Business Week National Center for Youth Issues Security and Resilience in Intelligent Data-Centric Systems and Communication Networks presents current, state-of-the-art work on novel research in theoretical and practical resilience and security aspects of intelligent data-centric critical systems and networks. The book analyzes concepts and technologies that are successfully used in the implementation of intelligent data-centric critical systems and communication networks, also touching on future

developments. In addition, readers will find in-demand information for domain experts and developers who want to understand and realize the aspects (opportunities and challenges) of using emerging technologies for designing and developing more secure and resilient intelligent data-centric critical systems and communication networks. Topics covered include airports, seaports, rail transport systems, plants for the provision of water and energy, and business transactional systems. The book is well suited for researchers and PhD interested in the use of security and resilient computing technologies. Includes tools and techniques to prevent and avoid both accidental and malicious behaviors Explains the state-of-the-art technological solutions for main issues hindering the development of monitoring and reaction solutions Describes new methods and technologies, advanced prototypes, systems, tools and techniques of future direction

Academic Press
This book features selected papers presented at the First International Conference on Agriculture Digitalization and Organic Production (ADOP 2021), held in St. Petersburg, Russia, on June 07-09, 2021. The contributions, written by professionals, researchers and students,

cover topics in the field of agriculture, biology, robotics, information technology and economics for solving urgent problems in digitalization of organic livestock and crop production. The conference is organized by the St. Petersburg Federal Research Center of the Russian Academy of Sciences (SPC RAS) and the Technische Universität Kaiserslautern. The book will be useful to researchers of interdisciplinary issues of digitalization and robotization of agricultural production, as well as farmers and commercial companies, which introduce new technologies in crop production and animal husbandry. The book also covers a range of issues related to scientific training of graduate students in the areas of "Mechatronics and robotics", "Control in technical systems" and "Technologies, means mechanization and energy equipment in rural, forestry and fisheries".

"A warm hearted story of the inevitable rollercoaster of romantic love... and the more important task of loving one's self" from #1 international bestselling author Cathy Kelly (Elin Hilderbrand). At the top of the Eiffel Tower, a young man proposes to his girlfriend. In that second, everything changes, not just for the happy couple, but for the family and friends awaiting their return in Ireland. Leila's been nursing a broken heart since her husband suddenly left her, but she's determined to put on a brave face for the bride. Vonnie, a widow, has finally dared to let love back into her life, but a curveball arises that puts another's safety at risk. And Grace, a school principal, finds that her

son's impending union brings her ex-husband back into her daily life, and starts to ponder past decisions and wonder if her divorce was in fact a mistake. As these three women gather around the young couple to prepare for the wedding, they'll each have to address their own demons and find a way to move forward, whatever the cost. *Includes reading group guide

You're never too young to dream about your future! Myrtle and Erytle are twins who don't look alike or act the same, but they do share one common love...SHOES! Their father uses their love of shoes to encourage the young twins to start thinking about future careers early. "Just start with what you know and love. Pick out your favorite shoe. What you wear on your feet when you walk down the street might help you decide what to do." This book is an excellent resource that will spark children's imaginations leading them to discover what they enjoy and want to become. "There's a job for every personality!" Several career options are discussed as they apply to the shoes typically worn

in that profession. Career clusters are also presented. This book explores the necessary skills that are universal for any career choice such as responsibility, self-confidence, integrity, punctuality, and teamwork a fun, creative and detailed approach to career education!

From a journalist on the frontlines of the Students for Fair Admission (SFFA) v. Harvard case comes a probing examination of affirmative action, the

false narrative of American meritocracy, and the attack on Asian American excellence with its far-reaching implications—from seedy test-prep centers to gleaming gifted-and-talented magnet schools, to top colleges and elite business, media, and political positions across America Even in the midst of a nationwide surge of bias and incidents against them, Asians from coast to coast have quietly assumed mastery of the nation's technical and intellectual machinery and become essential American workers. Yet, they've been forced to do so in the face of policy proposals—written in the name of diversity—excluding them from the upper ranks of the elite. In An Inconvenient Minority, journalist Kenny Xu traces elite America's longstanding unease about a minority potentially upending them. Leftist agendas, such as eliminating standardized testing, doling out racial advantages to “preferred” minorities, and lumping Asians into “privileged” categories despite their deprived historical experiences have spurred Asian Americans to act.

Going beyond the Students for Fair Admission (SFFA) v. Harvard case, Xu unearths the skewed logic rippling countrywide, from Mayor Bill de Blasio's attempted makeover of New York City's Specialized School programs to the battle over "diversity" quotas in Google's and Facebook's progressive epicenters, to the rise of Asian American activism in response to unfair perceptions and admission practices. Asian Americans' time is now, as they increase their direct action and amplify their voices in the face of mounting anti-Asian attacks. An Inconvenient Minority chronicles the political and economic repression and renaissance of a long ignored racial identity group—and how they are central to reversing America's cultural decline

and preserving the dynamism of the free world.
