Piper Comanche - AOPA Piper Comanche Poh
Piper Aircraft ceased production of the Comanche and Twin Comanche in 1972, several years before the General Aviation Manufacturers Association (GAMA) established specifications for the contemporary Pilot's Operating Handbook (POH). Pilot Operating Handbook - International Comanche Society brianmichael.org
The Piper PA-24 Comanche is an American four-seat or six-seat, low-wing, all-metal, light aircraft of semi-

monocoque construction with tricycle retractable landing gear. Piper Aircraft designed and developed the Comanche, which first flew on May 24, 1956. Together with the PA-30 and PA-39 Twin Comanche, it made up the core of the Piper Aircraft lineup until 1972, when the production lines for both aircraft were wiped out in a flood.
