DEVAN KAITLYN

Principles and Policy

Springer Nature

The third edition of this acclaimed book continues to provide a discussion of key theoretical and policy issues in corporate finance law. It has been fully updated to reflect developments in the law and the markets. One of the book's distinctive features is its equal coverage of both the equity and debt sides of corporate finance law, and it seeks, where possible, to compare and contrast the two. This book covers a broad range of topics regarding the debt and equity-raising choices of companies of all sizes, from SMEs to the largest publicly traded enterprises, and the mechanisms by which those providing capital are protected. Each chapter provides a critical analysis of the present law to enable the reader to understand the difficulties, risks and tensions in this area, and the attempts by the legislature, regulators and the courts, as well as the parties involved, to deal with them. The book will

be of interest to practitioners, academics and students engaged in the practice and study of corporate finance law.

National Union Catalog

Edward Elgar Publishing International insolvencies are a common feature worldwide in business and finance sectors and the scale and frequency of such occurrences have caught the attention of many academics and commentators. Following on from the 2008 book, *International Insolvency Law: Themes and Perspectives*, this book presents up-to-date accounts of themes in the field of insolvency law. It deals with reforms in and challenges to the subject in relation to its comparative and international aspect. The cutting edge contributions include chapters from common law, civil and mixed traditions and have been conceived to increase awareness of the impact of insolvency law within domestic, regional and global contexts. Useful and thought-provoking, the chapters take an innovative approach and give new interpretations to hitherto available material. This book will be invaluable for those wishing to keep abreast of developments

in jurisdictions representing all legal traditions and is a useful guide to the improvement and reform of insolvency laws and frameworks.

Text, Cases, and Materials

Text, Cases, And Materials This handbook brings together the work of 25 leading human rights scholars from all over the world, covering a broad range of human rights topics.

Marriage, Divorce, and Matrimonial Litigation

Oxford University Press

This monograph seeks the optimal way to promote compatibility between systems of proprietary security rights in Europe, focusing on security rights over tangible movables and receivables. Based on comparative research, it proposes how best to tackle cross-border problems impeding trade and finance, notably uncertainty of enforceability and unexpected loss of security rights. It offers an extensive analysis of the academic literature of more recent years that has appeared in English, German, the Scandinavian languages and Finnish. The author organises the concrete means of promoting compatibility into a centralised substantive approach, a

centralised conflicts-approach, a local conflicts-approach and a local substantive approach. The centralised approaches develop EU law, and the local approaches Member State laws. The substantive approaches unify or harmonise substantive law, while the conflicts approaches rely on private international law. The author proposes determining the optimal way to promote compatibility by objective-based division of labour between the four approaches. The objectives developed for that purpose are derived from the economic functions of security rights, the conditions for legal evolution and a transnational conception of justice. This book is an important contribution to the future of secured transactions law in Europe and more widely. It will be of interest to academics, policymakers and legal practitioners involved in this field.

Land Law Bloomsbury Publishing
Exposes the corruption that permeates the U.S. bankruptcy system in a clear and compelling critique of the destructive power of forum shopping in which corporations

choose courts that offer the most favorable outcome for bankruptcy litigation.
Perspectives and Principles Bloomsbury Publishing
Commercial Law: Text, Cases, and Materials provides students with an extensive and valuable range of extracts from key cases and writings in this most dynamic field of law. The authors' expert commentary and questions enliven each topic while emphasizing the practical application of the law in its business context. Len Sealy and Richard Hooley have been joined by four renowned experts in the field for the preparation of this edition. The authors have captured the essence of this fascinating topic at a time of significant legislative, regulatory, and political change.

Introduction to Administrative Law
Ashgate Publishing, Ltd.
With partial reference to India.

