Practice
GapThe
theory-
practice gap is

nothing new
and even
though the
challenge of
bringing
research
evidence and
clinical
practice closer
together has
been
recognised for
years, it still
remains a
problem,
especially for
newly
qualified
staff.Closing

the Theory-
Practice Gap:
Is it
Possible?The
second
strategy of
closing theory
practice gap is
by
transforming
nurse training
education
programs, so
that it can
address the
transforming
healthcare
system. Some
of the changes

in the current healthcare system include increased application data through health information tools, including information technology and transformation of acute care to population based care. How to close theory-practice gap in nursing: sample paper ... Researchers have explored diverse approaches of closing theory practice gap. Levin (2010) suggested the application of	constructivist approach to teaching and learning in nurse education, to enable nurses adopt evidence based practice, which is a major element of bridging the existing theory-practice gap. Strategies to close theory-practice gap in nursing – The ... Clinical Practice Guidelines Closing the Gap Between Theory and Practice the patient care team work collaboratively	to achieve and maintain quality outcomes and patient safety to support this overall effort. The Gap between Theory and Practice While the potential of CPGs to support implementation Clinical Practice Guidelines: Closing the Gap Between ...
