My book traces Robin Hibu's humble beginnings to his current status as one of the most respected police officers in India. The boy who had to walk barefoot to go to school has now attended to his core government duties, as well as dedicating his life for the well-being of others in our vast country. Robin Hibu is the talk of the eight North Eastern States for his

humanitarian services, and being part of this diaspora. People in and around Delhi call him the super cop. He is a channel of blessing to many people. I undertook to write this biography after several years of research on Robin's life, his selfless dedication to his needy brethren, and his numerous initiatives. I was able to complete this book in the year 2021.

What is it that we as a nation are missing? Why, given all our skills, resources and talents, do we settle so often for the ordinary instead of striving to be the best?

At the heart of Ignited Minds is an irresistible premise: that people do have the power, through hard work, to realize their dream of a truly good life. Kalam's vision document of aspiration and hope motivates us to unleash the dormant energy within India and guide the country to greatness.

An Autobiographical Narrative Prabhat Prakashan

'The story of my life has become

intertwined with the story of this country. And somewhere along the way, as I met a million children across this land, I too learnt from a million minds. This book was not written to only tell my story. I want every young reader to think that this book is his or her story too.' A.P.J. Abdul Kalam has been one of the most iconic figures of Independent India. A scientist, leader, thinker, teacher and writer, he achieved remarkable success in various fields. Yet, what endeared him to so many was his dedication to the idea of a developed India, his simple and direct way of interacting with people and his deep love for his fellowmen. In *My Life*, Kalam writes his life story starting from his days growing up at Rameswaram; about working on India's space and missile programmes; his years as the eleventh President of India; and about his life thereafter. Full of anecdotes that demonstrate the importance of hard work, commitment, courage and innovative thinking, this autobiography is a wonderful introduction to a remarkable life. Beautifully illustrated and simply written. *My Life* will inspire readers of all ages. *Encyclopaedia of Muslim Biography: A*

Dr. A. P. J. Abdul Kalam had a great belief in the power of the youth. He met over 21 million children and young people in India and outside and spoke to them about the power of knowledge, ambition, moral behavior and the need to bring about change in society. He travelled to almost every corner of the country meeting the youth in schools, universities and institutions and interacted with them like a committed teacher. In *Learning How to Fly* some of his nearly 2, 000 lectures have been compiled. These lectures were addressed to teachers and students in school and beyond. In each one of them he has spoken about preparing oneself best for life, to identify and overcome challenges and how to bring out the best within each individual. Through stories from his own life, those of his teachers and mentors as well as stories of some of the greatest men and women of the world and the latest developments in science and technology, he shows us the importance of dreams and the hard work needed to turn those dreams into reality. Filled with warmth, inspiration and a positive attitude, *Learning How to Fly* is essential

reading for every Indian, young and old. *Untold Stories* Bloomsbury Publishing

Abul Kalam Azad (1888-1958)--President of the Indian National Congress from 1939 to 1946, outspoken opponent of Jinnah and Partition, symbol of the Muslim will to coexist in a secular India, and scholar and intellectual--was one of modern India's most important leaders. This book, the first substantial biography of Azad in English, charts his many contributions to the intellectual, political, and religious heritage of modern India, revealing important continuities in his life and thought.

Turning Points Penguin UK

It was like any other day on the Anna University campus in Chennai. As I was returning to my room in the evening, the vice-chancellor, Prof. A. Kalanidhi, fell in step with me. Someone had been frantically trying to get in touch with me through the day, he said. Indeed, the phone was ringing when I entered the room. When I answered, a voice at the other end said, 'The prime minister wants to talk with you.' Some months earlier, I had left my post as Principal Scientific Adviser to the Government of India to return to teaching. Now, as I spoke to the PM, Atal Bihari Vajpayee, my life was set for an unexpected change. *Turning Points* takes up the incredible Kalam story from where *Wings of Fire* left off. It brings together details from his career and presidency that are not generally known as he speaks out for the first time on certain points of controversy. It is a continuing saga, above all, of a journey - individual and collective - that will take India to 2020 and beyond as a developed nation.

An Autobiography Harper Collins

In this ground-breaking vision document, first published in 1998, Dr A.P.J. Abdul

Kalam and Y.S. Rajan offer a blueprint for India to be counted among the world's top five economic powers by the year 2020. They cite growth rates and development trends to show that the goal is not unrealistic. Past successes—the green revolution and satellite-based communication linking remote regions of the country, for instance—bear them out. The same sense of purpose can make us a prosperous, strong nation in a matter of years, assert Kalam and Rajan. This is a book that every citizen who hopes for a better India must read.

Enlightened Minds Prabhat Prakashan Pvt Limited

A. P. J. Abdul Kalam became President of India in July 2002. He came to the highest office in the land with doubts being cast on the wisdom of appointing a non-politician, even if it was someone as distinguished as him (he is a recipient of the Bharat Ratna for his work on India's space and defence programmes), to the post. What followed, however, was a remarkable presidency that in the next five years transformed the way people looked at this office, and made Kalam popular in a way few politicians have been. Rashtrapati Bhavan became a

much more accessible place in his time, and his enthusiasm for his favourite cause—a developed and strong India—infected all those who came in touch with him. While the reasons for his popularity will be analysed for a long time, P.M. Nair, who was his Secretary, shows through a series of vignettes in *The Kalam Effect* some of the probable causes. One of them being that Kalam is just a very special human being. P.M. Nair had a long and varied career in the IAS, which he joined in 1967. In July 2002 he was appointed Secretary to the President and continued in that position all through the five years of A.P.J. Abdul Kalam's tenure at Rashtrapati Bhavan.

