Why In, Why Out? Edward Elgar Publishing

The idea for this volume came from the enigma that some Central and Eastern European (CEE) European Union (EU) member states have been keen to join the Eurozone while others have shown persistent reluctance. Moreover, the attitudes towards joining have seemingly not correlated with either the level of economic development or the time spent as part of the EU, nor with any other rational reason such as the level of integration into the EU real economy, or the level of trust in the EU on the part of the public. Therefore, at first sight, the answer to the question 'why in, why out?' remains rather unclear. The attractiveness of the currency union has nevertheless not disappeared for the CEE countries. Despite the Eurozone crisis of 2010-13, it was during that time that the Baltic states introduced the euro. Then, after a few years of inactivity, Croatia and Bulgaria successfully applied for membership of the exchange rate mechanism in July 2020, amid the economic crisis caused by the coronavirus (COVID-19) pandemic. At the same time, the three

Visegrad countries still using their national currencies – Poland, Czechia and Hungary – no longer have a target date to join the monetary union. This volume aims to discuss these issues from horizontal aspects and through country studies, with contributions from expert authors from, or closely related to, the CEE region.

The global financial crisis (GFC) has renewed interest in emergency liquidity support (sometimes referred to as "Lender of Last Resort") provided by central banks to financial institutions and challenged the traditional way of conducting these operations. Despite a vast literature on the topic, central bank approaches and practices vary considerably. In this paper we focus on, for the most part, the provision of idiosyncratic support, approaching it from an operational perspective; highlighting different approaches adopted by central banks; and also identifying some of the issues that arose during the GFC.

The European Union is increasingly being asked to manage crises inside and outside the Union.

From terrorist attacks to financial crises, and natural disasters to international conflicts, many crises today generate pressures to collaborate across geographical and functional boundaries. What capacities does the EU have to manage such crises? Why and how have these capacities evolved? How do they work and are they effective? This book offers an holistic perspective on EU crisis management. It defines the crisis concept broadly and examines EU capacities across policy sectors, institutions and agencies. The authors describe the full range of EU crisis management capacities that can be used for internal and external crises. Using an institutionalization perspective, they explain how these different capacities evolved and have become institutionalized. This highly accessible volume illuminates a rarely examined and increasingly important area of European cooperation.

Drawing on the fields of political economy and historical sociology, Jones dispels the overwhelming consensus among scholars that members of the Association of Southeast Asian Nations (ASEAN) never interfere in the internal affairs of other states, and pioneers a new approach to the understanding of regional politics in Southeast Asia.

Migration is one of the greatest societal challenges of our time. It has many facets, from mass movements to escape war, climate, or human rights abuses to the search for economic opportunity and prosperity. Illicit industries facilitate border crossings at the expense of safety, and governments face problems of processing and integrating new arrivals. These challenges have had a profound impact in Europe, calling into question central values of solidarity and human rights. This book analyses the law and policy of migration in the European Union (EU) and its relationship to understandings of the EU as an international human rights actor. It examines the role crisis plays in determining the priorities of migration policy and the impact political exigencies have on the rights of migrants. This book problematizes the EU Area of Freedom, Security, and Justice as a 'home.' Taking a governmentality approach to critique discourse, the idea of a holistic approach is deconstructed to explore notions of wellness, resilience, responsabilisation and externalisation. The EU's pursuit of a holistic approach to managing migration in crisis indicates problems with EU solidarity, and the tactics employed to bring the crisis under control reveal security concerns that

provoke questions about the EU as an international human rights actor. Both this framework for analysis and the empirical findings make a significant contribution to how the migration crisis can be theorised using adaptable conceptual tools. Under this form of governance, migration becomes a phenomenon to be treated so that its symptoms are ameliorated. This book will be of interest to students and scholars of the EU, migration, and human rights as well as policymakers, commentators, and activists in these areas.

