Giacomo and Livia Salvi are given stern warnings as they prepare to journey from Nepal to Tibet. Even though they are tourists, they must be wary of the People's Liberation Army and avoid any mention of the Dalai Lama. Before journeying through the mountains, however, they meet an old Tibetan monk. Milerpa is considered to be the reincarnation of an eleventh-century holy hermit. It's said he can fall into a trance and relive events as they happened in the past. And he tells Giacomo, a scholar researching Jesus's life, that it's very possible the prophet traveled to the Far East. Giacomo and his wife are thrilled to receive a hint of what Jesus might have done during his missing eighteen years. But once they cross the Tibetan border, they find themselves being followed. Although Giacomo's true mission is unknown to his wife, it isn't long before his role as a sleeper Italian spy is affecting their every move. Join Giacomo as he seeks to unravel the mystery of Jesus's lost years, protect his true identity and prevent a nuclear war that could lead to the end of the world in *The Karma Killers*.

This book documents a systematic investigation into various aspects of policing in the People's Republic of China, including its scholarship, idea, origin, history, education, culture, reform, and theory. It approaches the study of Chinese policing from an indigenous perspective, informed by local empirical data. In proposing an innovative theory of community policing entitled «Police Power as a Social Resource Theory», the book seeks to look at crime as a personal problem, and police as a social resource, from the perspective of the people and not the state.

You've done all the right things to lose weight and balance your blood sugar. You've counted calories, exercised, and switched to a low-glycemic diet-all with no long-term success. In *Belly Fat Effect*, Mike Mutzel provides the missing links that are standing between you and weight control and blood sugar management. New research has proved that the 'calories in-calories out' path to weight loss is obsolete. It just doesn't work for good reason: Eating fewer

calories and exercising more doesn't account for the waist-busting influence of inflammatory foods, gut bacteria, and other metabolic influences. *Belly Fat Effect* translates the new science into useable information that will give you a winning edge over your excess pounds and roller-coaster blood sugar levels. Learn now how to burn fat, not store it.

Branding guru Aaker shows how to eliminate the competition and become the lead brand in your market This ground-breaking book defines the concept of brand relevance using dozens of case studies-Prius, Whole Foods, Westin, iPad and more-and explains how brand relevance drives market dynamics, which generates opportunities for your brand and threats for the competition. Aaker reveals how these companies have made other brands in their categories irrelevant. Key points: When managing a new category of product, treat it as if it were a brand; By failing to produce what customers want or losing momentum and visibility, your brand becomes irrelevant; and create barriers to competitors by supporting innovation at every level of the organization. Using dozens of case studies, shows how to create or dominate new categories or subcategories, making competitors irrelevant Shows how to manage the new category or subcategory as if it were a brand and how to create barriers to competitors Describes the threat of becoming irrelevant by failing to make what customer are buying or losing energy David Aaker, the author of four brand books, has been called the father of branding This book offers insight for creating and/or owning a new business arena. Instead of being the best, the

goal is to be the only brand around-making competitors irrelevant.

'KUMBA AFRICA', is a compilation of African Short Stories written as fiction by Sampson Ejike Odum, nostalgically taking our memory back several thousands of years ago in Africa, reminding us about our past heritage. It digs deep into the traditional life style of the Africans of old, their beliefs, their

leadership, their courage, their culture, their wars, their defeat and their victories long before the emergence of the white man on the soil of Africa. As a talented writer of rich resource and superior creativity, armed with in-depth knowledge of different cultures and traditions in Africa, the Author throws light on the rich cultural heritage of the people of Africa when civilization was yet unknown to the people. The book reminds the readers that the Africans of old kept their pride and still enjoyed their own lives. They celebrated victories when wars were won, enjoyed their New yam festivals and villages engaged themselves in seasonal wrestling contest etc; Early morning during harmattan season, they gathered firewood and made fire inside their small huts to hit up their bodies from the chilling cold of the harmattan. That was the Africa of old we will always remember. In Africa today, the story have changed. The people now enjoy civilized cultures made possible by the influence of the white man through his scientific and technological process. Yet there are some uncivilized places in Africa whose people haven't tested or felt the impact of civilization. These people still maintain their ancient traditions and culture. In everything, we believe that days when people paraded barefooted in Africa to the swamp to tap palm wine and fetch firewood from there farms are almost fading away. The huts are now gradually been replaced with houses built of blocks and beautiful roofs. Thanks to modern civilization. Donkeys and camels are no longer used for carrying heavy loads for merchants. They are now been replaced by heavy trucks and lorries. African traditional methods of healing are now been substituted by hospitals. In all these, I will always love and remember Africa,

the home of my birth and must respect her cultures and traditions as an AFRICAN AUTHOR.

For more than half a century, marketers have bombarded customers with more and more choices in products and services. What is the result?

Unprecedented anxiety. Our mental circuit breakers are on overload. In fact, pioneering brand strategists Steven M. Cristol and Peter Sealey assert that we have reached our manageable threshold for making decisions -- and a watershed in product proliferation. In this pathbreaking book, the authors argue with compelling evidence that the next generation of marketing successes will belong to those brands that simplify customers' lives or businesses in ways that are inextricably tied to brand and product positioning. They contend that if a brand is not reducing customer stress, it is creating it -- and it is vulnerable to losing market share to more customer-empathetic competitors. Writing especially for product or brand managers who are struggling to simplify their portfolios, Cristol and Sealey have created a breakthrough framework that is itself a lesson in simplicity. After presenting two essential guideposts for managers to assess where their brand sits on the stress spectrum, the authors turn to the heart of Simplicity Marketing -- the 4 R's of simplification: Replace, Repackage, Reposition, and Replenish. Using scores of real-world company examples, Cristol and Sealey show how each of the 4 R's interacts with the others in powerful ways to relieve customer stress and how these strategies may be executed individually

or in combination to build brand loyalty. Here for the first time are ten specific strategies to relieve customer stress through consolidating, aggregating, or integrating products and services, repositioning brands for more relevance to stress reduction, and decluttering customers' decision-making requirements. The final pages of this brilliant manifesto for a simplicity revolution provide a guide to managing simplicity strategies, leveraging information technology to simplify rather than complicate customers' lives, and integrating all the tools in the book into an executional blueprint.
