The night that Rory Sinclair was violently attacked changed her life forever. A man named Ian Braxton made it his mission to heal her. Ian is far from perfect. He's a self-absorbed, demeaning, arrogant, womanizing millionaire. When their worlds collide and they share their struggles, Rory wonders how much she is willing to give up to be with him.

The award-winning, bestselling French novel by Philippe Besson—"the French Brokeback Mountain" (Elle)—about an affair between two teenage boys in 1984 France, translated with subtle beauty and haunting lyricism by the iconic and internationally acclaimed actress/writer Molly Ringwald. We drive at high speed along back roads, through woods, vineyards, and oat fields. The bike smells like gasoline and makes a lot of noise, and sometimes I'm frightened when the wheels slip on the gravel on the dirt road, but the only thing that matters is that I'm holding on to him, that I'm holding on to him outside. Just outside a hotel in Bordeaux, Philippe chances upon a young man who bears a striking resemblance to his first love. What follows is a look back at the relationship he's never forgotten, a hidden affair with a gorgeous boy named Thomas during their last year of high school. Without ever acknowledging they know each other in the halls, they steal time to meet in secret, carrying on a passionate, world-altering affair. Dazzlingly rendered in English by Ringwald in her first-ever translation, Besson's powerfully moving coming-of-age story captures the eroticism and tenderness of first love—and the heartbreaking passage of time.

Is Snappy innocently shopping for a party ... or is he OBSESSED with snack foods that start with the letter P? What's the truth? Snappy the Alligator (Did Not Ask to Be in This Book) is an irreverent look at storytelling, friendship, and creative differences, perfect for fans of Mo Willems.

An instant classic when first published in 1991, *How to Lie with Maps* revealed how the choices mapmakers make—consciously or unconsciously—mean that every map inevitably presents only one of many possible stories about the places it depicts. The principles Mark Monmonier outlined back then remain true today, despite significant technological changes in the making and use of maps. The introduction and spread of digital maps and mapping software, however, have added new wrinkles to the ever-evolving landscape of modern mapmaking. Fully updated for the digital age, this new edition of *How to Lie with Maps* examines the myriad ways that technology offers new opportunities for cartographic mischief, deception, and propaganda. While retaining the same brevity, range, and humor as its predecessors, this third edition includes significant updates throughout as well as new chapters on image maps, prohibitive cartography, and online maps. It also includes an expanded section of color images and an updated list of sources for further reading.

*A Shadow Force Novel* Deep Vellum Publishing

The work of a novelist and translator collide in this visionary and hilarious debut from acclaimed French writer Brice Matthieussent. *Revenge of the Translator* follows Trad, who is translating a mysterious author's book, *Translator's Revenge*, from English to French. The book opens as a series of footnotes from Trad, as he justifies changes he makes. As the novel progresses, Trad begins to take over the writing, methodically breaking down the work of the original writer and changing the course of the text. The lines between reality and fiction start to blur as Trad's world overlaps with the characters in *Translator's Revenge*, who seem to grow more and more independent of Trad's increasingly deranged struggle to control the plot. *Revenge of the Translator* is a

brilliant, rule-defying exploration of literature, the act of writing and translating, and the often complicated relationship between authors and their translators.

Bronze Winner for the 2017 Independent Publisher Book Awards in the category of Gay/Lesbian/Bi/Trans Non-Fiction  
Foregrounding the voices of transgender and non-binary people, this honest and insightful book is a compilation of the voices of those who have decided to undergo transition - both male-to-female and female-to-male. Drawing on over one hundred interviews with individuals, the book details the diverse experiences and challenges faced by those who transition, exploring a range of topics such as hormone treatments; reassignment surgeries; coming out; sex and sexuality; physical, emotional and mental health; transphobia; discrimination; and hate crime, as well as highlighting the lives of non-binary individuals and those who cross-dress to form a wider understanding of the varied ways in which people experience gender. This powerful book is an ideal introduction to those keen to understand more about contemporary trans issues as well as those questioning their own gender identity.

In this magically evocative novel, William Maxwell explores the enigmatic gravity of the past, which compels us to keep explaining it even as it makes liars out of us every time we try. On a winter morning in the 1920s, a shot rings out on a farm in rural Illinois. A man named Lloyd Wilson has been killed. And the tenuous friendship between two lonely teenagers—one privileged yet neglected, the other a troubled farm boy—has been shattered. Fifty years later, one of those boys—now a grown man—tries to reconstruct the events that led up to the murder. In doing so, he is inevitably drawn back to his lost friend Cletus, who has the misfortune of being the son of Wilson's killer and who in the months before witnessed things that Maxwell's narrator can only guess at. Out of memory and imagination, the surmises of children and the destructive passions of their parents, Maxwell creates a luminous American classic of youth and loss.

