[Aesthetics and Politics in a Time of War](#) Farrar, Straus and Giroux
Colorful, cosmopolitan, hard-drinking, often outrageous characters throng this rollicking memoir by the late John Freely, who moved with his family to Istanbul in 1960 and changed travel writing for good with his 1972 guide, *Strolling Through Istanbul*. Dozens of books on travel, history and science would follow.

A virtuoso performance by historian Norman Stone, who has lived and worked in the country since 1997, this concise survey of Turkey's relations with its immediate neighbours and the wider world from the 11th century to the present day. Stone deftly conducts the reader through this story, from the arrival of the Seljuks in Anatolia in the eleventh century to the modern republic applying for EU membership in the twenty-first. It is an historical account of epic proportions, featuring rapacious leaders such as Genghis Khan and Tamerlane through the glories of Sultan Süleyman the Magnificent to Kemal Atatürk, the reforming genius and founder of modern Turkey. At its height, the Ottoman Empire was a superpower that brought Islam to the gates of Vienna. Stone examines the reasons for the empire's long decline and shows how it gave birth to the modern Turkish republic, where east and west, religion and secularism, tradition and modernity still form vibrant elements of national identity. Norman Stone

brilliantly draws out the larger themes of Turkey's history, resulting in a book that is a masterly exposition of the historian's craft.

A Collection of the Poetry of Place Bloomsbury Publishing
Tells the story of Istanbul from its founding to the present day, with an emphasis on daily life in the city throughout the centuries

There is perhaps no other European city quite as romantic, as exquisitely beautiful or as enigmatic as Venice. 'La Serenissima' floats on a hundred islets in a crescent-shaped lagoon, ribboned with canals, its labyrinth shadowed with ghosts of the past. This seemingly fragile city was the birthplace and inspiration for some of the greatest artists in history and was also, for a thousand years, the strongest sea-faring and mercantile power in the world. In *Strolling Through Venice*, John Freely brings Venice - her past and her present - alive. Beginning at Piazza San Marco, Freely guides the reader on a series of carefully planned and unique walks radiating from the iconic Grand Canal into each of the city's sestieri. Through streets and squares, along canals, into churches, galleries, museums and palazzi; every major place of interest that the visitor could hope to see is illuminated. At each spot Freely peels back the layers of history to reveal the stories of Venice. Practical and informative, richly coloured and bursting with history, myth and legend, *Strolling Through Venice* is the perfect guide for anyone who has fallen under the spell of this most enchanting city.

Storm on Horseback I.B. Tauris

One of Time's 12 Books for the History Buffs on Your Holiday Gift List The first single-volume history of Istanbul in decades: a biography of the city at the center of civilizations past and present. For more than two millennia Istanbul has stood at the

crossroads of the world, perched at the very tip of Europe, gazing across the shores of Asia. The history of this city--known as Byzantium, then Constantinople, now Istanbul--is at once glorious, outsized, and astounding. Founded by the Greeks, its location blessed it as a center for trade but also made it a target of every empire in history, from Alexander the Great and his Macedonian Empire to the Romans and later the Ottomans. At its most spectacular Emperor Constantine I re-founded the city as New Rome, the capital of the eastern Roman empire, and dramatically expanded the city, filling it with artistic treasures, and adorning the streets with opulent palaces. Around it all Constantine built new walls, truly impregnable, that preserved power, wealth, and withstood any aggressor--walls that still stand for tourists to visit. From its ancient past to the present, we meet the city through its ordinary citizens--the Jews, Muslims, Italians, Greeks, and Russians who used the famous baths and walked the bazaars--and the rulers who built it up and then destroyed it, including Mustafa Kemal Ataturk, the man who christened the city "Istanbul" in 1930. Thomas F. Madden's entertaining narrative brings to life the city we see today, including the rich splendor of the churches and monasteries that spread throughout the city. Istanbul draws on a lifetime of study and the latest scholarship, transporting readers to a city of unparalleled importance and majesty that holds the key to understanding modern civilization. In the words of Napoleon Bonaparte, "If the Earth were a single state, Istanbul would be its capital."
