 Montale's Xenia, here in a

new translation, was first
 published in 1966 and
 might be described as
 Italy's The Waste Land.
 This now-famous

sequence came in profound response to the death, in 1963, of his beloved wife. An ark of precious artefacts lost in a flood also resurface in the poem as a metaphor for a loss both personal and historical.

"Published to unanimous acclaim in Europe and winner of Italy's prestigious Viareggio Prize for fiction, *Procedura* introduces a writer of world-class fiction." "At the end of a none too brilliant career, a judge, sent to Sardinia from the mainland, lives alone in a small town, broken relationships and partings left behind him. When a colleague suddenly dies, he is entrusted with the investigation and soon finds himself entwined in the most intimate knowledge of judge Valerio Garau's life - from his rich, orphaned

childhood with its hints of scandal to the red-and-blue capsule with its grain of cyanide that one morning caused him to fall backward among the cafe tables while joking with his mistress." "Was Garau's death suicide, mistake, or murder? His ex-wife or his mistress, his priestly uncle or his blind aunt, his colleagues or his lover's illustrious and influential husband: all of these could be suspected of wanting to free themselves of him. And who was Judge Garau? A cynic, a seducer, a liar, a naif? The investigator must reconstruct a life from the people and effects left behind: yellowed photographs of distant carnivals, archeological finds collected for who knows what passion or pretext, stolen letters, forced locks, police chiefs, homosexuals, and schoolmistresses..."--

Advances and major investments in the field of neuroscience can enhance traditional behavioral science approaches to training,

learning, and other applications of value to the Army. Neural-behavioral indicators offer new ways to evaluate how well an individual trainee has assimilated mission critical knowledge and skills, and can also be used to provide feedback on the readiness of soldiers for combat. Current methods for matching individual capabilities with the requirements for performing high-value Army assignments do not include neuropsychological, psychophysiological, neurochemical or neurogenetic components; simple neuropsychological testing could greatly improve training success rates for these assignments. Opportunities in Neuroscience for Future Army Applications makes 17 recommendations that focus on utilizing current scientific research and development initiatives to improve performance and efficiency, collaborating with pharmaceutical companies to employ neuropharmaceuticals for general sustainment or enhancement of soldier performance, and improving cognitive and behavioral performance

using interdisciplinary approaches and technological investments. An essential guide for the Army, this book will also be of interest to other branches of military, national security and intelligence agencies, academic and commercial researchers, pharmaceutical companies, and others interested in applying the rapid advances in neuroscience to the performance of individual and group tasks.

Andy Warhol (1928-1987) famously once declared: "If you want to know all about Andy Warhol, just look at the surface of my paintings and films and me, and there I am. There's nothing behind it." In 1984, the avatar of superficiality took on a potentially surprising new subject: the work of Norwegian Symbolist Edvard Munch (1863-1944). Warhol made an extensive series of prints based on four of Munch's major subjects--the iconic "The Scream," "Madonna," "Self-Portrait" and "The Brooch"--working with dazzling new color tones including silver and gold. Published on the occasion of an exhibition at the Louisiana

Museum of Modern Art, and featuring a beautiful silkscreened cover, Warhol after Munch unites Warhol's unusual series with its source material. With some never-before-reproduced works, along with in-depth scholarly essays, this catalogue is a must for fans of Munch and Warhol alike, and anyone interested in the cross-germination of visual ideas.

This is the classic book about Aristophanes. Russo examines the plays as libretti for actors and singers rather than as mere texts, and never loses sight of the stage. *The Battle of Britain and the Blitz* Penguin UK
As the collection's title suggests, time's passage is the fil rouge of these stories. All of Tabucchi's characters struggle to find routes of escape from a present that is hard to bear, and from places in which political events have had deeply personal ramifications for their own lives. Each of the nine stories in *Time Ages* in a Hurry is an imaginative inquiry into something hidden or disguised, which can be uncovered not by reason but only by feeling and intuition, by

what isn't said. Disquieted and disoriented yet utterly human in their loves and fears, the characters in these vibrant and often playful stories suffer from what Tabucchi once referred to as a "corrupted relationship with history." Each protagonist must confront phantoms from the past, misguided or false beliefs, and the deepest puzzles of identity--and each in his or her own way ends up experiencing "an infinite sense of liberation, as when finally we understand something we'd known all along and didn't want to know."

