1. IIT JAM solved papers and Practice sets are the preparatory guides for Physics, Chemistry, Biotechnology and Mathematics 2. The book is designed as per latest pattern and syllabus 3. 16 Previous years' solved papers [2021-2015] for practice 4. 3 Practice Sets are given to track the progress 5. All the answers have been well explained with details for better understanding of the concepts M.Sc. from IITs and IISc is so worthwhile and blooming for the career. After all, these institutions are known for their quality education in the fields of engineering, science and technology. Both of these institutions jointly conduct IIT JAM - an all India admission test in M.Sc. programmes, P.hD. dual degree and other post B.Sc. Courses. Start preparing yourself with newly updated edition of "IIT JAM Physics Solved Papers [2021-2015]" designed according to the latest exam pattern and syllabus. The book contains good number of Previous Years' Solved papers with their detailed and authentic solutions which fosters an exam

like environment in you. 3 simultaneous Practice Sets are provided at the end for the quick revision of the paper. Step - by - step solutions to each question in solved papers and practice sets help to increase the edificial knowledge of the aspirants. TOC Solved Papers (2021-2015), 3 Practice Sets

 Petrogav International provides courses for participants that intend to work on onshore drilling and production platforms. Training courses are taught by professionals from the oil and gas industry with current knowledge and years of field experience. The participants will get all the necessary competencies to work on the onshore drilling rigs and on the onshore oil and gas rigs. It is intended also for non-drilling and non-production personnel who work in drilling, exploration and

production industry. This includes logistics personnel, accounting, administrative and support staff, environmental professionals, etc. This course provides a non-technical overview of the phases, operations and terminology used on onshore oil and gas rigs. It is intended also for non-production personnel who work in the onshore drilling, exploration and production industry. This includes logistics personnel, accounting, administrative and support staff, environmental professionals, etc. No prior experience or knowledge of production operations is required. This course will provide participants a better understanding of the issues faced in all aspects of drilling operations, with a particular focus on the unique aspects of offshore operations. Petrogav International This book on Engineering Thermodynamic contains basic principles and fundamental laws of Thermal Engineering. It deals with the gas laws and properties of fluids like pressure, temperature and volume. The book discusses the thermodynamic processes like isothermal, isentropic and polytropic processes. The new concept of availability and irreversibility has been included in the book. The various properties like enthalpy, entropy, internal energy of steam

are discussed. The topics on properties of steam and steam cycles like rankine, modified rankine cycles are also presented in the book.

1E Petrogav International Provides coverage of Motor Current Signature Analysis (MCSA) for cage induction motors This book is primarily for industrial engineers. It has 13 chapters and contains a unique data base of 50 industrial case histories on the application of MCSA to diagnose broken rotor bars or unacceptable levels of airgap eccentricity in cage induction motors with ratings from 127 kW (170 H.P.) up to 10,160 kW (13,620 H.P.). There are also unsuccessful case histories, which is another unique feature of the book. The case studies also illustrate the effects of mechanical load dynamics downstream of the motor on the interpretation of current signatures. A number of cases are presented where abnormal operation of the driven load was

diagnosed. Chapter 13 presents a critical appraisal of MCSA including successes, failures and lessons learned via industrial case histories. The case histories are presented in a step by step format, with predictions and outcomes supported by current spectra and photographic evidence to confirm a correct or incorrect diagnosis The case histories are presented in detail so readers fully understand the diagnosis The authors have 108 years of combined experience in the installation, maintenance, repair, design, manufacture, operation and condition monitoring of SCIMs There are 10 questions at the end of chapters 1 to 12 and answers can be obtained via the publisher Current Signature Analysis for Condition Monitoring of Cage Induction Motors serves as a reference for professional engineers, head electricians and technicians working with induction motors. To obtain the solutions manual for this book, please send an email to pressbooks@ieee.org. William T. Thomson is Director and Consultant with EM Diagnostics Ltd,

in Scotland. Prof. Thomson received a BSc (Hons) in Electrical Engineering in 1973 and an MSc in 1977 from the University of Strathclyde. He has published 72 papers on condition monitoring of induction motors in a variety of engineering journals such as IEEE Transactions (USA), IEE Proceedings (UK), and also at numerous International IEEE and IEE conferences. He is a senior member of the IEEE, a fellow of the IEE (IET) in the UK and a Chartered Professional Engineer registered in the UK. Ian Culbert was a Rotating Machines Specialist at Iris Power Qualitrol since April 2002 until his very untimely death on 8th September, 2015. At this company he provided consulting services to customers, assisted in product development, trained sales and field service staff and reviewed stator winding partial discharge reports. He has co-authored two books on electrical machine insulation design, evaluation, aging, testing and repair and was principal author of a number of Electric Power Research Institute reports on motor repair. Ian was a Registered Professional

Engineer in the Province of Ontario, Canada and a Senior Member of IEEE. 200 technical questions and answers for job interview Offshore Drilling Platforms Petrogav International
