INSTANT #1 NEW YORK
TIMES BESTSELLER
Transform your life or
the life of someone you
love with Life
Force—the newest
breakthroughs in
health technology to

help maximize your
energy and strength,
prevent disease, and
extend your health
span—from Tony
Robbins, author of the
#1 New York Times
bestseller *Money:
Master the Game*.
What if there were
scientific solutions that
could wipe out your
deepest fears of falling
ill, receiving a life-
threatening diagnosis,
or feeling the effects of

aging? What if you had access to the same cutting-edge tools and technology used by peak performers and the world's greatest athletes? In a world full of fear and uncertainty about our health, it can be difficult to know where to turn for actionable advice you can trust. Today, leading scientists and doctors in the field of regenerative medicine are developing diagnostic tools and safe and effective therapies that can free you from fear. In this book, Tony Robbins, the world's #1 life and business strategist who has coached more than fifty million people, brings you more than 100 of the world's top medical minds and the latest research, inspiring comeback stories, and amazing

advancements in precision medicine that you can apply today to help extend the length and quality of your life. This book is the result of Robbins going on his own life-changing journey. After being told that his health challenges were irreversible, he experienced firsthand how new regenerative technology not only helped him heal but made him stronger than ever before. Life Force will show you how you can wake up every day with increased energy, a more bulletproof immune system, and the know-how to help turn back your biological clock. This is a book for everyone, from peak performance athletes, to the average person who wants to increase their

energy and strength, to those looking for healing. Life Force provides answers that can transform and even save your life, or that of someone you love.

Idea Man W. W. Norton & Company

INSTANT NEW YORK TIMES BESTSELLER

From the New York Times bestselling author of *I'm Judging You*, a hilarious and transformational book about how to tackle fear--that everlasting hater--and audaciously step into lives, careers, and legacies that go beyond even our wildest dreams

Luvvie Ajayi Jones is known for her trademark wit, warmth, and perpetual truth-telling. But even she's been challenged by the enemy of progress known as fear. She was once

afraid to call herself a writer, and nearly skipped out on doing a TED talk that changed her life because of imposter syndrome. As she shares in *Professional Troublemaker*, she's not alone. We're all afraid. We're afraid of asking for what we want because we're afraid of hearing "no." We're afraid of being different, of being too much or not enough. We're afraid of leaving behind the known for the unknown. But in order to do the things that will truly, meaningfully change our lives, we have to become professional troublemakers: people who are committed to not letting fear talk them out of the things they need to do or say to live free. With humor and honesty,

and guided by the influence of her professional troublemaking Nigerian grandmother, Funmilayo Faloyin, Luvvie walks us through what we must get right within ourselves before we can do the things that scare us; how to use our voice for a greater good; and how to put movement to the voice we've been silencing--because truth-telling is a muscle. The point is not to be fearless, but to know we are afraid and charge forward regardless. It is to recognize that the things we must do are more significant than our fears. This book is about how to live boldly in spite of all the reasons we have to cower. Let's go!

Fledgling: Jason Steed
Houghton Mifflin

Harcourt
Frost & Sullivan's 2014 Growth, Innovation, and Leadership Book of the Year
"EXPONENTIAL ORGANIZATIONS should be required reading for anyone interested in the ways exponential technologies are reinventing best practices in business."
—Ray Kurzweil, Director of Engineering at Google
In business, performance is key. In performance, how you organize can be the key to growth. In the past five years, the business world has seen the birth of a new breed of company—the Exponential Organization—that has revolutionized how a company can accelerate its growth by using technology. An ExO can eliminate

the incremental, linear way traditional companies get bigger, leveraging assets like community, big data, algorithms, and new technology into achieving performance benchmarks ten times better than its peers. Three luminaries of the business world—Salim Ismail, Yuri van Geest, and Mike Malone—have researched this phenomenon and documented ten characteristics of Exponential Organizations. Here, in *EXPONENTIAL ORGANIZATIONS*, they walk the reader through how any company, from a startup to a multinational, can become an ExO, streamline its performance, and grow to the next level. "EXPONENTIAL