Regardless of their sometimes ambiguous concepts of God, the Roman Stoic philosophers did acknowledge Him, but on the basis of reason alone, because they had not met Christ. Nonetheless, they did deduce from God's existence our need to live lives of virtue, honor, tranquility, and self-control--and they developed effective techniques to help us achieve this. Musonius Rufus the teacher, Epictetus the slave, Seneca the adviser to emperors, and Marcus

Aurelius, the emperor himself, produced a practical technology we can use to integrate Christian ethics into our own daily practice. As Kevin Vost so wonderfully illustrates in his new book, *The Porch and the Cross*, the Stoics can help us learn--and remember--what is up to us, and what is up to God alone.

This is the true story of

Vito Ciancimino - Don Vito da Corleone, the 'Mayor of the Corleones' - who spent forty years in the grip of death, mafia, politics, business deals and the secret service. Don Vito recounts years of clandestine and previously censored contacts between politicians and the mafia - between the Italian State and the Cosa Nostra. The key witness is Massimo, the penultimate and hitherto closest of Don Vito's five children, who has given his personal testament for the first time. His account rewrites some of the most important events of Italy's recent history. In the words of Attilio Bolzoni of *Repubblica*: 'This is the portrait of a man who was a key player from post war Italy to our days in one of the most daunting of Italian affairs, a figure who inspired fear, a devil. He was friend with mafia bosses and great politicians, of killers and respectable gentlemen. Vito Ciancimino was the incarnation of power itself, maybe the most hated and feared, the most suspected and worshipped, man of Palermo and of the whole Sicilian society'. If Roberto Saviano's *Gomorra* revealed the workings of

the mafia system at street level, Francesco La Licata and Massimo Ciancimino's *Don Vito* tells us about the people who held the reins of power.

Simone Verovio was the first printer to produce a substantial number of musical prints using engraved copper plates. This intaglio printing technique not only allowed him to print on demand, but also to combine different kinds of notation on one page opening: voice parts with corresponding

harpsichord and lute intabulations. This detailed comparison of intaglio and relief printing techniques in the editions associated with Verovio sheds light on the production of sheet music around 1600 and the comparison of the vocal and instrumental parts provides ground-breaking insights into historical performance practice.

The debate over the place of religion in secular, democratic societies dominates philosophical and intellectual discourse. These arguments often polarize around simplistic reductions, making efforts at reconciliation impossible. Yet more rational stances do exist, positions that broker a peace between relativism and religion in people's public, private, and ethical lives. Christianity, Truth, and Weakening Faith advances just such a dialogue, featuring the collaboration of two major philosophers known for their progressive approach to this issue. Seeking unity over difference, Gianni Vattimo and René Girard turn to Max Weber, Eric Auerbach, and Marcel Gauchet, among others, in their exploration of truth and liberty, relativism and faith, and the tensions of a world filled with new forms of religiously inspired violence. Vattimo and Girard ultimately conclude that secularism

and the involvement (or lack thereof) of religion in governance are, in essence, produced by Christianity. In other words, Christianity is "the religion of the exit from religion," and democracy, civil rights, the free market, and individual freedoms are all facilitated by Christian culture. Through an exchange that is both intimate and enlightening, Vattimo and Girard share their unparalleled insight into the relationships among religion, modernity, and the role of Christianity, especially as it exists in our multicultural world.

By June 1940 Britain faced the enemy across the English Channel with anxious sense that very little kept her from being subjugated by the overwhelming might of the Nazi forces. What rescued the country was

the Royal Air Force's triumph in the Battle of Britain, and the encouragement and endurance of the people who lived, worked and suffered under the Luftwaffe's blitz which, almost nightly from September 1940 until May 1941, rained destruction upon London and other major cities - only to do so again in later campaigns that culminated in the launching of the Nazis' V1 and V2 'vengeance weapons'. Based on eyewitness reminiscences, *The Battle of Britain and the Blitz* relives those desperate times in the words of pilots, ground crew and other airmen and airwomen, firefighters, air-raid wardens, radar operators, potters, anti-aircraft gunners, Red Cross, YMCA and other voluntary workers, and civilians - old and young, male and female - who between them helped ensure that Britain survived to fight another day and, ultimately, to win.