Liam Kennedy here takes as his focus the ways in which selected photographers have sought to frame the activities and effects of American foreign policy, often with a critical perspective, and how their work engages the dynamics of power and knowledge that attend the American worldview. What is at issue in this book is understanding relations between the geopolitical conditions of visibility and the particulars of the image. Conditions of visibility, for Kennedy, are the ideologies that determine certain ways of seeing, that support actions and representations which establish (in)visibilities and which police the relationship between seeing and believing the American worldview. The individual photographers whose work Kennedy so insightfully dissects are those who have pushed the boundaries of photographic practice and who reflect critically on the contexts and scenery of war: Larry Burrows and Philip Jones Griffiths in Vietnam, Gilles Peress covering the Iranian Revolution, Susan Meiselas in El Salvador and Nicaragua, Ron Haviv and Gary Knight in the Balkans, Ashley Gilbertson and Chris Hondros in Iraq, and Tim Hetherington and Lynsey Addario in Afghanistan. These individuals expanded the conception and technical repertoire of photojournalism, receiving critical acclaim, provoking public and professional controversy, and often incurring great personal cost to themselves. Afterimages presents us with a revisionary understanding of the art of conflict photography. The images are often searing they sometimes demonize and dehumanize the enemy, but also humanize friend or victim: a focus on the human roots the range of feeling in such imagery, from horror to pity."

Die 24. Ausgabe des OSCE Yearbook beginnt mit vier Beiträgen, die aktuelle Entwicklungen in der europäischen Sicherheit und gegenwärtige politische Trends im Schatten der Ukraine-Krise beschreiben, die Politik der USA gegenüber Russland analysieren und nach der Fähigkeit der OSZE zur Anpassung an die veränderten Bedingungen durch grundlegende Reformen fragen. Der Themenschwerpunkt ist 2018 dem Westbalkan/Südosteuropa gewidmet und enthält Beiträge u.a. zu den EU-Beitrittsperspektiven Albaniens und Serbiens, zur Rolle der UNTAES in Kroatien, zum Abkommen zwischen Athen und Skopje, zum noch immer umstrittenen Status des Kosovo sowie zur Rolle der EU bei der Bewältigung von Problemen infolge wiedererstarkender autoritärer Tendenzen und zunehmender Migration in der Region. Im Kapitel "Konfliktprävention und Streitbeilegung" wird 2018 erstmals speziell über die Arbeit der Human Dimension Unit der OSZE-Sonderbeobachtermission in der Ukraine berichtet. Weitere Beiträge befassen sich mit dem Langzeitkonflikt in Transnistrien, dem Engagement der OSZE im Bereich Insider-Mediation sowie mit statusneutralen Ansätzen zur Lösung der Konflikte in der Ostukraine und in Transnistrien. Mit Blick auf die "drei Dimensionen umfassender Sicherheit" wird u.a. ein Erfolgsmodell für die Integration von Flüchtlingen in Italien vorgestellt. Darüber hinaus werden Strategien zur Bekämpfung des Menschenhandels im Kontext von Flucht und Migration, Ansätze zur Verhinderung religiöser Radikalisierung in Zentralasien sowie das Konzept der bürgernahen Polizeiarbeit als Schlüsselement bei der Verbrechensbekämpfung erörtert. Ein abschließender Beitrag zeigt auf, wie die OSZE die Kapazitäten staatlicher und nichtstaatlicher Akteure zur Bewältigung transnationaler Bedrohungen stärken kann. Wie stets enthält das OSZE-Jahrbuch einen umfangreichen Anhang mit Daten und Fakten zu den 57 Teilnehmerstaaten und einer aktuellen Literaturauswahl.

In this timely Handbook, over 30 prominent academics, practitioners and regulators from across the globe provide in-depth insights into an area of law that the recent global financial crisis has placed in the spotlight: bank insolvency law. Research Handbook on Crisis Management in the Banking Sector discusses the rules that govern a bank insolvency from the perspectives of the various parties that are affected by these rules. Thus, whilst many bank insolvency rules have been enacted only recently and their application is still clouded by a host of uncertainties, this book takes the perspectives of the relevant authorities, of the bank and of the bank's counterparties. Providing a comprehensive approach to crisis management in the banking sector, this Handbook will prove a valuable resource for academics, postgraduate students, practitioners and international policymakers.

The Politics and Crisis Management of Animal Health Security addresses the 2001 foot and mouth epidemic in the United Kingdom - one of, if not the, most significant crises ever to face the UK farming industry. Underpinned by interviews with politicians and bureaucrats and with significant primary documentary analysis the book shows that the crisis was a critical juncture in how disease outbreaks have been planned and managed ever since. The author explores how this event affected policy and governance arrangements for managing subsequent disease-induced threats (such as avian influenza and bovine TB) and concludes by considering the 'temporality' of lesson learning by the UK government including the current and future challenges associated with managing incongruent risks (e.g., flood protection, swine flu and Ebola). This book provides students of public policy and administration with a significant illustration of how key concepts and analytical lenses from public policy can be applied to the study of the contours of practical policy change.
