On the occasion of the 90th anniversary of Pininfarina, a marque synonymous with style and elegance applied to car design, Pininfarina is a book that surveys, for the first time, the entire output of the Turin coachbuilder, model by model. Produced in close collaboration with the company, it draws on invaluable photographic material accompanying brief contextualising texts. Tracing the history of Pininfarina from its origins to the present day

entails reviewing some of the most iconic models in automotive history: from the numerous Ferraris bodied by the historic partner of the Maranello firm to cars such as the Cisitalia 202, the Lancia Aurelia, the Alfa Romeo Duetto and 164, the Maserati GranTurismo through to the current models born under the aegis of the Indian firm Mahindra. The book also covers the numerous Pininfarina concept cars that have written glorious pages in the history of design, raising the bar every time in terms of the excellence of the car product.

Twelve Years a Slave Duxbury Press

Follow two abolitionists who fought one

of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist,

associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--

The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.

A Quest to Do Great Business, Find Your Calling, and Feed Your Soul Crowood Press UK

There is no law in Physics which says that matter is the sole basis of all that

exists. As a matter of fact, Quantum Mechanics (of which classical Physics is an approximation) does not even postulate the existence of matter: it merely postulates the probability of the existence of matter. That does not explain the experimental fact that matter exists in reality. The author quotes an existing hypothesis that an entity independent of matter (called Universal Consciousness) changes the probability of matter into the existence of matter. When this hypothesis is added to the laws of Physics it removes some anomalies in Physics and leads to the clarification of other anomalies in Biology. The present malaise in society is due to a contradiction between what modern materialistic social sciences teach and what individuals find natural

and acceptable. The acceptance of the new paradigm facilitates the development of social theories which accept social compassion and ecological balance as their basis.

Few cars in modern times have caused as much of a stir as the turbocharged Subaru Impreza. It came from nowhere at the start of the 1990s to claim three successive World Rally Championships

for its makers in the middle of that decade, and went on to become an enthusiasts' car thanks to its affordability, high performance - and, of course, the glorious exhaust note of its unusual flat-four 'boxer' engine. This book examines the three generations of Subaru Impreza WRX and WRX STI from 1992 - 2012, including how the roadgoing cars were developed from the successful rally models, production history and specification details. Topics covered include: History of the Impreza, and early days in competition with the Leone and the Legacy models. Construction and derivatives of the distinctive flat-four engine. Innovations in the Impreza's four-wheel-drive system. Design and specifications for special editions. Includes material from Prodrive on their

limited edition models. Examines both rally and roadgoing cars.

 'Track Two Diplomacy and Jerusalem' is the first in a series of three books which collectively present the work of the Jerusalem Old City Initiative, or JOCI, a major Canadian-led Track Two diplomatic effort, undertaken between 2003 and 2014. JOCI's raison d'être was to find sustainable governance solutions for the Old City of Jerusalem, arguably the most sensitive and intractable of the final status issues dividing Palestinians and Israelis. 'Track Two Diplomacy and Jerusalem' includes a series of studies that place JOCI within its historical setting and explain the theoretical context of Track Two diplomacy. The book then proceeds to present the

Initiative's culminating documents, which outline in detail its proposed Special Regime governance model. Until now, the proposals have remained unpublished and available only to a limited audience of key stakeholders. Presenting the information in an accessible format, this book will contribute positively to the wider conversation on Jerusalem, especially with respect to the longstanding conflict over control and governance of this holy city. It will therefore be of value to several audiences, from the policy-making community to the various traditions found in academia.