The Porch and the Cross

Michael O'Mara Books
What has liturgy to do with life? The sacred with the secular? This study proposes that the liturgy calls us, in the words of Aidan Kavanagh, "to do the world as the world

was meant to be done."

The sacramental liturgy of the Church and the personal liturgy of our lives should be as a seamless garment.

Consecrating the World continues David Fagerberg's exploration of the Church's *lex orandi* (law of prayer) by expanding two major themes. The first considers liturgy as the matrix wherein our encounter with God becomes an experience of primary theology. The second illustrates how a believer is made ready for this liturgy through asceticism in both its faces - the one negative (dealing with sin), the other positive (dealing with sanctification). This book turns these two themes outward to a liturgical theology of the cosmos - a mundane liturgical theology of the consecration of the world and the sanctification of our daily life. "David Fagerberg invites us, with the urgency of the gospel, to see God the Trinity in every created thing, and to offer to God as a joyful sacrifice of praise the good things He has made, rather than cleaving egocentrically to these good things. When, through the Dove (the Spirit), Christ frees us to

do the world in this way, we become the liturgical priest-kings we were meant to be; we learn how to live and die on the ascending path of Christ. Steeped in the spirituality of the Orthodox East and the Anglican West, enriched by the Catholic masters of Ressourcement, Fagerberg shares his vision in everyday language for all to hear. Just when it seemed that spiritual masters no longer roamed university hallways, God has raised up a true spiritual guide for our time. Open this book, awaken from spiritual slumber, read and rejoice."-MATTHEW LEVERING, Mundelein Seminary "Consecrating the World takes up where David Fagerberg's masterful *On Liturgical Asceticism* left off, providing a key to living the liturgy in every moment and aspect of human life. That this is indeed an everyday task takes nothing away from its divine content and sublime finality. Fagerberg is rightly regarded as one of the foremost liturgical theologians of our day. His engagement with the tradition is both fresh and fruitful. If we are to be 'thoroughly imbued with

the spirit and power of the liturgy, ' we must grasp what the Sacred Liturgy in fact is. For this, Fagerberg is a worthy and rightly demanding guide."-DOM ALCUIN REID, Monastere Saint-Benoit, La Garde-Freinet, France "Consecrating the World is no ordinary book. It is a course in re-training the mind and the senses to perceive the world in a new way. Like the ancient Fathers, David Fagerberg sees all material things as sensible signs leading us to heavenly realities. Like Maximus and Dionysius, he shows us that the cosmos is itself a liturgy, calling us to consecrate ourselves and our work, our passions and the world to God-to sanctify the temporal order. This is a theology most visionary, joyful, and passionate."-SCOTT HAHN, Franciscan University of Steubenville "In David Fagerberg's new book, his trademark genius for integrating liturgical theology, ascetical theology, and the theology of creation is on full display, but here developed in a new, pneumatological direction that seems to lift it all up on the wings of the Holy Spirit. This book fully corroborates Fagerberg's reputation as one of the most creative and

inspiring liturgical theologians of our time. It will have a wide readership both inside the academy, in seminaries, and in the hands of anyone interested in learning what is the deep connection between the sacred moments of the liturgy and the mundane moments of life in the world as we all must live it."-JOHN C. CAVADINI, University of Notre Dame" *Between Enemies* Legare Street Press The work that Titian produced during the first decade of his career is beautiful and varied, but it has raised many questions of attribution and chronology. This book - the first thorough and coherent account of this period in Titian's life - reconstructs what he painted, when he painted it and what these paintings mean. Paul Joannides begins by discussing the probable course of Titian's early career and his relationship to the Bellinis. There are individual excursions on Giorgione and on Sebastiano del Piombo whose work has often been confused with his. Joannides then offers new interpretations of some of Titian's paintings, emphasising their poetic

and dramatic qualities. Among other topics, he associates for the first time the paintings in Saint Petersburg, Venice and Houston; lays out Titian's part of the Fondaco; connects the privately

owned Resurrected Christ with the Fogg Circumcision; integrates the Dresden Venus and the Berlin Portrait into Titian's work; and establishes the dynamism and inventiveness of the

great Assunta of 1516-18. Joannides provides detailed arguments in support of both new and familiar attributions, proposes a more closely reasoned and precise chronology
