A Commentary Wm. B. Eerdmans Publishing  
When the Christian church was first forming in the time of the apostles, a heresy that still threatens the church today called Gnosticism started to form. This heresy was battled by the writings of Irenæus to correct theological thinking about God, Jesus and the Bible at large. This early church father was instrumental in fighting false teaching in the early centuries when there were a lot of questions about the legitimacy of Christianity in the face of the persecutions of the Roman Empire. Note: This is a revised edition of the original Devoted Publishing edition. The text hasn't changed just some formatting and footnote layouts have been altered.

### A Literary and Theological Commentary on the Acts of the Apostles Wm. B. Eerdmans Publishing

Highly respected scholar Carl R. Holladay offers an in-depth critical commentary on the book of Acts in this new work from the acclaimed New Testament Library series. Holladay offers a theological, contextual, and literary interpretation, paying attention to Acts as a rich narrative that accounts for the development of the early Christian church. He sees Luke's literary style as an expression of its theological purpose. Holladay writes, "Convinced that Jesus' life and death and the emergence of the early Christian movement occurred under divine guidance and continued the biblical story by fulfilling God's ancient promises, Luke decided to incorporate them into a grandly conceived narrative told in a dignified yet dramatic style. Acts reflects the close relationship between medium and message, yet it also

illustrates how the medium is the message." Holladay's commentary is theologically rich and steeped in narrative analysis that understands the high level of literary style as an expression of the theological content and the telling of the Christian origin. The New Testament Library series offers authoritative commentary on every book and major aspect of the New Testament, providing fresh translations based on the best available ancient manuscripts, critical portrayals of the historical world in which the books were created, careful attention to their literary design, and a theologically perceptive exposition of the biblical text. The contributors are scholars of international standing. The editorial board consists of C. Clifton Black, Princeton Theological Seminary; M. Eugene Boring, Brite Divinity School; and John T. Carroll, Union Presbyterian Seminary.

Experience Pentecost. Look on as 130 converts shake a city. Meet Paul. Go with him as he plants the first Gentile church. Extend the kingdom's power and see the enemy upset. Walk with Paul as he travels to Corinth, Antioch, Ephesus and beyond. For those desiring to be a part of God's action in their churches, their communities and throughout the world, there is nothing that will help more than thoroughly understanding the book of Acts and applying what we can learn from it. Acts was designed to be God's training manual for Christians. It worked in the early church, and it works in the postmodern world. The reader's study of Acts in *The Book of Acts* will bring new intimacy with the Spirit and new joy in doing His will.

**Acts** Baker Academic

Published in conjunction with The Proclamation Trust. There are commentaries, and there are books on preaching - but very few books that are specifically geared to the preacher or Bible teacher tackling a series on a Bible book or doctrinal theme. Key features of books in this series are introductory chapters on 'getting our bearings in the book' and 'planning a series'. The 'meat of the book' then works systematically through a suggested series, working with the Bible teacher from text to sermon or talk. Each chapter ends with a suggested preaching / teaching outline and a detailed Bible study which would be ideal for small groups. Books in this series are aimed at developing confidence in handling God's Word in a variety of contexts. Whether you are a preacher, a small group leader or youth worker, these books will give you the necessary tools for teaching. Teaching Acts is a welcome addition to the series. Acts is a tough book to teach, but vital to the church in every generation.

4th Edition Wm. B. Eerdmans Publishing

"... undertaken to provide earnest students of the New Testament with an exposition that is thorough and abreast of modern scholarship and at the same time loyal to the Scriptures as the infallible Word of God." This statement reflects the underlying purpose of *The New International Commentary on the New Testament*. Begun in the late 1940s by an international team of New Testament scholars, the NICNT series has become recognized by pastors, students, and scholars alike as a critical yet orthodox commentary marked by solid biblical scholarship within the evangelical Protestant tradition. While based on a thorough study of the Greek text, the commentary introductions and expositions contain a minimum of Greek references. The NICNT authors evaluate significant textual problems and take into account the most important exegetical literature. More technical aspects — such as grammatical, textual, and historical problems — are dealt with in footnotes, special notes, and appendixes. Under the general editorship of three outstanding New Testament scholars — first Ned Stonehouse (Westminster Theological Seminary, Philadelphia), then F. F. Bruce (University of Manchester, England), and now Gordon D. Fee (Regent College, Vancouver, British Columbia) — the NICNT series has continued to develop over the years. In order to keep the commentary

