BPP Learning Media is an ACCA Approved Content Provider. Our partnership with ACCA means that our Study Texts, Practice & Revision Kits and iPass (for CBE papers only) are subject to a thorough ACCA examining team review. Our suite of study tools will provide you with all the accurate and up-to-date material you need for exam success.

Crazy Is a Compliment Lulu.com
Poverty-related problems facing Africa are not only overwhelming but are also monumental and worrisome. Some of Africa's poverty problems are self-inflicted and have increasingly become systemically chronic, while others are externally instigated. This book focuses on an aspect of those problems that are principally internal to Africa--the issue of corruption. The book picks out Zambia as a case study. Thus, the efficacy of the legal and institutional framework for fighting corruption in Zambia is examined.

As an authoritative text on Zambian jurisprudence, this book brings out critically and analytically incisive legal perspectives. The book also makes reference to closely related developments in other jurisdictions. Weaknesses in the legal and institutional framework in Zambia are identified, and the book spells out proposals to strengthen the framework. "The book is an excellent attempt to set the record straight on the otherwise often confusing present situation in Zambia vis-a-vis the established legal and institutional

mechanisms, which sometimes appear to compete against each other. This seems to work against the very *raison d'être* or objective for which they were instituted. The book attempts to provide some solutions on how this could be avoided or overcome. ... It is a highly recommended work for people in other countries, especially developing ones, who are also involved in the fight against corruption to draw lessons from Zambia's attempt to rid itself from this scourge." - Dr. Mpazi Sinjela, LL.B (UNZA), LL.M, JSD (Yale) Dean, WIPO Worldwide Academy; Professor, (Visiting), Lund University and Raoul Wallenberg Institute (Sweden); Co-Director and Professor, Masters Degree Program in Intellectual Property, University of Turin, (Italy)"

The term "project finance" is now being used in almost every language in every part of the world. It is the solution to infrastructure, public and private venture capital needs. It has been successfully

used in the past to raise trillions of dollars of capital and promises to continue to be one of the major financing techniques for capital projects in both developed and developing countries. Project Finance aims to provide: *Overview of project finance *Understanding of the key risks involved in project finance and techniques for mitigating risk *Techniques for effective evaluation of project finance from both a financial and credit perspective The author differentiates between recourse and non-recourse funding, tackles the issues of feasibility, identifies the parties normally involved with project finance plans, and details techniques for realistic cash flow preparation. *Inspired by basic entry level training courses that have been developed by major international banks worldwide *Will enable students, and those already in the finance profession, to gain an understanding of the basic information and principles of project finance *Includes questions with answers, study topics, practical 'real world' examples and an extensive bibliography

In the tradition of Kabul Beauty School and

Start Something That Matters comes an inspiring story of social entrepreneurship from the co-founder of Kiva, the first online microlending platform for the working poor. Featuring lessons learned from successful businesses in the world's poorest countries, Jessica Jackley's *Clay Water Brick* will motivate readers to more deeply appreciate the incredible entrepreneurial potential that exists in every human being on this planet—especially themselves. "The heart of entrepreneurship is never about what we have. It's about what we do." Meet Patrick, who had next to nothing and started a thriving business using just the ground beneath his feet . . . Blessing, who built her shop right in the middle of the road, refusing to take the chance that her customers might pass her by . . . Constance, who cornered the banana market in her African village with her big personality and sense of mission. Patrick, Blessing, Constance, and many others are among the poorest of the world's poor. And yet they each had crucial lessons to teach Jessica Jackley—lessons about resilience, creativity, perseverance, and, above all, entrepreneurship. For as long as

she could remember, Jackley, the co-founder of the revolutionary microlending site Kiva, had a singular and urgent ambition: to help alleviate global poverty. While in her twenties, she set off for Africa to finally meet the people she had long dreamed of helping. The insights of those she met changed her understanding. Today she believes that many of the most inspiring entrepreneurs in the world are not focused on high-tech ventures or making a lot of money; instead, they wake up every day and build better lives for themselves, their families, and their communities, regardless of the things they lack or the obstacles they encounter. As Jackley puts it, “The greatest entrepreneurs succeed not because of what they possess but because of what they are determined to do.” In *Clay Water Brick*, Jackley challenges readers to embrace entrepreneurship as a powerful force for change in the world. She shares her own story of founding Kiva with little more than a laptop and a dream, and the stories and the lessons she has learned from those across the globe who are doing the most with the least. Praise for *Clay Water Brick* “Jessica Jackley didn’t wait for

permission to change the world—she just did it. It turns out that you can too.”—Seth Godin, author of *What to Do When It’s Your Turn* “Fascinating . . . gripping . . . bursting with lessons . . . Jessica Jackley has written a remarkable book . . . so thoroughly well meaning and engagingly put it is too magnetic to put down.”—Financial Times “*Clay Water Brick* is a tremendously inspiring read. Jessica Jackley, the virtuoso co-founder of the revolutionary microlending platform Kiva, shares uplifting stories and compelling lessons on entrepreneurship, resilience, and character.”—Adam Grant, author of *Give and Take* “A blueprint for anyone who wants to make the world a better place and find fulfillment in the process, no matter how scarce their resources or how steep the challenge.”—Arianna Huffington “This book is inspirational. And honest and practical. . . . Well written, thoughtful: a selfless account of how to succeed by doing right and following your heart.”—Booklist

This book provides the first scholarly history of the viola d'amore, a popular bowed string instrument of the Baroque era, with a unique tone produced by a set of metal sympathetic strings. Composers like Bach made use of the viola d'amore for its particular sound, but the instrument subsequently fell out of fashion amid orchestral standardisation, only to see a revival as interest in early music and historical performance grew. Drawing on literary accounts, iconography, and surviving instruments, this study examines the origins and development of this eye-catching string instrument in the seventeenth and eighteenth centuries. It explores the rich variation of designs displayed in extant viola d'amore specimens, both as originally constructed

and as a result of conversion and repair. The viola d'amore is then set into the wider context of Elizabethan England's development of instruments with wire strings, and its legacy in the form of the baryton which emerged in the early seventeenth century, followed by a look at the viola d'amore's own nomenclatorial and organological influence. The book closes with a discussion of the viola d'amore's revival, and its use and manufacture today. Offering insights for

organological research and historical performance practice, this study enhances our knowledge of both the viola d'amore and its wider family of instruments.

The National Underwriter Becker Professional Education Ltd
Reveals how companies like GE and Burberry have broken the corporate mould, and introduces us to entrepreneurs like Leila Velez, who started a multi-million hair-care company from her kitchen sink in
