The debut cookbook from the Saveur blog award-winning Internet expert on making eating cheap dependably delicious

As a college grad during the recent great recession, Beth Moncel found herself, like so many others, broke.

Unwilling to sacrifice eating healthy and well—and armed with a degree in nutritional science—Beth began tracking her costs with

obsessive precision, and soon cut her grocery bill in half. Eager to share her tips and recipes, she launched her blog, Budget Bytes. Soon the blog received millions of readers clamoring for more. Beth's eagerly awaited cookbook proves cutting back on cost does not mean cutting back on taste. Budget Bytes has more than 100 simple, healthy, and delicious recipes, including Greek Steak Tacos, Coconut Chicken Curry, Chorizo Sweet Potato Enchilada, and Teriyaki Salmon with Sriracha Mayonnaise, to name a few. It also contains expert principles for saving in the kitchen—including how to combine inexpensive ingredients with

expensive to ensure that you can still have that steak you're craving, and information to help anyone get acquainted with his or her kitchen and get maximum use out of the freezer. Whether you're urban or rural, vegan or paleo, Budget Bytes is guaranteed to delight both the palate and the pocketbook.

 Revisit Grace Valley,

California, in book 1 of this fan-favorite trilogy by #1 New York Times bestselling author Robyn Carr. Unlocked doors, front porches, pies cooling in the windows—this is country life at its finest. But visitors don't always see what lies at the heart of a community. Or just beyond... June Hudson grew up in Grace Valley, the daughter of the town doctor. Leaving only to get her medical training, she returned home and followed in her father's footsteps. Some might say she chose the easy, comfortable route...but June knows better. For June, her emergency room is wherever she's needed—or wherever a patient finds her. She is always on call, her work is her life and

these people are her extended family. Which is a good thing, since this is a town where you should have picked your husband in the ninth grade. Grace Valley is not exactly the place to meet eligible men—until an undercover DEA agent suddenly starts appearing at all sorts of strange hours. Everybody has secrets down in the valley. Now June has one of her own. Originally published in 2008

The Black Book and the real practice SAT tests from the College Board are all you need to get your best possible SAT score. The Black Book is the ideal SAT book for 3 major reasons: It covers every aspect of the test with advice that actually works, making it unique in the SAT prep field. It doesn't just review material from your high school classes! Instead, you'll learn to exploit design flaws in the SAT, using its own "SAT tricks" against it. The Black Book contains 600+ detailed, systematic, easy-to-follow

walkthroughs for real SAT questions from the College Board, so you know that what you're learning actually works. You'll see every question from the first 4 official SAT Practice Tests attacked in a way that clearly demonstrates the ideal thought process on the SAT. (You'll need your own copies of those real SAT practice tests, which you can get for free from the College Board's website. You can also find them in the College Board's 2016 or 2018 "Blue Book.") The Black Book is a clear, concise roadmap to the SAT. (See the selected highlights below). It explains exactly how every SAT question works, and how to beat it in the least time possible. Selected Highlights from the

SAT Prep Black Book:
Why the SAT isn't
designed like a high
school test, and how
this fact influences
every aspect of the
proper approach to
SAT preparation... Why
every SAT question can
only have one valid
answer, no matter how
much it might seem
otherwise sometimes...
How to look at SAT
questions the same
way the College Board
does when it writes
them... Why it's so
important to work with
real SAT questions
from the College
Board...and why you
shouldn't pay much
attention to the
College Board's written
explanations for those
questions! What you're
actually supposed to
do when the SAT asks
you about an author's
attitude... Why you
shouldn't put your faith

in diagnostic tests,
even if they come from
the College Board...
The important
implications of viewing
time as an investment
on test day... The
simple formula that
allows you to crank out
a top-scoring essay
(that is, if you even
need to do the SAT
Essay in the first
place)... The special
grammatical rules that
are followed by the
SAT Writing and
Language section...and
how they sometimes
differ from common
usage in school... The
unwritten rules for
every kind of SAT
question... The many
ways to approach an
SAT Math question,
and which ones are
likely to work best for
you... Why the "order
of difficulty" doesn't
really exist... Why
every real SAT

question can potentially be answered in under 30 seconds... And much more than we can fit in this space...