“new” and conversant with contemporary scholarship, the NICNT volumes have been — and will be — revised or replaced as necessary. The newer NICNT volumes in particular take into account the role of recent rhetorical and sociological inquiry in elucidating the meaning of the text, and they also exhibit concern for the theology and application of the text. As the NICNT series is ever brought up to date, it will continue to find ongoing usefulness as an established guide to the New Testament text.

The Acts of the Apostles Wm. B. Eerdmans Publishing

The earliest of the four Gospels, the book portrays Jesus as an enigmatic figure, struggling with enemies, his inner and external demons, and with his devoted but disconcerted disciples. Unlike other gospels, his parables are obscure, to be explained secretly to his followers. With an introduction by Nick Cave

Smart Guide to the Bible Baker Academic

If there ever was a hostile environment for the gospel, it was strife-torn, ethnically diverse Palestine following the ascension of Jesus. In Acts, the sequel to his Gospel, Luke tells how the Holy Spirit transformed a ragtag band of believers into a unified, world-changing church. William Larkin explores this narrative of the early church.

Teaching Acts Wm. B. Eerdmans Publishing

Leading biblical scholar Thomas Schreiner provides an easy-to-navigate resource for studying and understanding the Acts of the Apostles and the Pauline Letters. This accessibly written volume summarizes the content of each major section of the biblical text to help readers quickly grasp the sense of particular passages. This is the first volume in the Handbooks on the New Testament series, which is modeled after Baker Academic's successful Old

Testament handbook series. Series volumes are neither introductions nor commentaries, as they focus primarily on the content of the biblical books without getting bogged down in historical-critical questions or detailed verse-by-verse exegesis. The series will contain three volumes that span the entirety of the New Testament, with future volumes covering the Gospels and Hebrews through Revelation. Written with classroom utility and pastoral application in mind, these books will appeal to students, pastors, and laypeople alike.

**The Mighty Acts of God, Revised Edition** Wipf and Stock Publishers

"A significant novel, beautifully crafted and deeply felt. Beha creates a high bonfire of our era's vanities. . . .This is a novel to savor." - Colum McCann Through baseball, finance, media, and religion, Beha traces the passing of the torch from the old establishment to the new meritocracy, exploring how each

generation's failure helped land us where we are today. What makes a life, Sam Waxworth sometimes wondered—self or circumstance? On the day Sam Waxworth arrives in New York to write for the Interviewer, a street-corner preacher declares that the world is coming to an end. A data journalist and recent media celebrity—he correctly forecast every outcome of the 2008 election—Sam knows a few things about predicting the future. But when projection meets reality, life gets complicated. His first assignment for the Interviewer is a profile of disgraced political columnist Frank Doyle, known to Sam for the sentimental works of baseball lore that first sparked his love of the game. When Sam meets Frank at Citi Field for the Mets' home opener, he finds himself unexpectedly ushered into Doyle's crumbling family empire. Kit, the matriarch, lost her investment bank to the financial crisis; Eddie, their son, hasn't been the same since his second combat tour in Iraq; Eddie's best friend from childhood, the fantastically successful hedge funder Justin Price, is starting

to see cracks in his spotless public image. And then there's Frank's daughter, Margo, with whom Sam becomes involved—just as his wife, Lucy, arrives from Wisconsin. While their lives seem inextricable, none of them know how close they are to losing everything, including each other. Sweeping in scope yet meticulous in its construction, *The Index of Self-Destructive Acts* is a remarkable family portrait and a masterful evocation of New York City and its institutions. Over the course of a single baseball season, Christopher Beha traces the passing of the torch from the old establishment to the new meritocracy, exploring how each generation's failure helped land us where we are today. Whether or not the world is ending, Beha's characters are all headed to apocalypses of their own making.
