Pearson Edexcel GCSE (9-1) Mathematics Higher Student Book 1 HarperCollins UK

Collins Cambridge IGCSE(r) Maths Student Book Second Edition provides in-depth coverage of every aspect of the latest Cambridge IGCSE(r) Mathematics 0580 syllabus for examination from 2015 onwards. We are working with Cambridge International Examinations towards endorsement of this title. The resource covers the Core and Extended curriculum. Support and challenge students with the Core curriculum and Extended curriculum together in one book. This also aids transition from Core to Extended. Help students to prepare for examination with Cambridge questions from previous papers. Develop problem solving with flagged questions that require

students to apply their skills, often in real life, international contexts. Cover the curriculum with confidence with clear references to what students will learn at the start of every chapter. See what level students are working at with all questions labelled Core or Extended. Emphasise the relevance of maths with 'Why this chapter matters' showing maths in everyday life or historical development. Consolidate understanding with tried and tested questions in extensive practice exercises and detailed worked examples. Deliver a fully international course with international examples, contexts, names, currency and locations. Encourage students to check their work with answers to all exercise questions at the back of the book. Examination answers are only available in the Teacher's Pack. (r) IGCSE is the registered trademark of Cambridge International Examinations."

Understanding Basic Calculus By S.K. Chung

Principles of Physics Oxford University Press, USA

This book has been specifically written for the new two-tier Edexcel linear GCSE specification for first examination in 2008 by the highly successful Framework Maths author team. The book is targeted at the B to A* grade range in the Higher tier GCSE, and it comprises units organised clearly into inspiring full-colour spreads. Each unit offers: * Prior learning assessed at the start so students are fully prepared for the topic * Learning objectives identified so it is clear what students need to know * Clear explanations with examples showing the key techniques * Plenty of practice with clearly differentiated questions pitched at an appropriate level * Summaries and past Edexcel questions to help students gain responsibility for their learning It forms part of a series of four student books at GCSE, in which the other three books cater for grade ranges G to E, E to C and D to B.

Test questions are provided for each chapter of this textbook, together with detailed mark schemes to make assessment easy. Two versions of each question are provided. One allows pupils to write their answers in the spaces provided and the other requires pupils to have separate writing paper. Questions can be grouped according to needs. Master grids are provided to cut and paste tests together in a consistent format to use the resource in any order. Chapter tests can be grouped to form a module test after chapters. End-of-chapter examinations can also be produced in this way. A free non-calculator supplement organized by unit/chapter is also included in this resource.