A Novel Yale University Press
First published in 1996. Routledge is an imprint of Taylor & Francis, an informa company.
The Color of Law OUP India
Combining facts and analysis, the volume

examines the laws and cases relating to matrimonial rights and obligations, marriage and divorce, constitutional claims and family courts. It is a comprehensive exploration of the state of gender justice in contemporary India from the legal perspective.
A Study of the Indian Evidence Act, 1872
Cambridge University Press
With a considerable influence on national and international legislators, courts, public administrators and private companies, environmental principles - such as the polluter-pays principle, sustainable development or the precautionary principle - play an important role in the making, application and the interpretation of environmental law. As a key part of the Elgar Encyclopedia of Environmental Law, this comprehensive volume provides detailed coverage of all of the important environmental principles and offers unique insights as well as wider reflection on the role played by principles. With 50 structured entries written by leading scholars from around the world the volume discusses the various

environmental principles in turn, covering their impact on international cooperation, their varying importance globally, their relevance in the jurisprudence of international and European courts and their growing importance in international business practice. As well as forming an authoritative reference source, *Principles of Environmental Law* offers new insights into this topic, which has developed strongly over the last 50 years and has become increasingly fundamental for the future of the planet. As well as forming an indispensable guide, this important volume offers both a reflection on the evolution of the legal principles and insight into their practical application. It will prove an essential resource for students, academics, judges, company lawyers, and administrators.

Principles of Environmental Law

Universal Law Publishing
Unternehmensanleihen sind Fluch und Segen zugleich. Für solvente Schuldner eröffnet sich die Chance, eine Vielzahl potentieller Investoren mit einem leicht handelbaren und flexiblen

Investitionsangebot anzusprechen. In einer finanziell prekären Situation bereiten Informations-, Koordinations- und Kooperationsprobleme einen fruchtbaren Nährboden für opportunistische Strategien. Der Vergleich von Restrukturierungs- und Insolvenzverfahren zu privaten und vertraglichen Institutionen zeigt auf, wie sich Mehrwerte insbesondere in den vor- und außerinsolvenzlichen privaten Verfahren schaffen lassen. Dazu werden Restrukturierungs-, Insolvenzverfahren, Anleihebedingungen, Institutionen der Gläubigerorganisation, Einschränkungen der freien Vertragsgestaltung (wie etwa das Abstimmungsverbot in den USA) genauso kritisch diskutiert wie mögliche Umgehungsstrategien. Der Fokus liegt auf dem US-amerikanischen und englischem Recht, ergänzt durch eine kurze Analyse des deutschen Rechts.

Jurisprudence, a Study of Indian Legal Theory

Firewall Media
Land Law: text, cases, and materials has been designed to provide students with everything

they need to approach their land law course with confidence. Ready to be used as a stand-alone resource on all land law courses the authors combine stimulating commentary and well-chosen materials to present the subject in an interesting and dynamic way. Covering all core aspects of land law including legal estates, legal interests, equitable interests, interests in the home, leases, easements, covenants and security interests in land, the book provides students with the detailed knowledge and analytical.

Courting Failure

Universal Law Publishing
Who enjoys statutory preferred creditor status? What justifications exist for jurisdictions to maintain statutes that favour 'priority' creditors over other creditors and contributories? This book examines preferential debts derived from specific legislative provisions applying to corporate insolvency. In exploring the concept of preferential treatment, *Statutory Priorities in Corporate Insolvency Law* includes chapters that provide a doctrinal, theoretical and historical analysis of who enjoys preferred creditor status.

As well as examining the traditional major categories of priorities, this work also identifies potential new categories for priority status such as environmental clean-up costs, international creditors, tort claimants and consumers among other non-consensual creditors. While the study focuses on Australian corporate insolvency law, where appropriate, comparisons are made with other common law jurisdictions, particularly the UK, Canada, New Zealand and the US.

Law in the Muslim World

Routledge
The book is a comprehensive work on the law relating to intellectual property. It brings out point of views on point of law and as well point of facts and circumstances. It highlights judiciously the judicial, political, legal, economical and philosophical point of views on the various issues pertinent to the varied fields of intellectual property law. Besides, the book carries analysis and presentation from the comparative perspective in particular from the perspectives of USA, Europe, UK and India. The book is a good addition to the literature on Law

especially on Intellectual Property Rights. The book is useful for students, academicians, and scholars from different disciplines including Law, Science, and Engineering, Humanities, Arts, Literature, Drama, Music and many other fields. The book is also useful for people working in the corporate world. Besides the book is very informative and knowledge generator to the readers.

