Lebanese Dialect: Lebanese Dialect Yatir Nitzany

THIS ISN'T A PHRASEBOOK! BUT RATHER THIS IS A SYSTEM DESIGNED TO TEACH THE READER HOW TO COMBINE WORDS IN ORDER TO CREATE THEIR OWN SENTENCES! THIS BOOK DOESN'T CONTAIN ANY ARABIC LETTERS! ALL ARABIC WORDS IN THIS BOOK WERE WRITTEN IN ENGLISH-TRANSLITERATION! IF YOU NEED EXTRA ASSISTANCE IN THE PRONUNCIATION THEN PLEASE PURCHASE THE AUDIBLE VERSION! Have you always wanted to learn how to speak Classical Arabic but simply didn't have the time? Well if so, then, look no further. You can hold in your hands one of the most advanced and revolutionary method that was ever designed for quickly becoming conversational in a language. In creating this time-saving program, master linguist Yatir Nitzany spent years examining the twenty-seven most common languages in the world and distilling from them the three hundred and fifty words that are most likely to be used in real conversations. These three hundred and fifty words were chosen in such a way that they were structurally interrelated and, when combined, form sentences. Through various other discoveries about how real conversations work--

discoveries that are detailed further in this book--Nitzany created the necessary tools for linking these words together in a specific way so that you may become rapidly and almost effortlessly conversant--now. If your desire is to learn complicated grammatical rules or to speak perfectly proper and precise Arabic, this book is not for you. However, if you need to actually hold a conversation while on a trip to an Arab speaking country, to impress that certain someone, or to be able to speak with your grandfather or grandmother as soon as possible, then the Nitzany Method is what you have been looking for. This book is recommended for those who already have some prior knowledge of the pronunciation of Arabic accents (such as the Arabic accents: ayin, ghayn, ha, and khaf). For those of you who do not, this book does indeed provide some great, in-depth techniques on the pronunciation and recognition of these accents, that you will encounter throughout the program. These techniques have proven extremely beneficial for beginner students who were previously unfamiliar with these accent pronunciations. But keep in mind this isn't a pronunciation book. This method is designed for fluency in a foreign language, while communicating in the first person present tense. Nitzany believes that what's most important is actually being able to understand and be understood by another human being right away. Therefore, unlike other courses, all words in this program are taught in English transliteration, without having to learn the complex alphabet. More formalized training in grammar rules, etc., can come later. This is one of the several, in a series of instructional language guides, the Nitzany Method's revolutionary approach is the only one in the world that uses its unique language technology to actually enable you to speak and understand native speakers in the shortest amount of time possible. No

more depending on volumes of books of fundamental, beginner, intermediate, and advanced levels, all with hundreds of pages in order to learn a language. With *Conversational Arabic Quick and Easy*, all you need are fifty-three pages. Learn Arabic today, not tomorrow, and get started now!

In creating this time-saving program, master linguist Yatir Nitzany spent years examining the twenty-seven most common languages in the world and distilling from them the three hundred and fifty words that are most likely to be used in real conversations. These three hundred and fifty words were chosen in such a way that they were structurally interrelated and, when combined, form sentences. Through various other discoveries about how real conversations work—discoveries that are detailed further in this book—Nitzany created the necessary tools for linking these words together in a specific way so that you may become rapidly and almost effortlessly conversant—now. If your desire is to learn complicated grammatical rules or to speak perfectly proper and precise Arabic, this book is not for you. However, if you need to actually hold a conversation while on a trip to Lebanon, to impress that certain someone, or to be able to speak with your grandfather or grandmother as soon as possible, then the Nitzany Method is what you have been looking for. This book is recommended for those who already have some prior knowledge of the pronunciation of Arabic accents (such as the Arabic accents: ayin, ghayn, ha, and khaf). For those of you who do not, this book does indeed provide some great, in-depth techniques on the pronunciation and recognition of these accents, that you will encounter throughout the program. These techniques have proven extremely beneficial for beginner students who were previously unfamiliar with these accent pronunciations. But keep in mind this isn't a pronunciation book! Lebanese Arabic encompasses three slightly different dialects, the dialects of the north, south, and center of the country (Beirut). The one in this book is the Beirut dialect. In the Lebanese dialect, verb conjugation is irregular, and this book will not teach you those skills since this is not a grammar book. In most languages, including Classical Arabic, a conjugated verb is always followed by an infinitive verb, but this is not the case in the Lebanese colloquial dialect since every verb in the sentence must be conjugated. Keep in mind that Lebanese Arabic is not an official language, but rather is a colloquial dialect. The purpose of my method is solely to give you the tools to create your own sentences in order to become conversational, while in regards to grammar, pronunciation, etc., you are on your own! This method is designed for fluency in a foreign language, while communicating in the first person present tense. Nitzany believes that what's most important is actually being able to understand and be understood by another human being right away. Therefore, unlike other courses, all words in this program are taught in English transliteration, without having to learn the complex alphabet. More formalized training in grammar rules, etc., can come later. This is one of the several, in a series of instructional language guides, the Nitzany Method's revolutionary approach is the only one in the world that uses its unique language technology to actually enable you to speak and understand native speakers in the shortest amount of time possible. No more depending on volumes of books of fundamental, beginner, intermediate, and advanced levels, all with hundreds of pages in order to learn a language. With Conversational Arabic Quick and Easy, all you need are forty-five pages. Learn Arabic today!
