 The Pataphysician's Library is a study of aspects of 1890s French literature, with specific reference to the traditions of Symbolism and Decadence. Its main focus is Alfred Jarry, who has proved, perhaps surprisingly, to be one of the more durable fin-de-siècle authors. The originality of this study lies in its use of the enigmatic list of books termed the livres pairs, which appears in Jarry's 1898 novel *Gestes et Opinions du docteur Faustroll*, pataphysicien, his best-known prose work. The greatest interest of the livres pairs lies in a group of works by Jarry's friends and contemporaries, primarily Leon Bloy, Georges Darien, Gustave Kahn, Catulle

Mendes, Josephin Madan, Rachilde, and Henri de Regnier. Several of these authors feature as the lords of islands visited by the pataphysician Dr Faustroll in his curious voyage around Paris. In conjunction with Jarry's own works, the contemporary livres pairs serve to illustrate the vibrant and experimental atmosphere in which these authors worked.

Why and how systems of political financing and representation in Europe and North America give outsized influence to the wealthy and undermine democracy, and what we can do about it. One person, one vote. In theory, everyone in a democracy has equal power to decide elections. But it's hardly news that, in reality, political outcomes are heavily determined by the logic of one dollar, one vote. We take the political power of money for granted. But does it have to be this way? In *The Price of Democracy*, Julia Cagé combines economic and historical analysis with political theory to show how profoundly our systems in North America and Europe, from think tanks and the media to election campaigns, are shaped by money. She proposes fundamental reforms to bring democracy back into line with its egalitarian promise. Cagé shows how different countries have tried to develop legislation to curb the power of private money and to develop public systems to fund campaigns and parties. But these attempts have been incoherent and unsystematic. She demonstrates that it is possible to learn from these experiments in the United States, Europe, and elsewhere to design a better system that would increase political participation and trust. This would involve setting a strict cap on private donations and creating a public voucher system to give each voter an equal amount to spend in support of political parties. More radically, Cagé argues that a significant fraction of seats in parliamentary assemblies should be set aside for representatives from disadvantaged socioeconomic groups. At a time of widespread political disenchantment, *The Price of Democracy* is a bracing reminder of the problems we face and an inspirational guide to the potential for reform.

This book maps the landscape of contemporary European premium television fiction, offering a detailed overview of both the changes in the digital production and distribution and the emergence of specific national and transnational case histories. Combining a media-production approach with a textual and audience analysis, the volume offers a complex, stratified, systemic view of ongoing aesthetic, sociocultural and industrial developments in contemporary

European TV. With contributions from leading experts in the field, the book first offers an overview of the industrial, policy and cultural context for the renaissance of European television drama over the past decade, based on original comparative research. This research is then supported by case study chapters from the key contexts within which quality European television is being produced, offering a complex and complete picture of the industry's strengths and limitations, its traditions and trends, its constraints and future perspectives. A European Television Fiction Renaissance is a must-read book for TV scholars working across Europe and beyond in the areas of media studies, international communications and television studies, media industries studies, production studies, European studies, and media policy studies as well as for those with an interest in television drama, Netflix, globalisation, pay TV and on demand.

The Red and the Black Stendhal - First published in 1830, *The Red and the Black*, is widely considered the masterpiece of 19th century French author Marie-Henri Beyle, known more commonly by his pen name, Stendahl. It follows the ambitions of Julien Sorel, a young man raised in the French countryside who wishes to rise above his provincial station by climbing the social ranks of Parisian society. Through a series of events, Julien's talent and hard work give way to deception and hypocrisy when he realizes the limitations for advancement of a sincere and honest man of humble origins. Although Julien achieves much which he aspires to, ultimately his pride gets the better of him when he commits a violent crime of passion, leading to his tragic downfall. Through the deep psychological introspection of Julien we see Stendhal's unique literary genius, the remarkable way in which he allows readers to live in the minds of his characters. Set against the backdrop of the July Revolution of 1830, *The Red and the Black* is a narrative which embodies the rich social conflict of that time. This edition is translated with an introduction by Horace B. Samuel.

Candide is the picaresque tale of the titular character's fantastical journey from an insular, idealized life in a picturesque castle through the difficulties and evils of the real world. Satirical, comical, witty, and cutting, *Candide* was widely banned in its day for containing blasphemous and seditious concepts. Despite that, it

survived controversy to become an important book in the Western literary heritage. Today *Candide* remains a breezy and darkly funny read. This book is part of the Standard Ebooks project, which produces free public domain ebooks.

This volume offers a new interpretation of one of the most innovative directors in the history of cinema. It is the first book to cover the whole of Godard's career, from the French New Wave to the recent triumphs of *Histoire(s) du cinéma* and *Eloge de l'amour*. Drawing on a wide range of literary, filmic and philosophical texts, the book places Godard's work within its intellectual context, examining how developments in French culture and thought since 1950 have been mirrored in - and sometimes anticipated by - Godard's films. Numerous sequences from Godard's films are singled out for close analysis, demonstrating how the director's radical approaches to narrative, editing, sound and shot composition have made the cinema into an analytical tool in its own right. The book will be essential to all students of Godard's films, and of interest to scholars of modern and contemporary French cinema, culture and thought.