Current Law Index

Praeger Pub Text

This book discusses the main legal and economic challenges to the creation and enforcement of security rights in intellectual property and explores possible avenues of reform, such as more specific rules for security in IP rights and better coordination between intellectual property law and secured transactions law. In the context of business financing, intellectual property rights are still only reluctantly used as collateral, and on a small scale. If they are used at all, it is mostly done in the form of a floating charge or some other "all-asset" security right. The only sector in which security rights in intellectual property play a major

role, at least in some jurisdictions, is the financing of movies. On the other hand, it is virtually undisputed that security rights in intellectual property could be economically valuable, or even crucial, for small and medium-sized enterprises – especially for start-ups, which are often very innovative and creative, but have limited access to corporate financing and must rely on capital markets (securitization, capital market). Therefore, they need to secure bank loans, yet lack their own traditional collateral, such as land.

Lectures on

Administrative Law

Routledge

This volume is the second part of a project which hosts an interdisciplinary discussion about the relationship among law and language, legal practice and ordinary conversation, legal philosophy and the linguistics sciences. An international group of authors, from cognitive science, philosophy of language and philosophy of law question about how legal theory and pragmatics can enrich each other. In particular, the first part is devoted to the analysis of how

pragmatics can solve problems related to legal theory: What can pragmatics teach about the concept of law and its relationship with moral, and, in particular, about the eternal dispute between legal positivism and legal naturalism? What can pragmatics teach about the concept of law and/or legal disagreements? The second part is focused on legal adjudication: it aims to construct a pragmatic apparatus appropriate to legal trial and/or to test the tenure of the traditional pragmatics tools in the field. The authors face questions such as: Which interesting pragmatic features emerge from legal adjudication? What pragmatic theories are better suited to account for the practice of judgment or its particular aspects (such as the testimony or the binding force of legal precedents)? Which pragmatic and socio-linguistic problems are highlighted by this practice?

Research Handbook on International Human Rights Law Nomos Verlag Vanessa Finch provides a new look at corporate insolvency laws and processes, with two key

questions posed throughout. Are current UK laws and procedures efficient, expert, accountable and fair? Are fundamentally different conceptions needed for the law to develop in a way that serves corporate and broader social ends? Topics considered in this fully up-to-date, interdisciplinary and wide-ranging book include different ways of financing companies, causes of corporate failure and prospects for designing rescue-friendly processes. This will appeal to academics, students at advanced undergraduate and graduate level and legal practitioners.

A Cumulative Author List Representing Library of Congress Printed Cards and Titles Reported by Other American Libraries BRILL

Dieses Werk enthält Forschungsergebnisse zu Fragestellungen hinsichtlich der Bedeutung von Rechtssicherheit und Grundrechten in verschiedenen Rechtsbereichen aus südafrikanischer und deutscher Perspektive, die in Zusammenarbeit der Universitäten Augsburg und Johannesburg entstanden sind. Aktuelle Themen werden von

Wissenschaftlern aus Südafrika eingeführt und anschließend von deutschen Kollegen reflektiert. Dies führt zu einem besseren Verständnis ungeklärter Rechtsfragen beider Rechtssysteme.

International Insolvency Law Law & Medicine Minority Religions under Irish Law focuses the spotlight specifically on the legal protections afforded in Ireland to minority religions, generally, and to the Muslim community, in particular.

Professional Ethics and Human Values Edward Elgar Publishing

The Legal Department and the Institute of the IMF held their ninth biennial seminar for legal advisors of IMF member countries' central banks, and the papers published in this volume are based on presentations made by officials attending this seminar. The seminar covered a broad range of topics, including sovereign debt restructuring, money laundering and the financing of terrorism, financial system and banking supervision, conflicts of interest and market discipline in the financial sector, insolvency, and other

issues related to central banking.