ORGANIZATIONS is the most pivotal book in its class. Salim examines the future of organizations and offers readers his insights on the concept of Exponential Organizations, because he himself embodies the strategy, structure, culture, processes, and systems of this new breed of company." —John Hagel, The Center for the Edge Chosen by Benjamin Netanyahu, Prime Minister of Israel, to be one of Bloomberg's Best Books of 2015 *The Second Machine Age: Work, Progress, and Prosperity in a Time of Brilliant Technologies* McGraw Hill Professional The world isn't coming to an end, contrary to what you may have heard. But the media's near-exclusive focus on

conflict and disaster means that the progress and everyday acts of brilliance taking place across the globe go unnoticed. Jurriaan Kamp shows that optimism—intelligent optimism, not a rose-colored-glasses brand of wishful thinking—is good for not only your mind but your body too. He details a whole host of health problems that can actually be linked to pessimism. Moreover, there is good reason for optimism: Kamp proves that on the whole we're living longer, becoming smarter, working less, and growing richer. Not only that, democracy is on the rise, and violence is declining. This book will help you tune out the media's focus on sensationalism and

negativity and turn on your natural optimism so you'll drop into a "real world" that's richer than you ever imagined.

The Black Reckoning

Hay House, Inc

Tormented by his mother's death...

Taken for granted by his father... Trained in deadly martial arts...

Jason Steed is looking for a place to call home. He finds what he's looking for in the Sea Cadets—an elite group of British youngsters being groomed for lifelong service in the military.

But when a routine training exercise goes awry, Jason finds himself in the middle of a secret mission. The future of the world hangs in the balance...and Jason might be the only one who can save it. "A

coming of age heart wrenching story packed with laughs and fast paced action. Most readers who love action and spy fiction will devour this dynamic book in a single sitting or two, otherwise they'll be in extreme agony waiting to see what happens next." -

Times bestselling

author of *Never Eat*

Alone redefines

collaboration with a

radical new workplace

operating system in

which leadership no

longer demands an

office, an official title,

or even a physical

workplace. "An

actionable

methodology for any

team to thrive during

the decade of

exponential change ahead."—Peter H. Diamandis, founder of XPRIZE and Singularity University, bestselling co-author of *Abundance*, *Bold*, and *The Future Is Faster Than You Think* In times of stress, we have a choice: we can retreat further into our isolated silos, or we can commit to "going higher together." When external pressures are mounting, and employees are working from far-flung locations across the globe, says bestselling author Keith Ferrazzi, we can no longer afford to waste time navigating the complex chains of command or bureaucratic bottlenecks present in most companies. But when we choose the bold new methodology of co-elevation as our

operating model, we unlock the potential to boost productivity, deepen commitment and engagement, and create a level of trust, mutual accountability, and purpose that exceeds what could have been accomplished under the status quo. And you don't need any formal authority to do it. You simply have to marshal a commitment to a shared mission and care about the success and development of others as much as you care about your own. Regardless of your title, position, or where or how you work, the ability to lead without authority is an essential workplace competency. Here, Ferrazzi draws on over a decade of research and over thirty years

helping CEOs and senior leaders drive innovation and build high-performing teams to show how we can all turn our colleagues and partners into teammates and truly reboot the way we work together.

The Future Is Faster Than You Think

Simon and Schuster
NATIONAL BESTSELLER
NAMED ONE OF THE MOST INSPIRING BOOKS OF 2018 BY INC. NAMED ONE OF THE BEST STARTUP BOOKS OF ALL TIME BY BOOKAUTHORITY The Messy Middle is the indispensable guide to navigating the volatility of new ventures and leading bold creative projects by Scott Branson, bestselling author, entrepreneur, Chief Product Officer at Adobe, and product advisor to many of

today's top start-ups. Creating something from nothing is an unpredictable journey. The first mile births a new idea into existence, and the final mile is all about letting go. We love talking about starts and finishes, even though the middle stretch is the most important and often the most ignored and misunderstood. Broken into three sections with 100+ lessons, this no-nonsense book will help you: • Endure the roller coaster of successes and failures by strengthening your resolve, embracing the long-game, and short-circuiting your reward system to get to the finish line. • Optimize what's working so you can improve the way you hire, better manage your team,

