A painter has vanished: normally an event of no importance, but Théo is the heir to a fortune, and so Inspector Gautier of the Sûreté is put on the case. Then a shady art dealer is murdered. A dealer who had acquired three paintings under dubious circumstances, from a minor artist who died in similarly dubious circumstances. But why is it that so many people want to gain possession of the paintings now - a princess, a Greek millionaire and even, in a roundabout way, Théo?

"The Doctor's Dilemma" is a satirical play written by George Bernard Shaw. This social comedy revolves around the ethical quandaries faced by a set of doctors once they need to determine which affected person is most deserving of limited clinical assets, particularly an existence-saving but experimental treatment. The imperative individual, Sir Colenso Ridgeon, a superb doctor, develops a groundbreaking remedy for tuberculosis, but is faced with the dilemma of getting the simplest amount of medication for one affected person. The scenario becomes more complicated when a charismatic artist, Louis Dubedat, enters the scene. Dubedat is diagnosed with tuberculosis, and his charm and persuasive skills gift a project to the

medical doctors as they grapple with personal biases, professional ethics, and their own desires. Shaw uses the play to critique the clinical career, social hierarchies, and the moral complexities of choice-making. The narrative is laced with Shaw's signature wit and highbrow depth, reflecting the priorities and values inherent within the clinical field and society at large. "The Doctor's Dilemma" stands as a notion-scary exploration of the intersection between medicine, morality, and private ambition, showcasing Shaw's mastery of the use of humor and drama to dissect complicated social troubles.

Edouard Vuillard (1868-1940), one of the most admired post-impressionist artists, is best-known for his small easel paintings and their charming portrayals of everyday life. However, a major part of his work during his early life was the painting of large decorative panels in the Parisian homes of wealthy private patrons, produced between 1892 and 1912. These panels - some fifty in total - have been little studied, due principally to the inaccessibility of many of them and the impossibility of their being included in exhibitions.

In this user-friendly book, parents learn revolutionary common sense techniques for raising successful children with disabilities. When we recognize that disability is a natural part of the human experience, new attitudes lead to new actions for successful lives at home, in school and in communities. When parents replace today's conventional wisdom with the common sense values and creative thinking detailed in this book, all children with disabilities (regardless of age or type of disability) can live the life of their dreams. Readers will learn how to define a child by his or her assets - instead of a disability-related "problem," and how to create new and improved partnerships with educators, health care professionals, family and friends

TRY: a rodeo rider's mettle in the face of being thrown off time after time... In Denver, Colorado, Daryl Heatherly is a promising young artist, hoping to find the place she fits in. Back home in the country just outside of Cheyenne, Wyoming—the real west—she's returning to the last place her family all lived together, to a life bordered only by sage and sky. And it's there she rubs up against J.W. Jarrett, a World Champion rodeo cowboy and old-school Southern gentleman. Against her better judgment—not to mention that of her best friend, Shawna, and over-protective brother, Jace—Daryl forges ahead despite her own recent heartbreak, not only dating J.W., but joining him on the circuit to watch him ride. Even though the chemistry between them is immediate and undeniable, Daryl is determined not to fall for a cowboy, with all the dust and drama that implies—especially when she finds out that J.W. is a man with secrets. But Daryl hasn't counted on the grit of a man who has outlasted every other rider in the ring—her cowboy isn't going to give up that easily... A love story set in the New West world of honky-tonks, buckle bunnies and pointy-toed boots, TRY is a fast, fresh, sensually charged novel about holding on to what you love despite all the bumps and bruises.

Seriously. Look in any large commercial bookstore—you'll be shocked by the sheer number of books written on the subject. Especially bookstores associated with a university, and even more so, universities with a medical school. You'll find Anatomy textbooks, many of them hefty tomes and others, slimmer, distilled, even pocket volumes. Also Anatomy atlases, some of these of the classic, masterfully hand-drawn kind and others, the increasingly popular slick photograph and illustration variety; and Anatomy dissection guides; and an Anatomy coloring book or two. Elsewhere, there are likely Anatomy-themed novels, and more. So what, other than hubris or a tragically delayed middle-age crisis would drive me to now add yet another Anatomy book to this hopelessly cluttered pile? The only answer I have to this obvious but no-less-worthy-for-being-so question is "None of those others are like mine." For one thing, there is the small matter of my three decades spent studying, organizing, drawing, explaining, encouraging, haranguing med students on three continents on all matters anatomical.

frightened nervous masses | in cages of flesh and bone | sucking through mirrored tunnels | shadows they call life / The fourth book of tales by Eduardo Capistrano explores the traps of the senses: insufficient tools on which we rely to decipher a world of illusions. The collection opens with Polished Metal, the tragicomic story of two friends that could be twin brothers. The Assassin Statue is a report on a museum piece surrounded by a terrible legend. Golden Promises follows a disillusioned groom in an unhappy escapade. In Folie à Deux, a father and one of his sons look for reality after the storm. In Chimera in Pieces, a man replaces all of his body with prosthetics. A company delivery man discovers what is The Prey of Man. Based on the work of Erik Satie, Vexations shows the repetitive challenge taken by an arrogant musician. Reflections on Torment shows the bitter existence of a man constantly attacked by a reflection. The author proposes A Russian Enigma about the various versions that a story can have. Eccentric Vision is not only the perspective but also the solution of a painter for his lost sight, which is taken by creatures that are, in one way or another, fruits of his mind. Almost Cyrano is a bizarre subversion of Rostand's romantic. The most skilled musician of a distant Empire is summoned to play In the Court of the Canary King. In (ghûl), a lost man try to find himself, while a friend also tries to find him. Nobody wants to work at The Abandoned Station, and we follow its last occupant to find out why. Dark Eyes watch a company's emissary to an island in which experiments went wrong. The Venus Effect accompanies someone who discovers a tool for self-affirmation. The Musica Universalis resounds in the surreal world found by a technician in the sewers. Pupilla is a

Sir Colenso Ridgeon is a respected medical man who has developed a new cure for tuberculosis. His limited resources mean he can cure only a few people at a time, leaving him to decide who lives and who dies. The dilemma he faces is whose life is worth saving: a talented but amoral young artist, or a goodhearted public servant? Ridgeon is helped in his decision by his friends, doctors all, who represent author George Bernard Shaw's opinion of the medical men of his day: a surgeon who prescribes an operation for every ailment; a general practitioner who sells cheap patent medicines to London's poor; a wealthy and successful doctor to the rich and famous devoid of any medical talent but with a charming bedside manner; and a cynical retired doctor with no tolerance for modern medical science. Shaw uses this backdrop to draw out the two social problems at the heart of the play. First, what makes one man more worthy of society's resources: personal virtue, artistic talent, or money? Second, and more important, the play highlights the danger of a medical system where every doctor has an incentive to treat their patients, but not to cure them. There are many times we wonder what would happen if we lost all control over our emotions and acted on them, especially the bad ones. Most of us do not act on our hatred because of our laws and morality, but if those laws and morally weren't in play, then what? There were many people who have pushed me to the brink, which made me ponder what I could do to them if I abandoned my morality and just went forward on pure emotion. Thinking of it is disturbing. Acting on it is frightening. Ron is a man who lived a less-than-happy life, but he was a very talented artist. He was so desperate for happiness he went into a marriage blindly. The one saving grace to a horrible marriage is a loving child. Sometimes even having one saving grace can't save you from going to the dark path. And if you do, you forfeit the people who bring light to that darkness. If anyone can walk away with one thing from Ron, it's that the light will always destroy the darkness. He learned too late and struggled to recapture that light for just one moment.
