his hoary connections with the Moghuls of seventeenth century. Many centuries ago, a young prince, born exactly 1000 years from the birth of Islam, becomes the 'Millennium's Most Fortunate Child'. Prince Khurram, introduced to the perils and fatal imbroglios of the royal harem at a tender age of 45 days and the Deccan Wars at the age of seven, watches with loathing the treachery and rebellion of his own father, Prince Salim, against Emperor Akbar, and the seeds of future rebellion and

fratricide are sown. 'Daggers of Treason' is a richly detailed roller coaster ride of clandestine liaisons and intrigue within the harem, the grandeur and cruelty so easily juxtaposed within the Moghul realm, the call of the Timurids to wage relentless war and the eventual decay of Padshah Ghazi Abu'l Fath Jalal Ud Din Mohammed Akbar. The eternal mystique of Anarkali is rekindled and laid to rest. Or, is it ? Deeply researched and fully plausible, it is difficult to ascertain facts from fiction. For lovers of history, fiction and thrill, this book is a reader's delight!

**The Pretender's Gold (Ben Hope, Book 21)** Penguin

From the grand master of international suspense comes his most intriguing story ever—his own. For more than forty years, Frederick Forsyth has been writing extraordinary real-world novels of intrigue, from *The Day of the Jackal* on. Whether writing about the murky world of arms dealers or the intricacies of worldwide drug cartels, every plot has been chillingly plausible because every detail has been minutely researched. But what most people don't know is that some of his greatest stories of intrigue have been in his own life. He was the RAF's youngest pilot at the age of nineteen, barely escaped the wrath of an arms dealer in Hamburg, got strafed by a MiG during the Nigerian Civil War, landed during a bloody coup in Guinea-Bissau (and has himself been accused of helping fund a 1973 coup in Equatorial Guinea). The Stasi arrested him, the Israelis feted him, the IRA threatened him, and a certain attractive Czech secret police agent, well, her actions were a bit more . . . intimate. And that's just for starters. Nominated for the Edgar Award for best critical/biographical work of 2015.