and meet your customers' needs. • Finish strong and avoid the pitfalls many entrepreneurs make, so you can overcome resistance, exit gracefully, and continue onto your next creative endeavor with ease. With insightful interviews from today's leading entrepreneurs, artists, writers, and executives, as well as Belsky's own experience working with companies like Airbnb, Pinterest, Uber, and sweetgreen, *The Messy Middle* will outfit you to find your way through the hardest parts of any bold project or new venture. MONEY Master the Game Houghton Mifflin Harcourt With the right mindset and insight, anyone can become a

millionaire. Are you tired of just paying bills until you die? Are you wasting your life at a job that doesn't make you fulfilled or financially secure? Then Future Proofing You: Twelve Truths for Creating Opportunity, Maximizing Wealth, and Controlling Your Destiny in an Uncertain World is for you. In this life-changing book, celebrated author and entrepreneur Jay Samit, who's worked with such visionaries as Bill Gates, Steve Jobs, Reid Hoffman, and hundreds of successful entrepreneurs, shares the key understandings and step-by-step process for becoming rich and never needing another job again. To prove the power of his 12 Truths, Samit also details the journey of

how he mentored a broke millennial with these principles and empowered him to go from being on welfare to becoming a self-made millionaire in one year. Building upon the principles in his internationally acclaimed book Disrupt You, Samit explains: How to identify an idea and market to start your business How to build a virtual company with little or no capital The latest free software tools for managing your business Ways to get a piece of a trillion-dollar opportunity bigger than mobile How to harness the three primary fears of others to generate more sales Strategies for finding the right mentors to accelerate your success Techniques to structure any deal for

creating recurring revenue and lasting wealth This book is perfect for anyone who is tired of jobs with no security, hopes to truly realize their professional and personal potential, and is looking for a way to build a better life for them and their family. Future Proofing You also belongs on the bookshelves of entrepreneurs and intrapreneurs everywhere who hope to inspire their teams to become something greater than what they already are.

How to Make a

Spaceship Simon and Schuster

What if you discovered a blueprint that could grow your brand's reputation and loyalty, dramatically reduce customer service issues, produce

content and technology, and cement a powerful, lasting relationship between you and your customers?

Communities have been a popular topic since the rise of the Internet and social media, but few companies have consistently harnessed their power, driven tangible value, and effectively measured their return on investment (ROI) like Salesforce.com, Star Citizen via Kickstarter, and Red Hat.

Companies such as PayPal, Facebook, Bosch, Microsoft, CapitalOne, and Google, have also built communities inside their organizations, which have fostered innovation, broken down silos, and helped their organizations to

operate more efficiently and collaboratively. People Powered helps C-suite leaders, founders, marketers, customer advocates, and community leaders gain a competitive advantage by answering the following questions: What is the key value proposition of building a community? What kind of community do we need and how do we build and integrate it into our organization? How do we incentivize and encourage people to get involved, build reliable growth, and keep community members engaged? How do we develop authentic, productive relationships with community members both online and in person? How do we get

departmental buy-in, hire effectively, and create consistent, reliable community engagement skills in our organization? What are the strategic and tactical pitfalls and roadblocks we need to avoid? How do we make sure that our community continues to grow with us—and more importantly, how do we make sure that we continue to grow with them? People Powered pulls together over 20 years of pragmatic experience into a clear, simple methodology and blueprint to not just answer these questions, but deliver results. Don't get left behind—become an industry trailblazer and ensure your company's longevity by tapping into the most dynamic force both outside and

inside your organization: the people.

Influencers and Revolutionaries W.

