How far would you go to get into the right college?... Fans of Becky Albertalli will appreciate this sharp-witted, timely novel about an overachiever who stumbles into the middle of a college admissions scandal. Mischa Abramavicius is a walking, talking, top-scoring, perfectly well-rounded college application in human form. So when she's rejected not only by the Ivies, but also by her loathsome safety school, she is shocked and devastated. All the sacrifices her mother made to send her to prep school, the late nights cramming for tests, the blatantly résumé-padding extracurriculars (read: Students for Sober Driving), the feelings of burnout . . . all that for nothing. As Mischa grapples with the prospect of an increasingly uncertain future, she questions how this could have happened in the first place. Is it possible that her transcript was hacked? With the help of her best friend and sometimes crush, Nate, and a group of eccentric techies known as "The Ophelia Syndicate," Mischa launches an investigation that will shake the quiet community of Blanchard Prep to its stately brick foundations. In her sophomore novel, A. E. Kaplan cranks the humor to full blast and takes a serious look at the extreme pressure of college admissions. "A well-written, intricately plotted, and sympathetic portrayal of the pressures that some elite college-bound kids experience during senior year." --Kirkus Reviews, starred review An ALA-YALSA Best Fiction for Young Adults Book A JLG Selection

Is That a Fish in Your Ear? Harper Collins

THE #1 INTERNATIONAL BESTSELLER WITH OVER 28 MILLION COPIES IN PRINT! A timeless business classic, *Who Moved My Cheese?* uses a simple parable to reveal profound truths about dealing with change so that you can enjoy less stress and more success in your work and in your life. It would be all so easy if you had a map to the Maze. If the same old routines worked. If they'd just stop moving "The Cheese." But things keep changing... Most people are fearful of change, both personal and professional, because they don't have any control over how or when it happens to them. Since change happens either to the individual or by the individual, Dr. Spencer Johnson, the coauthor of the multimillion bestseller *The One Minute Manager*, uses a deceptively simple story to show that when it comes to living in a rapidly changing world, what matters most is your attitude. Exploring a simple way to take the fear and anxiety out of managing the future, *Who Moved My Cheese?* can help you discover how to anticipate, acknowledge, and accept change in order to have a positive impact on your job, your relationships, and every aspect of your life.

The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. *START WITH WHY* asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. *START WITH WHY* shows that the leaders who have

had the greatest influence in the world all think, act and communicate the same way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.

This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's *Traite de langue amharique* (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the language. The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.

Addis Ababa is a sprawling melting pot of cultures where rich and poor live side by side in relative harmony—until they don't. Maaza Mengiste's story "Dust, Ash, Flight" has won the 2021 Edgar Award for Best Short Story, presented by the Mystery Writers of America "Several of the 14 stories here, most of them striking and accomplished, involve post-revolution loss, guilt and revenge. Some are surreal—fitting for a culture where, as Mengiste writes in her introduction, 'there are men who live in the mountains of Ethiopia and can turn into hyenas.'" —Washington Post Akashic Books

Malcolm Gladwell, host of the podcast Revisionist History and author of the #1 New York Times bestseller Outliers, offers a powerful examination of our interactions with strangers and why they often go wrong—now with a new afterword by the author. A Best Book of the Year: The Financial Times, Bloomberg, Chicago Tribune, and Detroit Free Press How did Fidel Castro fool the CIA for a generation? Why did Neville Chamberlain think he could trust Adolf Hitler? Why are campus sexual assaults on the rise? Do television sitcoms teach us something about the way we relate to one another that isn't true? Talking to Strangers is a classically Gladwellian intellectual adventure, a challenging and controversial excursion through history, psychology, and scandals taken straight from the news. He revisits the deceptions of Bernie Madoff, the trial of Amanda Knox, the suicide of Sylvia Plath, the Jerry Sandusky pedophilia scandal at Penn State University, and the death of Sandra Bland—throwing our understanding of these and other stories into doubt. Something is very wrong, Gladwell argues, with the tools and strategies we use to make sense of people we don't know. And because we don't know how to talk to strangers, we are inviting conflict and misunderstanding in ways that have a profound effect on our lives and our world. In his first book since his #1 bestseller David and Goliath, Malcolm Gladwell has written a gripping guidebook for troubled times.

Haile Selassie I, the last emperor of Ethiopia, was as brilliant as he was formidable. An early proponent of African unity and independence who claimed to be a descendant of King Solomon, he fought with the Allies against the Axis powers during World War II and was a messianic figure for the Jamaican Rastafarians. But the final years of his empire saw turmoil and revolution, and he was ultimately overthrown and assassinated in a communist coup. Written by Asfa-Wossen Asserate, Haile Selassie's grandnephew, this is the first major biography of this final "king of kings." Asserate, who spent his childhood and adolescence in Ethiopia before fleeing the revolution of 1974, knew Selassie personally and gained intimate insights into life at the imperial court. Introducing him as a reformer and an autocrat whose personal history—with all of its upheavals, promises, and horrors—reflects in many ways the history of the twentieth century itself, Asserate uses his own experiences and painstaking research in family and public archives to achieve a colorful and even-handed portrait of the emperor.
