 Jenna Fischer's Hollywood journey began at the age of 22 when she moved to Los Angeles from her hometown of St. Louis. With a theater degree in hand, she was determined, she was confident, she was ready to work hard. So, what could go wrong? Uh, basically everything. The path to being a professional actor was so much more vast and competitive than she'd imagined. It would be eight long years before she landed her iconic role on *The Office*, nearly a decade of frustration, struggle, rejection and doubt. If only she'd had a handbook for the aspiring actor. Or, better yet, someone to show her the way—an established actor who could

educate her about the business, manage her expectations, and reassure her in those moments of despair. Jenna wants to be that person for you. With amusing candor and wit, Fischer spells out the nuts and bolts of getting established in the profession, based on her own memorable and hilarious experiences. She tells you how to get the right headshot, what to look for in representation, and the importance of joining forces with other like-minded artists and creating your own work—invaluable advice personally acquired from her many years of struggle. She provides helpful hints on how to be gutsy and take risks, the tricks to good auditioning and callbacks, and how not to fall for certain scams (auditions in a guy's apartment are probably not legit—or at least not for the kind of part you're looking for!). Her inspiring, helpful guidance feels like a trusted friend who's made the

journey, and has now returned to walk beside you, pointing out the pitfalls as you blaze your own path towards the life of a professional actor.

Sarah Burwash has been visiting rural communities and remote areas to attend artist residencies, travelling to different cities for art and craft sales, volunteering on farms and working at lodges in the rocky mountains. *The Far Woods* is a collection of watercolours and other works she produced during these residencies and travels. These drawings celebrate the wilderness, rural lifestyles and resourcefulness. Burwash turns to past generations who, by necessity, had to be self-sufficient and create systems of

mutual dependence among community members. Burwash has been researching and immersing herself in environments where she can learn the stories, skills and gain the experience and perspective from earlier generations to create narratives that uproot her own personal mythologies. She seeks to uncover both humble and provocative histories, more specifically those of women who were brazen and persistent in forging for a new social order. She creates characters, environments and narratives that are lyrical yet quiet, like frozen moments from dreams or nightmares. Her work seeks the threads that connect the past and present, weaving imagery that urges people to wander through the drawings, discovering more upon each view and unfolding questions about our relationships to land, nature, spirituality and community.

The United Nations declared the year 2002 as "The Year of the Mountains" and encouraged countries all over the world to have environmental conferences regarding the conservation of mountains. The Conference for the Caribbean and the Americas was held in Cuba, and Clyde Butcher was invited to photograph the mountains of Cuba for the conference. He spent three weeks photographing from the Sierra Maestra of the east coast to the mogote region of the west coast--rain forests, waterfalls, and cliffs that drop off into a perfect ocean. The beauty and majesty of Cuba's natural landscape are captured in his intimate compositions, their focus on shape and light, the horizon and the sky.

Centered Riding is not a style of riding as are dressage, hunter seat, or Western. Rather, it is a way of reeducating a rider's mind and body to achieve greater balance in order to better communicate with the horse. Founder Sally Swift revolutionized riding by showing that good use of the human body makes a world of difference on horseback. Early in her work, she established what she calls the "Four Basics" — centering, breathing, soft eyes, and building blocks—which, together with grounding, are the main tenets of her method. When a rider learns and maintains these basics, then harmony between horse and human is possible.

Sally Swift's first book, *Centered Riding*, made its revolutionary appearance in 1985 and continues as one of the best-selling horse books of all time. This second book doesn't replace the first one, it complements it. In the intervening years, *Centered Riding* continued to evolve, and Sally inevitably developed many new concepts and fresh imagery, all of which are presented here.

There are over seven million horses in America -- even more than when they were the only means of transportation. Nir began riding horses when she was just two years old and hasn't stopped since. This is her funny, moving love letter to these graceful animals and the people who are obsessed with them. She takes us into the lesser-known corners of the riding world and profiles some of its most captivating figures, and speaks candidly of how horses have helped her overcome heartbreak and loss.

The Wimpy Kid John Wiley & Sons

As if recovering from a raucous dream of the 1960s, Gerry Beckley, Dewey Bunnell, and Dan Peek arrived on 1970s American radio with a sound that echoed disenchanted hearts of young people everywhere. The three American boys had named their band after a country they'd watched and dreamt of from their London childhood Air Force base homes. What was this country? This new band? Classic and timeless, America embodied the dreams of a nation desperate to emerge from the desert and finally give their horse a name. Celebrating the band's fiftieth anniversary, Gerry Beckley and Dewey Bunnell share stories of growing up, growing together, and growing older. Journalist Jude Warne weaves original interviews with Beckley, Bunnell, and many others into a dynamic cultural history of America, the band, and America, the nation. Reliving hits like "Ventura Highway," "Tin Man," and of course, "A Horse with No Name" from their 19 studio albums and incomparable live recordings, this book offers readers a new appreciation of what makes some music unforgettable and timeless. As America's music stays in rhythm with the heartbeats of its millions of fans, new fans feel the draw of a familiar emotion. They've felt it before in their hearts and thanks to America, they can now hear it, share it, and sing along.

Learn how to sit, stay, and roll over with this fully illustrated, "delightful" guide to yoga starring man's best friend (Shutterbug magazine). Inspired by a friend's mastiff who would imitate his master's morning yoga routine,

photographer Dan Borris created Yoga Dogs, a full-color collection of forty-five different dogs and puppies doing human yoga poses. Don't worry: No animals were harmed during the making of these images; their extreme flexibility is the result of clever digital trickery. The curious, humorous, and distinctly original pictures are paired with useful information about the poses, as well as some funny canine meditations. "A fresh and highly entertaining visual treat," Yoga Dogs is perfect for any yogi of the two or four-legged variety (Shutterbug magazine). The Electrical Journal Rowman & Littlefield This book presents all the publicly available questions from the PISA surveys. Some of these questions were used in the PISA 2000, 2003 and 2006 surveys and others were used in developing and trying out the assessment.

A story of courage and transformation, of the power of friendship and love, and the importance of doing what is right, whatever the cost. 'Muted' centres around a strong, powerful woman who has lost her way in her pursuit of success in business, and an insightful, enigmatic man who wants to help her rediscover what is truly important. Outback horseman Lane Dimity is one of the most powerful social media personalities on the planet. Although unable to speak since the tragedy that took place on his eighth birthday, his words reach out across the world, changing lives. When he learns that more than a thousand stallions have been bred by the U.S. pharmaceutical company, Pilatos Industries, to be used in the development of their new drug, Stablex, he knows he has to do all he can to free them. Unfortunately, the heir to Pilatos, Karen Lawford, will do everything in her

power to stop him. Pilatos has gambled its future on the revolutionary new drug, Stablex, and these genetically unique stallions are needed to produce the drug... there are no limits to what they will do to ensure that Lane doesn't interfere. Lane tries to convince Karen that the Pilatos stallions must be given their freedom, but his beliefs are losing the battle against the Pilatos creed of greed, and it is only when she learns the shocking truth of what lies at the heart of the laboratories that there's any chance of change, but is it too late for Lane? Sometimes, you only know how much you love someone once you lose them. An intriguing and inspiring story of love and friendship set against the greed of the corporate world. A story that explores what is important in life, starting with the heart-rending tragedy in the Prologue and journeying around the world with humour and mystery. You don't need to like horses to enjoy the book, but even the most experienced horse people will appreciate the knowledge shared by Lane. *Think Like a Monk* Highlights Press Notable birthdays, historical anniversaries, national and international holidays, religious holidays, and thousands of additional days of note from all over the world.
