This epoch-making and monumental work on Vedic Mathematics unfolds a new method of approach. It relates to the truth of numbers and magnitudes equally applicable to all sciences and arts. The book brings to light how great and true knowledge is born of intuition, quite different from modern Western method. The ancient Indian method and its secret techniques are examined and shown to be capable of solving various problems of mathematics. The universe we live in has a basic mathematical structure obeying the rules of mathematical measures and relations. All the subjects in mathematics- Multiplication, Division, Factorization, Equations, Calculus, Analytical Conics, etc.-are dealt with in forty chapters, vividly working out all problems, in the easiest ever method discovered so far. The

volume, more a 'magic', is the result of intuitional visualization of fundamental mathematical truths born after eight years of highly concentrated endeavour of Jagadguru Sri Bharati Krsna Tirtha.

**The Nakshatras** Motilal Banarsidass  
Foretelling Widowhood is the fruit of research work carried out by us during the last two decades. A work of predictive astrology, it amalgamates a plethora of principles enshrined in various classical texts and practical study of birth charts of those who have been unfortunate enough to suffer the immeasurable grief and plight of untimely widowhood. Untimely widowhood is the biggest tragedy that can befall a woman and is irreversible. In olden days, widowhood in general and untimely widowhood in particular was considered an unpardonable sin and a woman had to commit Sati, that is to mount the pyre of her late husband. Was not this inhuman? Women would be ever grateful to Raja Ram Mohan Rai whose untiring efforts led to rooting out of this obnoxious practice. A common belief among masses, as also amongst self-styled astrologers, is that mangati females or those females having kuja dosa in their birth charts are predisposed to suffer widowhood. We would like to humbly opine that this belief is only partially correct. It is not certain that females having kuja dosa will essentially undergo the miseries of marital disaster such as widowhood. Many females, who suffered untimely widowhood, were not mangati either from ascendant, or from Moon or from Venus. This is definitely a wrong concept that widowhood will curse only a mangati female. In fact, much is not known about the kuja dosa and its actual effect.

It is common knowledge that the 12 star-signs map the sky and set the stage for the drama of life. This book expands this awareness manifold by revealing that it is the 27 constellations, and not the 12 signs, which truly map the ecliptic and provide the celestial backdrop for affairs on earth. Instead of taking away from the widely recognized meanings and significations of the 12 signs, they enrich them with a whole new depth of perspective and interpretation.

Self Learning Course in Astrology K B Gopalakrishnan

This book was the end product of life experiences, thoughts and intellectual wanderings of the author, who through his career and for the last twenty years was always serving all the three aspects of a Psychiatrist: He is a clinician, a researcher and an academic teacher. The book includes a comprehensive history of Psychiatry since antiquity and until today, with an emphasis not only on main events but also specifically and with much detail and explanations, on the chain of events that led to a particular development. At the center of this work is the question 'What is mental illness?' and 'Does free will exist?'. These are questions which tantalize Psychiatrists, neuroscientists, psychologists, philosophers, patients and their families and the sensitive and educated lay persons alike. Thus, the book includes a comprehensive review and systematic elaboration on the definition and the concept of mental illness, a detailed discussion on the issue of free will as well as the state of the art of contemporary Psychiatry and the socio-political currents it has provoked. Finally the book includes a description of the academic, social and professional status of Psychiatry and Psychiatrists and a view of future needs and possible developments. A last moment addition was the chapter on conspiracy theories, as a consequence of the experience with the social media and the public response to the COVID-19 outbreak which coincided with the final stage of the preparation of the book. Their study is an excellent opportunity to dig deep into the relation among human psychology, mental health, the society and politics and to swim in intellectually dangerous waters.

