Introduction to Managerial Accounting Prentice Hall

Non-financial managers need a sufficient knowledge of accounting to interpret a company's financial statements and make key business decisions. The Accounting for Managers book describes how accounting transactions are compiled into financial statements and how information about company performance can be extracted from those statements. It also addresses decisions in such areas as sales and marketing, human resources, and acquisitions that are impacted by accounting information. The book describes several tools, including target costing and constraint analysis, which can be used to improve upon business decisions. In short, Accounting for Managers is the ideal toolkit for understanding how accounting information can be used to drive business decisions.

Introduction to Managerial Accounting by

Garrison/Noreen/Kalagnanam/Vaidyanathan is based on the market-leading text, *Managerial Accounting*, by Garrison.

However, this is not simply a briefer book with chapters removed. It has been rethought, reorganized, and retooled to meet the needs demanded by the market: a more accessible yet thorough text that satisfies the basic needs of the managerial accounting student without unnecessary depth on advanced topics associated with the follow-up course, cost accounting/cost management. Faculty and students alike will find this new text has retained the hallmark features of the Garrison text: excellent readability; terrific examples; thorough, relevant, and balanced end-of-chapter material.