*Voices of Modern Islam* Harlequin

Originally published to wide acclaim, this lively, cleverly

illustrated essay on the use and abuse of maps teaches us how to evaluate maps critically and promotes a healthy skepticism about these easy-to-manipulate models of reality. Monmonier shows that, despite their immense value, maps lie. In fact, they must. The second edition is updated with the addition of two new chapters, 10 color plates, and a new foreword by renowned geographer H. J. de Blij. One new chapter examines the role of national interest and cultural values in national mapping organizations, including the United States Geological Survey, while the other explores the new breed of multimedia, computer-based maps. To show how maps distort, Monmonier introduces basic principles of mapmaking, gives entertaining examples of the misuse of maps in situations from zoning disputes to census reports, and covers all the typical kinds of distortions from deliberate oversimplifications to the misleading use of color. "Professor Monmonier himself knows how to gain our attention; it is not in fact the lies in maps but their truth, if always approximate and incomplete, that he wants us to admire and use, even to draw for ourselves on the facile screen. His is an artful and funny book, which like any good map, packs plenty in little space."—Scientific American "A useful guide to a subject most people probably take too much for granted. It shows how map makers translate abstract data into eye-catching cartograms, as they are called. It combats cartographic illiteracy. It fights cartophobia. It may even teach you to find your way. For that alone, it seems worthwhile."—Christopher Lehmann-Haupt, *The New York Times* ". . . witty examination of how and why maps lie. [The book] conveys an important message about how statistics of any kind can be manipulated. But it also communicates much of the challenge, aesthetic appeal, and sheer fun of maps. Even those who hated geography in grammar school might well find a new enthusiasm for the subject after reading Monmonier's lively and surprising book."—Wilson Library Bulletin "A reading of this book will leave you much better defended against cheap atlases, shoddy journalism, unscrupulous advertisers, predatory special-interest groups, and others who may use or abuse maps at your expense."—John Van Pelt, *Christian Science Monitor* "Monmonier meets his goal admirably. . . . [His] book should be put on every map user's 'must read' list. It is informative and readable . . . a big step forward in helping us to understand how maps can mislead their readers."—Jeffrey S. Murray, *Canadian Geographic*

#### We Lie with Death Jessica Kingsley Publishers

From the author of the acclaimed *Queen of Fashion*--a brilliant look at the glittering world of turn-of-the-century Paris through the first in-depth study of the three women Proust used to create his supreme fictional character, the Duchesse de Guermantes. Geneviève Halévy Bizet Straus; Laure de Sade, Comtesse de Adhéaume de Chevigné; and Élisabeth de Riquet de Caraman-Chimay, the Comtesse Greffulhe--these were the three superstars of fin-de-siècle Parisian high society who, as Caroline Weber says, "transformed themselves, and were transformed by those around them, into living legends: paragons of elegance, nobility, and style." All well but unhappily married, these women sought freedom and fulfillment by reinventing themselves, between the 1870s and 1890s, as icons. At their fabled salons, they inspired the creativity of several generations of writers, visual artists, composers, designers, and journalists. Against a rich historical backdrop, Weber takes the reader into these women's daily lives

of masked balls, hunts, dinners, court visits, nights at the opera or theater. But we see as well the loneliness, rigid social rules, and loveless, arranged marriages that constricted these women's lives. Proust, as a twenty-year-old law student in 1892, would worship them from afar, and later meet them and create his celebrated composite character for *The Remembrance of Things Past*.

Kristin van Ogtrop knows she's lucky-fulfilling career, great husband, three healthy kids, and, depending on the hamster count, an impressive roster of pets. You could also say she's half-insane, but name one working mom who isn't. Using stories and insights from her own life, van Ogtrop offers a lexicon for working moms everywhere. Terms and concepts illustrate the highs (kids who know where their soccer cleats are, coworkers who don't hit "Reply All," dogs who helpfully eat whatever falls from the table) and the lows (getting out of the house in the morning, getting along with everyone at the office, getting willful kids into bed) of balancing work and family. Filled with amusing and resonant observations, *Just Let Me Lie Down* establishes van Ogtrop as the Erma Bombeck of the new millennium.

"I remember the movement of his hips pressing against the pinball machine. This one sentence had me in its grip until the

end. Two young men find each other, always fearing that life itself might be the villain standing in their way. A stunning and heart-gripping tale." —André Aciman, author of *Call Me by Your Name* A New York Times Book Review Editor's Choice The critically acclaimed, internationally beloved novel by Philippe Besson—"this year's *Call Me by Your Name*" (*Vulture*) with raves in *The New York Times*, *The New Yorker*, *The Wall Street Journal*, NPR, *Vanity Fair*, *Vogue*, *O, The Oprah Magazine*, and *Out*—about an affair between two teenage boys in 1984 France, translated with subtle beauty and haunting lyricism by the iconic and internationally acclaimed actress and writer Molly Ringwald. In this "sexy, pure, and radiant story" (*Out*), Philippe chances upon a young man outside a hotel in Bordeaux who bears a striking resemblance to his first love. What follows is a look back at the relationship he's never forgotten, a hidden affair with a boy named Thomas during their last year of high school. Thomas is the son of a farmer; Philippe the son of a school principal. At school, they don't acknowledge each other. But they steal time to meet in secret, carrying on a passionate, world-altering affair. Despite the intensity of their attraction, from the beginning Thomas knows how it will end: "Because you will leave and we will stay," he says. Philippe becomes a writer and travels the world, though as this "tender, sensuous novel" (*The New York Times Book Review*) shows, he never lets go of the relationship that shaped him, and every story he's ever told. "Beautifully translated by Ringwald" (NPR), this is "Philippe Besson's book of a lifetime...an elegiac tale of first, hidden love" (*The New Yorker*).
