The Mystery of a Most Beloved Prayer

Peterson's

“‘Jesus, where are you?’ I prayed every night as I wept . . . I felt I had failed as a priest, for I had preached love and the people made genocide. . . . Then I heard God speak to me. Jesus wanted me to use these experiences to evangelize later. It was then that I knew my life would be spared. God would make a way.”

During the 25th anniversary of the Rwandan genocide, Fr. Ubald Rugirangoga tells the dramatic story of how he survived while losing more than eighty of his family members and 45,000 of his parishioners in the killings. In the aftermath, Fr. Ubald experienced a renewed sense of purpose as a minister of reconciliation and a healing evangelist in his homeland and around the world. In *Forgiveness Makes You Free*, he offers five spiritual principles that can help those traumatized by the past to experience healing and peace in Christ. In 1994 the world looked on in disbelief and horror as

Rwanda erupted in violent bloodshed. All across the landlocked African country, militant Hutus rose up to exterminate the Tutsi population, including women and young children. One hundred days later, a million bodies littered fields, streets, and even churches. Now, on the twenty-fifth anniversary of the Rwandan genocide, a powerful testimony emerges of the power of God to bring peace and reconciliation into hearts full of fear and hate. In *Forgiveness Makes You Free*, Fr. Ubald Rugirangoga shares his own dramatic story of how he survived the genocide and its traumatic aftermath. He testifies about how God spared his life so that he might help others with deep physical, emotional, and spiritual wounds to experience peace and healing. In retelling the story of how he forgave the man who killed his family and cared for the man's children while he was in prison, Fr. Ubald demonstrates how showing mercy can facilitate true forgiveness even in the most painful circumstances of our lives. Throughout the book, Fr. Ubald teaches about five spiritual keys that draw us to Christ, the

only source of lasting peace: be thankful and have faith choose to forgive denounce evil decide to live for Jesus claim the blessing Each chapter combines Fr. Ubald's story with reflection questions that guide readers along their own path of healing: from fear to faith, from shame to freedom, from isolation to reconciliation, from resentment to mercy, and from conflict to peace. The final chapter offers a guided meditation to help those who need to experience the power of God to release those held in bondage by fear and hate and to find the secret of peace. An appendix contains information about "The Mushaka Reconciliation Project," a catechetical tool that has been used successfully by parishes in Rwanda, and could easily be adapted by parishes in the United States, to mediate reconciliation between individuals and groups who have become estranged by violence, trauma, and ethnic or cultural divisions.

This book unfolds the manifold, complex and intertwined relations between Fuzzy Logic and music in a first

comprehensive overview on this topic: systematically as an outline, as completely as possible, in the aspects of Fuzzy Logic in this relation, and especially in music as a process with three main phases, five anthropological layers, and thirteen forms of existence of the art work (Classics, Jazz, Pop, Folklore). Being concerned with the ontological, gnoseological, psychological, and (music-) aesthetic status and the relative importance of different phenomena of relationship between music and Fuzzy Logic, the explication follows the four main principles (with five phenotypes) of Fuzzy Logic with respect to music: similarity, sharpening 1 as filtering, sharpening 2 as crystallization, blurring, and variation. The book reports on years of author's research on topics that have been only little explored so far in the area of Music and Fuzzy Logic. It merges concepts of music analysis with fuzzy logical modes of thinking, in a unique way that is expected to attract both specialists of music and specialists of Fuzzy Logic, and also non-specialists in both fields. The book introduces the

concept of dialectic between sharpening and – conscious – “blurring”. In turn, some important aspects of this dialectic are discussed, placing them in an historical dimension, and ending in the postulation of a 'musical turn' in the sciences, with some important reflections concerning a “Philosophy of Fuzzy Logic”. Moreover, a production-oriented thinking is borrowed from fuzzy logic to musicology in this book, opening new perspectives in music, and possibly also in other artistic fields.

Pope Francis celebrates women in the Church and the world, seen through the lens of Mary, the mother of Jesus, in this enlightening new work. “Mary was not omnipotent, she was a normal woman: full of grace, but normal. The power is that grace of the Holy Spirit. Mary is full of the Holy Spirit, who accompanies her for her entire life.”—Pope Francis

In *Ave Maria*, Pope Francis explores and unpacks line by line the meaning of the *Ave Maria* prayer, while celebrating women and all they do as leaders, friends, sisters, and mothers. Teaming up again with theologian Marco Pozza, Francis illuminates Mary’s simple and complex nature and how her example challenges all of us to lead lives of faith, hope, and perseverance. In the end, she is an icon not just for the religious but for all who look to grow more deeply in their purpose in life.
