The Rattle of Theta Chi ULM Chacahoula
* A Real Simple Best Book of 2019: "An essential read for parents and students." *
The New York Times bestselling author of Pledged is back with an unprecedented fly-on-the-wall look inside fraternity houses from current brothers' perspectives—and a fresh, riveting must-read about what it's like to be a college guy today. Two real-life stories. One stunning twist. Meet Jake, a studious freshman weighing how far to go to find a brotherhood that will introduce him to lifelong friends and help conquer his social awkwardness; and Oliver, a hardworking chapter president trying to

keep his misunderstood fraternity out of trouble despite multiple run-ins with the police. Their year-in-the-life stories help explain why students are joining fraternities in record numbers despite scandalous headlines. To find out what it's like to be a fraternity brother in the twenty-first century, Robbins contacted hundreds of brothers whose chapters don't make headlines—and who suggested that many fraternities can be healthy safe spaces for men. Fraternity is more than just a page-turning, character-driven read. It's a vital book about the transition from boyhood to manhood; it brilliantly weaves psychology, current events, neuroscience, and interviews to explore the state of masculinity today, and what that means for students and their parents. It's a different kind of story about college boys, a story in which they candidly discuss sex, friendship, social media, drinking, peer pressure, gender roles, and even porn. And it's a book about boys at a vulnerable age, living on their own for perhaps the first time. Boys who, in a climate that can stigmatize them merely for being male, don't necessarily want to navigate the complicated, coming-of-age journey to

manhood alone.

“A masterpiece of multidisciplinary scholarship that clearly demonstrates the contemporary relevance of black fraternities and sororities.” —Hasan Kwame Jeffries, author of *Bloody Lowndes*

During the twentieth century, black Greek-Letter organizations (BGLOs) united college students dedicated to excellence, fostered kinship, and uplifted African Americans. Members of these organizations include remarkable and influential individuals such as Martin Luther King Jr., Congresswoman Barbara Jordan, novelist Toni Morrison, and Wall Street pioneer Reginald F. Lewis. Despite the profound influence of these groups, many now question the continuing relevance of BGLOs, arguing that their golden age has passed. To foster a greater engagement with the history and contributions of BGLOs, *Black Greek-Letter Organizations in the Twenty-first Century* brings together an impressive group of authors to explore the contributions and continuing possibilities of BGLOs and their members. Editor Gregory S. Parks and the

contributing authors provide historical context for the development of BGLOs, exploring their service activities as well as their relationships with other prominent African American institutions. Both internally and externally, BGLOs struggle to forge a relevant identity for the new century. Internally, these groups wrestle with many issues, including hazing, homophobia, petty intergroup competition, and the difficulty of bridging the divide between college and alumni members. Externally, BGLOs face the challenge of rededicating themselves to their communities and leading an aggressive campaign against modern forms of racism, sexism, and other types of fear-driven behavior. By embracing the history of these organizations and exploring their continuing viability and relevance, *Black Greek-Letter Organizations in the Twenty-first Century* demonstrates that BGLOs can create a positive and enduring future and that their most important work lies ahead.

The rich history and social significance of the "Divine Nine" African American Greek-letter organizations is explored in this comprehensive anthology. In the long tradition of African American benevolent and secret societies, intercollegiate African American fraternities and sororities have strong traditions of fostering brotherhood and sisterhood among their members, exerting considerable influence in the African American community and being in the forefront of civic action, community service, and philanthropy. Dr. Martin Luther King, Jr., Toni Morrison, Arthur Ashe, and Sarah Vaughn are just a few of the trailblazing members of these organizations. *African American Fraternities and Sororities* places the history of these organizations in context, linking them to other movements and organizations that predated them and tying their history to the Civil Rights

movement. It explores various cultural aspects of the organizations, such as auxiliary groups, branding, calls, and stepping, and highlights the unique role of African American sororities.

2015 Edition: With a New Preface, Afterword, and Updates. "Alexandra Robbins rips into the secret, sordid underbelly of sororities."--Vanity Fair
Updated ten years after it is original publication, *Pledged* by Alexandra Robbins is as timely today as it was when first published. With salacious breaking news about fraternities and sororities shocking the general public (and members themselves) *Pledged* exposes what really goes on behind the facades of some of these Greek organizations. Robbins, an investigative journalist, went undercover as a sorority sister; her expose is a

brehtaking narrative of tumultuous breakups, fights, drunk driving, stalkers, cover-ups, predation by faculty and staff, theft, rape, and an abundance of drugs and alcohol, and much, much more.

