Colloquial French Routledge

Somali is spoken by more than nine million people in the Horn of Africa and by expatriate communities in the Middle East, Europe and North America. It is the official language of Somalia and an important regional language in Ethiopia and Kenya. As a Cushitic language Somali is part of the great Afroasiatic language family whose other branches include Semitic, Berber, Chadic and Ancient Egyptian. This book provides a comprehensive description of the grammar of the language that will be of interest to non-specialists and linguists interested in typology and language comparison. The author's accessible investigation of the phonology, morphology, syntax and discourse structure allows the reader a clear view of the linguistic character of Somali and, through Somali, of a Cushitic language. A further important feature of the book is its use of authentic data from a range of sources, including prose, poetry and proverbs.

Borders offer opportunities as well as restrictions, and in the Horn of Africa they are used as economic, political, identity and status resources by borderland peoples. State borders are more than barriers. They structure social, economic and political spaces and as such provide opportunities as well as obstacles for the communities straddling both sides of the border. This book deals with the conduits and opportunities of state borders in the Horn of Africa, and investigates how the people living there exploit state borders through various strategies. Using a micro level perspective, the case studies, which include the Horn and Eastern Africa, particularly the borders of Djibouti, Eritrea, Ethiopia, Sudan, Somalia, Kenya, Uganda and Tanzania, focus on opportunities, highlight the agency of the borderlanders, and acknowledge the permeability but consequentiality of the borders.
