Now in a full-length book, the New York Times Pulitzer Prize-winning graphic story of a refugee family who fled the civil war in Syria to make a new life in America. After escaping a Syrian prison, Ibrahim Aldabaan and his family fled the country to seek protection in America. Among the few refugees to receive visas, they finally landed in JFK airport on November 8, 2016, Election Day. The family had reached a safe harbor, but woke up to the world of Donald Trump and a Muslim ban that would sever them from the grandmother, brothers, sisters, and cousins stranded in exile in Jordan. Welcome to the New World tells the Aldabaans' story. Resettled in Connecticut with little English, few friends, and even less money, the family of seven strive to create something like home. As a blur of language classes, job-training programs, and the fearsome first days of high school (with hijab) give way to normalcy, the Aldabaans are lulled into a sense of security. A white van cruising slowly past the house prompts some unease, which erupts into full terror when the family receives a death threat and is forced to flee and start all over yet again. The America in which the Aldabaans must make their way is by turns kind and ignorant, generous and cruel, uplifting and heartbreaking. Delivered with warmth and intimacy, Welcome to the New World is a wholly original view of the immigrant experience, revealing not only the trials and successes of one family but showing the spirit of a town and a country, for good and bad.

The Comics of Chris Ware: Drawing Is a Way of Thinking brings together contributions from established and emerging scholars about the comics of Chicago-based cartoonist Chris Ware (b. 1967). Both inside and outside academic circles, Ware's work is rapidly being distinguished as essential to the developing canon of the graphic novel. Winner of the 2001 Guardian First Book Prize for the genre-defining Jimmy Corrigan: The Smartest Kid on Earth, Ware has received numerous accolades from both the literary and comics establishment. This collection addresses the range of Ware's work from his earliest drawings in the 1990s in The ACME Novelty Library and his acclaimed Jimmy Corrigan, to his most recent works-in-progress, "Building Stories" and "Rusty Brown."

'My ambition is to give back to the women of my blood the power of speech confiscated by their men.' Badra is a young Berber girl from a North African village who is married off to an old man, and brutally raped on her wedding night. She thinks sexual pleasure exists only for men, until she escapes from her cruel husband to the city. Then she meets a handsome doctor who introduces her to a new world of sexual passion. L'AMANDE, written under a pseudonym by a North African woman living in France, reads like an erotic manifesto for modern women who want to break free from the repressive bonds of cultural tradition to unashamedly demand their right to pleasure.

""Eastern Europeans, while not 'other' as much as Asians or Africans, are also 'not quite' European;

rather, they are semi-European, semi-developed, with semi-functioning states and semi-civilized manners" concludes Nataša Kovačević, in an attempt to summarize the main differences between Eastern and Western Europe, in her introduction to Narrating Post/Communism. The simple fact that Central European countries, with the exception of Germany and Austria, are at the same time also grouped under the term Eastern Europe due to their post-communist past, already hints at the complexity of this region's historical and cultural heritage"--

A Washington Post Best Children's Book of 2018 Who's Crazy? What does it mean to be crazy? Is using the word crazy offensive? What happens when a label like that gets attached to your everyday experiences? To understand mental health, we need to talk openly about it. Because there's no single definition of crazy, there's no single experience that embodies it, and the word itself means different things—wild? extreme? disturbed? passionate?—to different people. In (Don't) Call Me Crazy, thirty-three actors, athletes, writers, and artists offer essays, lists, comics, and illustrations that explore a wide range of topics: their personal experiences with mental illness, how we do and don't talk about mental health, help for better understanding how every person's brain is wired differently, and what, exactly, might make someone crazy. If you've ever struggled with your mental health, or know someone who has, come on in, turn the pages . . . and let's get talking. This award-winning anthology is from the highly-praised editor of Here We Are: Feminism for the Real World and Body Talk: 37 Voices Explore Our Radical Anatomy. .

Now a feature film with Woody Harrelson and Laura Dern A new paperback edition of the modern classic timed to the release of the Alexander Payne-produced film version. Meet Wilson, an opinionated middle-aged loner who loves his dog and quite possibly no one else. In an ongoing quest to find human connection, he badgers friend and stranger alike into a series of one-sided conversations, punctuating his own lofty discursions with a brutally honest, self-negating sense of humor. After his father dies, Wilson, now irrevocably alone, sets out to find his ex-wife with the hope of rekindling their long-dead relationship, and discovers he has a teenage daughter, born after the marriage ended and given up for adoption. Wilson eventually forces all three to reconnect as a family--a doomed mission that will surely, inevitably backfire. Daniel Clowes, one of the leading cartoonists of our time creates a thoroughly engaging, complex, and fascinating portrait of the modern egoist--outspoken and oblivious to the world around him. Working in a single-page gag format and drawing in a spectrum of styles, the cartoonist of *Ghost World*, *Ice Haven*, and *The Death-Ray* gives us Wilson, his funniest and most deeply affecting novel to date.