What is the one quality that all successful people have in common? They have mastered the art of dealing with people! Let this book show you how to: Achieve your goals Handle the human ego Become a master conversationalist Make others feel good about themselves And much more! Skill with people is the one essential ingredient for success and happiness at home and in business. "The Art of Dealing With People" gives you the skills to take your people skills to a level that you never thought possible! Skill in human relations is similar to skill in any other field, in that success depends on understanding and mastering certain basic general principles. You must not only know what to do, but why you're doing it. As far as basic principles are concerned, people are all the same. Yet each individual person you meet is different. If you attempted to learn some gimmick to deal successfully with each separate individual you met, you

would be face with a hopeless task. Influencing people is an art, not a gimmick. When you apply gimmicks in a superficial, mechanical manner, you go through the same motions as the person who "has a way," but it doesn't work for you. The purpose of this book is to give you knowledge based upon an understanding of human nature: why people act the way they do. The methods presented in this book have been tested on thousands of people who have attended my human relations seminars. They are not just my pet ideas of how you should deal with people, but ideas that have stood the test of how you must deal with people. That is, if you want to get along with them and get what you want at the same time. Yes, we all want success and happiness. And the day is long past, if it ever existed, when you could achieve these goals by forcing people to give you what you want. And begging is no better, for no one has respect for, or any desire to help, the person who constantly kowtows and literally goes around with his hand out, begging other people to like him. The one successful way to get the things you want from life is to acquire skill in dealing

with people. Download now and you will learn how.

Give me blood and I'll give you freedom, declared Subhash Chandra Bose. This was exactly what he believed in. The moderate ways of the Congress were not for him. Therefore, he formed the Azad Hind Fauj to overthrow the British. Burning with patriotic zeal, he tried his best to oust the British from his motherland. He was respectfully addressed as "Netaji" and he dedicated his entire life for the freedom of his country. The annals of history have not done justice to this great patriot. It is time that he should be known by the people of India and given his due recognition. This book attempts to bring his life into spotlight and illuminate it so that the reader is conversant with it and appreciates his efforts.

Chanakya Neeti Les Giblin Books

Dr. Kalam was born and brought up in a multi-religious, multi-ethnic community, and this type of milieu had a profound effect on his personality. He gave equal respect to all faiths and religions; and he did not pay only lip-service to different religions. During his life, he visited the

saints and seers of all faiths, discussed with them and learnt from them. He learnt what divinity and spirituality actually meant, and brought out a blended form. For him, religion is a connecting thread. He was quite at ease when he quoted from the Gita or the Hadith, or for that matter, from the holy texts of other faiths. In this book, we have made a solemn endeavour to read his mind, how he thought at every turn of his life; and this will help the readers to understand the intricacies of his thinking and how he was guided for a mission in his life. To understand him well, we have also narrated a number of incidents, accidents and events of his life, that would contribute to holistic understanding about him. He took up the challenges and worked on them wholeheartedly; whenever he failed, he overcame his negativity and came out a stronger man than ever. This is the beauty of his character, and this makes him one of the most popular public figures of all times. May his soul rest in peace! —K. Senthil Kumar, IAS

of Fire An Autobiography
Greatness is not by accident. Greatness is a quality processed, honed and learnt over a lifetime of learning and hard work. Great human beings are built when a curious mind is met with life changing lessons, often early in the childhood. Just like the nature and quality of a tree is decided by the characteristic of the seed and how it is sown, the worth of a human life is shaped in the early stage of childhood. Often these life teachings as a growing up child, transform into the values which set the boundaries of one's adult actions and govern one's decisions. We all know Dr. Kalam as an eminent teacher, an excellent President, an exception scientist, a talented rocket scientist, a team man, an institution builder and a man of ethics and integrity. But what went behind the scenes, in the formative days of "Little Kalam" which shaped him slowly but surely into Dr. Kalam - the man we remember and admire. This book aspires to take you in this early history of childhood of Kalam tracking "Little Kalam" as he begins his first steps into the sands of Rameshwaram - which one day will translate into a march to the Rashtrapati

Bhawan.

Azad Walnut Publication

The definitive biography of India's most loved leader and scientist Aeronautical engineer, rocket scientist, missile man, visionary, teacher and the most inspiring head of state in living memory - Avul Pakir Jainulabdeen Abdul Kalam was all these and more. Unquestionably the most revered Indian leader since Mahatma Gandhi, he transcended all the boundaries and obstacles that came his way in the course of a remarkable life; and he did so with grace and humility. Arun Tiwari tells Dr Kalam's life story with a deep understanding of his formative experiences and character and reveals him as a man personifying all the glory and paradoxes of his nation: secular and religious; exalted and humble; schooled and unaffected; dynamic and calm; scientific and spiritual - an Indian above all.