W. Norton & Company
A New York Times
bestseller! The historic
race that reawakened
the promise of manned
spaceflight A Finalist
for the PEN/E. O.
Wilson Literary Science
Writing Award Alone in
a Spartan black
cockpit, test pilot Mike
Melvill rocketed toward
space. He had eighty
seconds to exceed the
speed of sound and
begin the climb to a
target no civilian pilot
had ever reached. He
might not make it back
alive. If he did, he
would make history as
the world's first
commercial astronaut.
The spectacle defied
reason, the result of a
competition dreamed
up by entrepreneur

Peter Diamandis,
whose vision for a new
race to space required
small teams to do what
only the world's largest
governments had done
before. Peter
Diamandis was the son
of hardworking
immigrants who
wanted their science
prodigy to make the
family proud and
become a doctor. But
from the age of eight,
when he watched
Apollo 11 land on the
Moon, his singular goal
was to get to space.
When he realized NASA
was winding down
manned space flight,
Diamandis set out on
one of the great
entrepreneurial
adventure stories of
our time. If the
government wouldn't
send him to space, he
would create a private
space flight industry
himself. In the 1990s,

this idea was the stuff of science fiction. Undaunted, Diamandis found inspiration in an unlikely place: the golden age of aviation. He discovered that Charles Lindbergh made his transatlantic flight to win a \$25,000 prize. The flight made Lindbergh the most famous man on earth and galvanized the airline industry. Why, Diamandis thought, couldn't the same be done for space flight? The story of the bullet-shaped SpaceShipOne, and the other teams in the hunt, is an extraordinary tale of making the impossible possible. It is driven by outsized characters—Burt Rutan, Richard Branson, John Carmack, Paul Allen—and obsessive pursuits. In the end, as

Diamandis dreamed, the result wasn't just a victory for one team; it was the foundation for a new industry and a new age.

Girl Decoded

Routledge

A different kind of politics for a new kind of society--beyond work, scarcity and capitalism In the twenty-first century, new technologies should liberate us from work. Automation, rather than undermining an economy built on full employment, is instead the path to a world of liberty, luxury and happiness—for everyone.

Technological advance will reduce the value of commodities—food, healthcare and housing—towards zero. Improvements in renewable energies will

make fossil fuels a thing of the past. Asteroids will be mined for essential minerals. Genetic editing and synthetic biology will prolong life, virtually eliminate disease and provide meat without animals. New horizons beckon. In *Fully Automated Luxury Communism*, Aaron Bastani conjures a vision of extraordinary hope, showing how we move to energy abundance, feed a world of 9 billion, overcome work, transcend the limits of biology, and establish meaningful freedom for everyone. Rather than a final destination, such a society merely heralds the real beginning of history.

[Exponential Organizations](#)
HarperCollins Leadership

In recent years, there has been substantial progress on lesbian, gay, bisexual, transgender, and queer (LGBTQ) civil rights in the United States. We are now, though, in a time of incredible political uncertainty for queer people. *LGBTQ Social Movements* provides an accessible introduction to mainstream LGBTQ movements in the US, illustrating the many forms that LGBTQ activism has taken since the mid-twentieth century. Covering a range of topics, including the Stonewall uprising and gay liberation, AIDS politics, queer activism, marriage equality fights, youth action, and bisexual and transgender justice, Lisa M. Stulberg explores how

marginalized people and communities have used a wide range of political and cultural tools to demand and create change. The five key themes that guide the book are assimilationism and liberationism as complex strategies for equality, the limits and possibilities of legal change, the role of art and popular culture in social change, the interconnectedness of social movements, and the role of privilege in movement organizing. This book is an important tool for understanding current LGBTQ politics and will be essential reading for students and scholars of sexuality, LGBTQ studies, and social movements, as well as anyone new to thinking about these issues.

Learning by Doing

Knopf Books for Young Readers

A book about how to make work pay and not just in cash, but in experience, satisfaction, and joy.

Lifespan Penguin

After spending two years in bed with Lyme disease, Steven Kotler had lost everything: his health, his job, his girl, and, he was beginning to suspect, his mind. Kotler, not a religious man, suddenly found himself drawn to the sport of surfing as if it were the cornerstone of a new faith. Why, he wondered, when there was nothing left to believe in, could he begin to believe in something as unlikely as surfing? What was belief anyway? How did it work in the body, the brain, our culture, and human history? With the help of everyone

from rebel surfers to rocket scientists, Kotler undertakes a three-year globetrotting quest. The results are a startling mix of big waves and bigger ideas: a surfer's journey into the biological underpinnings of belief itself.