From the internationally acclaimed artist, a stunning collection of portraits of ground-breaking women—Joan of Arc, Josephine Baker, Greta Thunberg, Misty Copeland, and many more history-making women whose names have been forgotten and are finally being brought to light. With a Foreword by Roxane Gay “This book, as a whole, offers the reader possibility and promise ... You will be introduced to many of these women for the first time, because history is rarely kind to women until it is forced to be. You will learn about artists and activists, rulers and rebels.” —Roxane Gay, from the Foreword *Original Sisters* was born from the COVID-19 quarantine. In early March 2020, locked down in her home-studio in Toronto and longing for inspiration, artist Anita Kunz started researching women on the Internet. She wasn't sure what she was looking for, but she soon found an array of astonishing people who had done amazing things—some of whom she had heard of, but

most of whom she had not. And then she began to paint their pictures and write down their stories. The result is a jaw-dropping feat of historic and artistic research. The wide variety of lives, occupations, time periods, and achievements is absolutely mind-bending. From Joan of Arc to Josephine Baker, from Hippolyta to Greta Thunberg, from Anne Frank to Misty Copeland: these women made and changed history. But there are just as many whom you've never heard of, who were never recognized in their lifetimes, whose achievements need to be brought to light. They include the anti-Nazi activist Sophie Scholl, who was executed at age twenty-one by the Third Reich, and Alice Ball, a young African American scientist who discovered a treatment for leprosy but died tragically before she could receive credit for it. This is not only a breathtaking art book. *Original Sisters* also recounts a secret history that must be told so that it is a secret no more.

Cartoonist Ellen Forney explores the relationship between “crazy” and “creative” in this graphic memoir of her bipolar disorder, woven with stories of famous bipolar artists and writers. Shortly before her thirtieth birthday, Forney was diagnosed with bipolar disorder. Flagrantly manic and terrified that medications would cause her to lose creativity, she began a years-long struggle to find mental stability while retaining her passions and creativity. Searching to make sense of the popular concept of the crazy artist, she finds inspiration from the lives and work of other artists and writers who suffered from mood disorders, including Vincent van Gogh, Georgia O’Keeffe, William Styron, and Sylvia Plath. She also researches the clinical aspects of bipolar disorder, including the strengths and limitations of various treatments and medications, and what studies tell us about the conundrum of attempting to “cure” an otherwise brilliant mind. Darkly funny and intensely personal, Forney’s memoir provides a visceral glimpse into the effects of a mood disorder on an artist’s work, as she shares her own story through bold black-and-white images and evocative prose.

Margot Fonteyn born plain Peggy Hookham was dreamed into existence by the architects of British ballet: Ninette de Valois, Frederick Ashton and Constant Lambert. Carried to fame on a wave of wartime patriotism, Margot's sense of duty rather than ambition propelled her forward. Yet her gifts were such that her pre-eminence would come to eclipse the careers of subsequent generations. Ballet is a fairytale world; if Margot, like the pure and poetic heroine of *Swan Lake*, was a natural Odette, she would also have to contend with virtue's raw shadow-side in the guise of Constant Lambert, Roberto Arias and Rudolph Nureyev the men who, like Von Rothbart, were to take possession of her heart.

From the acclaimed DC Comics writer and the artist of the #1 New York Times bestselling and National Book Award-winning illustrated trilogy *March* comes a stunning crime noir graphic novel exploring the intertwining threads of crime, conspiracy, racism, and insanity in the post-World War II Deep South. After World War II, tensions rise in a Southern city ruled by organized crime, touching countless residents as they struggle to make sense of the new world. A sudden act of violence sets off a series of bloody events between the police and mafia as they lash out against one another. As

the violence worsens, desperation grows to stop it, by any means necessary. Told in multiple perspectives—from a seemingly untouchable mafia don, to a gun-happy seasoned detective succumbing to the depths of his schizophrenia, to a newly minted police lieutenant haunted by his recent service in the war, and two African-American brothers, one mired in corruption and the other leading a local militia in an effort to see that justice is served—*Two Dead* is at once a white-knuckled and unputdownable thriller, a roman à clef inspired by true events, and a book about post-traumatic stress disorder and the underlying social traumas of how war and segregation affect their survivors on all fronts.

Globalization, heralded for decades as a harbinger of prosperity, faces a huge backlash. Derided by right-wing nationalists as a 'globalist' plot to undermine traditional communities, and by left-wing critics as the rule of rampaging corporations, it's become a political punching bag around the world. In this incisive book, leading commentator Colin Crouch defends globalization against its critics to the right and left. He argues that reversing the process would mean a poorer world riven by nationalistic and reactionary antagonisms. However, globalization will only be worth saving if we institute reforms to promote social solidarity and recover pride and confidence for the cities and regions that have lost out. Crouch shows that we can therefore only save globalization from itself if we transcend the nation state and subject global economic flows to democratically responsible transnational governance. Crouch provides a much-needed riposte to the delusions that risk plunging the world back into a zero-sum game of regressive economic nationalism, combining cool-headed analysis with a visionary call for a reformed and genuinely progressive globalization.