Analysis of Longevity - An Astrologer can only give an Indication of what promise the future holds. Only Brahma, the creator, can say with certainty what will definitely happen. This applies most appropriately to Longevity determination. Matters like longevity cannot be decided by us mortals. They are in the hands of the supreme power and an Astrologer who wishes indulge in longevity determination, needs help of this super power to make the correct judgement. Ayu Nirnay is a very serious and a deep subject  $\frac{1}{4}xw < + o xEHkhj fo" k; \frac{1}{2}$  and it involves much more than just the mathematical calculation. Even after checking longevity by many methods, the Astrologer is almost forbidden to disclose the person's death to him. At the most he can give a very subtle hint. There are about 32 methods of calculation of longevity, but there is no one method which gives perfect result. After calculating it by a number of methods, if similar Ayu is found, then it can be relied upon, to a certain extent. There are many stories in our religion like those of Savitri and Satyavan and Markandeya Rishi, in which people whose life span has come to an end, have been granted more life by God himself. This shows that the length of life can be increased by Gods blessings. Length of life can also be increased or decreased by the persons own karmas in this life. People who lead a good regulated life from childhood, who follow good moral conduct, who eat less, and who respect god and the learned men, live up to their mathematically estimated life span or even longer. The people who do just the opposite have an untimely end. This shows that a person can reduce his life-span by his own kukarmas. Till a child is of twelve years of age his ayu nirnay should not be done. The first four years of his life and governed by the poorva karmas of his mother, the next four years are governed by the karmas of his father and the next four years are governed by his own karmas. Till twelve years, even prediction of his horoscope should not be done, because whatever the horoscope shows, can get altered because of these super imposing factors. For this reason till that age, every child should be protected through propitiation of planets, medical help and proper care. Only after he has crossed this age, his Ayu Nirnay should be done. This book contains all methods of determination of longevity of a native. Calculation of the longevity of a native is not an easy task. All expert astrologers

believe that before interpreting a horoscope it is essential to determine the longevity of native. There are different methods of determining longevity but none of them can be termed as very accurate so it shall be better to follow various methods. In the field of astrology and especially in determining the longevity of a native the role of intuition is most important. Astrologer can develop intuition by continuous meditation and other spiritual practices. One should remember it always that nobody can control life and death. There is only one method of giving shape to our future and that is to bring improvement in our deeds. The summary of our scriptures is embedded in two words-

Punya(holy/sacred/meritorious action) and Paap(sin). Our whole existence revolves around these two words only. It is the proposal of the author to keep it in the background of this book. This book contains all important methods of determination of longevity of a native. The Key of Life Motilal Banarsidass Publ. A New York Times Notable Book: A policeman chases a falsely accused man on a wild journey around the world in this "utterly involving" novel (The Sunday Times). When eight-year-old Nachiketa Bose first arrives in the East Bengali village of Lalpukur, he receives the name Alu—potato—for the size and shape of his extraordinary head. His uncle Balaram, the local schoolmaster and phrenology enthusiast, sends Alu to apprentice as a weaver, and the boy soon surpasses the skill of his master. But when a tragic bombing leaves Alu suspected of terrorism, he flees across India to Bombay and the Arabian Sea, followed all the way by the dogged policeman—and avid ornithologist—Jyoti Das. From East Bengal to the Persian Gulf and North Africa, Amitav Ghosh's wild and extraordinary novel "follows in the footsteps of magical realists like Gabriel García Márquez and Salman Rushdie" (The New York Times Book Review). "A novelist of dazzling ingenuity." —San Francisco Chronicle "A Scheherezade effortlessly spinning tales within tales, the possessor of a strong narrative voice quite like no other." —Newsday "Ghosh's writing soars, producing electric images." —The Baltimore Sun "A wonderful mix of magic and horror, wit and curiosity . . . Ghosh has really woven a fresh world for us to visit." —Providence Sunday Journal

This book has been written mainly for beginners who can learn Hindu astrology without having to learn anything by rote.

They must do the exercises given at the end of each chapter systematically, again and again. There are many who have read many books on astrology and developed

an incurable astrological constipation. It will be difficult for them to start with a clean slate as they cannot unlearn what they have. Yet, this book may help them

remove some of the cobwebs in their minds. They have their minds cluttered with dogmas which they mistake for astrology.
