"A wondrous, sparkling fusion of wisdom and insight." - Patricia

Santhuff What do the wonderful myths of ancient Greece, the beautiful stories in the Bible and Qur'an, and all the sacred stories from traditions around the world, have in common? They open our hearts to wonder, mystery, passion, and joy. I know, on the outside these stories seem very different, confusing, conflicting, and often violent and divisive. But when read symbolically and internally, they are all telling the same story. They show us the path of spiritual awakening and enlightenment. Sometimes the story is called "Returning to the Promised Land." Sometimes it's called "Seeking the Holy Grail." Sometimes it's called "Persephone's Return to Olympus." But whatever it's called, the inner meaning and purpose is always the same. The

stories are all a call to awaken, to live passionately and consciously, and to enter the door that leads to enlightenment and communion with the divine. The door is always open. The light is always ready to receive us. But we have to learn how to tread the path! Fortunately, that's what all the sacred stories are really about. THE DOOR IS OPEN uncovers the 7 Universal Steps that are found within the symbols and allegories of all great mythology and scripture. Each chapter ends with a series of practical and enjoyable spiritual exercises and activities. You can do this work on your own, or together with a group. It could be a church or synagogue group, a book club, a classroom, or any group of friends who want to get together and expand their spiritual horizons.

The book takes a holistic approach to sustainability.

Acknowledging the Brundtland definition, that sustainable development meets the needs of the present without compromising the ability of future generations to meet their own needs, the book is specifically concerned with the ethics of contemporary social and environmental sustainability activity and thinking. It is concerned with the role of institutions—both local and global in achieving sustainability initiatives. All twelve chapters extend sustainability—conceptually, empirically and theoretically, and in doing so provide insights into linking local

and global sustainability. The book refocuses sustainability as a series of interwoven and dynamic relationships, backed by just ethical decision-making, which begin locally, and reach out to impact the global level.

This open access book describes the Reading Success project, in which a 5-step, assessment-to- intervention process, based on the Simple View of Reading, was used within a primary school

setting in Australia to better support those students who struggle with reading. It provides an easily accessible overview of each step of the process involved in implementing this approach and highlights the crucial importance of collaboration between professionals involved in the teaching of reading within a school setting. It focuses on the decision-making processes used, such as rich dialogue with the leadership team and teachers, and shares participants' perspectives gathered throughout the project. Using case studies, the book describes how the 5-step approach assists in creating detailed profiles of students' strengths and weaknesses in spoken and written language skills that can be used to guide targeted intervention. This book offers valuable insights for educators, speech pathologists, researchers, and pre-service teacher education students interested in the teaching of reading.

Perhaps as early as 1787, Austen began to write poems, stories, and plays for her own and her family's amusement. Austen later compiled "fair copies" of these early works into three bound notebooks, now referred to as the "Juvenilia," containing pieces originally written between 1787 and 1793.

 Anansi the Spiderman or rather spider and man originated with the Ashanti people of present day Ghana. Anansi's father, the Sky God Nyame, got so tired of his son's pranks that he turned him into a spider. The stories of Anansi were brought to the Caribbean by slaves, some of whom kept up the oral tradition of their people by recounting some event in the life of their village. The stories also included some folklore such as the life and times of Anansi, the trickster. Accordingly Anansi is described as a creature who was always trying to best anyone with whom he came in contact. The general idea for him was that although small he could outsmart creatures much bigger than himself. This is actually a lesson for us that we should depend on brain power rather than the physical. Anansi took pride in this and sometimes came out on top but sometime things went badly for him. When he was victorious he was "The Man" but during the bad times he became the spider and retreated to his web to hide and wait for more opportunities to outsmart his friends. My granddaughter, Mikailah, is so enamored with Anansi, "The Man" that she only wants to hear stories in which he is victorious in tricking other creatures. She calls him "Nancy". Her favorite story is about

Anansi and Brer Tiger in which Anansi was "sick" and got Brer Tiger to take him to the doctor...

Ugandan Children's Literature and Its Implications for Cultural and Global Learning in TEFL Martin Sisters Publishing

This edited collection challenges a long sacrosanct paradigm. Since the establishment of Caribbean literary studies, scholars have exalted an elite cohort of émigré novelists based in postwar London, a group often referred to as "the Windrush writers" in tribute to the SS Empire Windrush, whose 1948 voyage from Jamaica inaugurated large-scale Caribbean migration to London. In critical accounts this group is typically reduced to the canonical troika of V. S. Naipaul, George Lamming, and Sam Selvon, effectively treating these three authors as the tradition's founding fathers. These "founders" have been properly celebrated for producing a complex, anticolonial, nationalist literature. However, their canonization has obscured the great diversity of postwar Caribbean writers, producing an enduring but narrow definition of West Indian literature. *Beyond Windrush* stands out as the first book to reexamine and redefine the writing of this crucial era. Its fourteen original essays make clear that in the 1950s there was already a wide spectrum of West Indian men and women--Afro-Caribbean, Indo-Caribbean, and white-creole--who were writing, publishing, and even painting. Many lived in the Caribbean and North America, rather than London. Moreover, these writers addressed subjects overlooked in the more conventionally conceived canon, including topics such as queer sexuality and the environment. This collection offers new readings of canonical authors (Lamming, Roger Mais, and Andrew Salkey); hitherto marginalized authors (Ismith Khan, Elma Napier, and John

Hearne); and commonly ignored genres (memoir, short stories, and journalism).

The present study adds to TEFL discourse in several ways. First of all, it contributes to the widening of the canon as it focuses on Ugandan childrens fiction. Secondly, the research connects to the few empirical studies that exist in the field. It provides further implications for cultural and global learning and literary didactics in TEFL derived from insights into the mental processes of a group of Year 9 students in Germany engaging with Ugandan childrens fiction within the scope of an extensive reading project.
