The edition of New Era Accounting for grade 12 represents a logical progression of the analytical approach adopted in the Grade 11 editions. Apart from covering the basics of the new Grade 12 syllabus, the authors have been sensitive to the analytical or "thinking" approach adopted by many teachers in the classroom and in examination papers. The authors are aware of the need to cater for all pupils of all levels of academic ability studying the subject and are aware that teachers have found it necessary in the past, to devise additional worksheets in order to extend their brighter pupils. The authors aim is to save teachers time, while simultaneously encourage pupils to adopt a questioning and conceptual approach to the subject which will be of benefit to them in their future study of accounting at school or at university.