Disrupt Yourself Simon and Schuster

The authors document how four forces-- exponential technologies, the DIY innovator, the Technophilanthropist, and the Rising Billion-- are conspiring to solve our biggest problems. "Abundance" establishes hard targets for change and lays out a strategic roadmap for governments, industry and entrepreneurs, giving us plenty of reason for optimism.

The Monk and the Riddle Sourcebooks, Inc.

National Bestseller
CNBC and Strategy + Business Best Business Book of the Year It's the biggest revolution you've never heard of, and it's hiding in plain sight. Over the past decade, Silicon Valley executives like Eric Schmidt and Elon Musk, Special Operators like the Navy SEALs and the Green Berets, and maverick scientists like Sasha Shulgin and Amy Cuddy have turned everything we thought we knew about high performance upside down. Instead of grit, better habits, or 10,000 hours, these trailblazers have found a surprising short cut. They're harnessing rare and controversial states of consciousness

to solve critical challenges and outperform the competition. New York Times bestselling author Steven Kotler and high performance expert Jamie Wheal spent four years investigating the leading edges of this revolution—from the home of SEAL Team Six to the Googleplex, the Burning Man festival, Richard Branson’s Necker Island, Red Bull’s training center, Nike’s innovation team, and the United Nations’ Headquarters. And what they learned was stunning: In their own ways, with differing languages, techniques, and applications, every one of these groups has been quietly seeking the same thing: the boost in information and

inspiration that altered states provide. Today, this revolution is spreading to the mainstream, fueling a trillion dollar underground economy and forcing us to rethink how we can all lead richer, more productive, more satisfying lives. Driven by four accelerating forces—psychology, neurobiology, technology and pharmacology—we are gaining access to and insights about some of the most contested and misunderstood terrain in history. *Stealing Fire* is a provocative examination of what’s actually possible; a guidebook for anyone who wants to radically upgrade their life. *Stealing Fire* Berrett-Koehler Publishers
A NEW YORK TIMES

BESTSELLER “Brilliant and enthralling.” —The Wall Street Journal A paradigm-shifting book from an acclaimed Harvard Medical School scientist and one of Time’s most influential people. It’s a seemingly undeniable truth that aging is inevitable. But what if everything we’ve been taught to believe about aging is wrong? What if we could choose our lifespan? In this groundbreaking book, Dr. David Sinclair, leading world authority on genetics and longevity, reveals a bold new theory for why we age. As he writes: “Aging is a disease, and that disease is treatable.” This eye-opening and provocative work takes us to the frontlines of research that is pushing the boundaries

on our perceived scientific limitations, revealing incredible breakthroughs—many from Dr. David Sinclair’s own lab at Harvard—that demonstrate how we can slow down, or even reverse, aging. The key is activating newly discovered vitality genes, the descendants of an ancient genetic survival circuit that is both the cause of aging and the key to reversing it. Recent experiments in genetic reprogramming suggest that in the near future we may not just be able to feel younger, but actually become younger. Through a page-turning narrative, Dr. Sinclair invites you into the process of scientific discovery and reveals the emerging

technologies and simple lifestyle changes—such as intermittent fasting, cold exposure, exercising with the right intensity, and eating less meat—that have been shown to help us live younger and healthier for longer. At once a roadmap for taking charge of our own health destiny and a bold new vision for the future of humankind, *Lifespan* will forever change the way we think about why we age and what we can do about it.

LGBTQ Social Movements Currency
 What's it like to start a revolution? How do you build the biggest tech company in the world? And why do you walk away from it all? Paul Allen co-founded Microsoft. Together he

and Bill Gates turned an idea writing software into a company and then an entire industry. This is the story of how it came about: two young mavericks who turned technology on its head; the bitter battles as each tried to stamp his vision on the future; and, the ruthless brilliance and fierce commitment. And finally, Allen's extraordinary step in walking away from it all to discover what it is you do after you've already changed the world.