Reveals the historical and political significance of “The Divine Nine”—the Black Greek Letter Organizations. In 1905, Henry Arthur Callis began his studies at Cornell University. Despite their academic pedigrees, Callis and his fellow African American students were ostracized by the majority-white student body, and so in 1906, Callis and some of his peers started the first, intercollegiate Black Greek Letter Organization (BGLO), Alpha Phi Alpha. Since their founding, BGLOs have not only served to solidify bonds among many African American college students, they have also imbued them with a sense of purpose and a commitment to racial uplift—the endeavor to help Black Americans reach socio-economic equality. *A Pledge with Purpose* explores the arc of these unique, important, and relevant social institutions. Gregory S. Parks and Matthew W. Hughey uncover how BGLOs

were shaped by, and labored to transform, the changing social, political, and cultural landscape of Black America from the era of the Harlem Renaissance to the civil rights movement. Alpha Phi Alpha boasts such members as Thurgood Marshall, civil rights lawyer and US Supreme Court Justice, and Dr. Charles Wesley, noted historian and college president. Delta Sigma Theta members include Bethune-Cookman College founder Mary McLeod Bethune and women’s rights activist Dorothy Height. Huey P. Newton, co-founder of the Black Panther Party, who left an indelible mark on the civil rights movement, was a member of Phi Beta Sigma, while Dr. Mae Jemison, a celebrated engineer and astronaut, belonged to Alpha Kappa Alpha. Through such individuals, Parks and Hughey demonstrate the ways that BGLO members have long been at the forefront of innovation, activism, and scholarship. In its examination of the history of these important organizations, *A Pledge with Purpose* serves as a critical reflection of both the collective African American racial struggle and the various strategies of Black Americans in their great—and

unfinished—march toward freedom and equality.

Delta Gamma Fraternity

When does becoming part of the team go too far? For decades, young men and women endured degrading and dangerous rituals in order to join sororities and fraternities while college administrators blindly accepted their consequences. In recent years, these practices have spilled

over into the mainstream, polluting military organizations, sports teams, and even secondary schools. In *Destroying Young Lives: Hazing in Schools and the Military*, Hank Nuwer assembles an extraordinary cast of analysts to catalog the evolution of this dangerous practice, from the first hazing death at Cornell University in 1863 to present day tragedies. This hard-hitting compilation addresses the numerous, significant, and often overlooked impacts of hazing, including including sexual exploitation, mental distress, depression, and even suicide. *Destroying Young Lives* is a compelling look at how universities, the military, and other social groups can learn from past mistakes and protect their members going forward.

Sorority Sisters Beejay Enterprises
Dear Heavenly Father, Thank you for developing me into a beautiful and talented woman. Thank you for being my protector and my guide. And as I make my way along my journey, bless me with the wisdom to make intelligent choices. So begins *Sorority Sisters* by Tajuana "TJ" Butler, a dazzling new voice in African-American fiction. In this wonderful debut

novel, five young women from diverse backgrounds pledge an African-American sorority and learn the true meaning of sisterhood. CAJEN is a naive freshman whose brief affair with Jason, the campus Romeo, has life-changing repercussions. With hardly a chance to cope with her new circumstances, she finds herself dealing with the stress of pledging while battling feelings of depression and guilt. TIARA grew up as the oldest of five children raised by a single mother in the projects of Gary, Indiana. Motivated by Rhonda, her mentor through the Big Sisters program, she has worked hard for everything she has achieved. Simply being in college is a victory for her. CHANCEY is brilliant, with a photographic memory that has allowed her to breeze through school. In fact, she skipped her freshman year entirely and entered college as a sophomore. She has always been made to feel like an outsider because of her intelligence, and the sorority represents an opportunity for her finally to fit in. STEPHANIE is the spoiled only child of a prominent, wealthy family from Savannah. She is used to getting the best and expects no less. But Stephanie is adopted and harbors a secret about her

birth mother that she fears will cause others to think less of her. MALENA is ambitious, talented, and smart. She knows what she wants and is steadfast when it comes to achieving her goals. Her strength and resolve ultimately benefit the group as a whole. These five very different young women are thrust together and soon must learn to unite and draw upon one another's talents. During the course of their pledge process, they struggle to discover and define their futures, finding strength in the group and within themselves. In *Sorority Sisters*, Butler writes with sensitivity and authenticity about issues revolving around class, friendship, self-discovery, sexuality, and love. She has created characters who remain with you long after the last page has been turned. A gifted young storyteller, Tajuana "TJ" Butler has a voice we'll be hearing from for a long time. *For My Sister, My Friend* University Press of Kentucky
College fraternity culture has never been more embattled. Once a mainstay of campus life, fraternities are now subject to withering criticism for reinforcing white male privilege and undermining the lasting

social and economic value of a college education. No fraternity embodies this problem more than Sigma Alpha Epsilon, a national organization with more than 15,000 undergraduate brothers spread over 230 chapters nationwide. While SAE enrollment is still strong, it has been pilloried for what John Hechinger calls "the unholy trinity of fraternity life": racism, deadly drinking, and misogyny. Hazing rituals have killed ten undergraduates in its chapters since 2005, and, in 2015, a

video of a racist chant breaking out among its Oklahoma University members went viral. That same year, SAE was singled out by a documentary on campus rape, *The Hunting Ground*. Yet despite these problems and others, SAE remains a large institution with strong ties to Wall Street and significant political reach. In *True Gentlemen*, Hechinger embarks on a deep investigation of SAE and fraternity culture generally, exposing the vast gulf between its founding ideals and the realities of its impact on colleges and the world at large.

He shows how national fraternities are reacting to a slowly dawning new reality, and asks what the rest of us should do about it. Should we ban them outright, or will they only be driven underground? Can an institution this broken be saved? With rare access and skillful storytelling, Hechinger draws a fascinating and necessary portrait of an institution in deep need of reform, and makes a case for how it can happen.
