They have money, influence, power - and they turn out to vote. "They" are groups like Focus on the Family, Family Research Council, and Concerned Women for America (all parts of the Christian Right. But, are they a serious threat to religious liberty, bent on creating a theocratic state, or the last defenders of religion and family values in America). Bringing the story of the religious right up to the Obama administration, this revised fourth edition explores the history of the movement in twentieth and early twenty-first century American politics. The authors review the expansion of the Christian Right through George W. Bush's second administration and evaluate how the religious right fared in the 2006 and 2008 elections. Although figureheads of the religious right remain in the news, their power in Washington may be declining, and the authors consider the fate of the religious right under the Obama administration. Examining how the religious right both does and does not fit into the proper role of religious groups in American politics, *Onward Christian Soldiers?* is an essential addition to the *Dilemmas in American Politics* series.

Can We Restore American Standards? The truth is - America has been systematically corrupted by several past Governments; there are Valid DVDS by PBS and other sources that you will find in this book to explain how this came about. But, it goes much earlier than that! It goes back into the 1800s when "Thinking men considered ancient beliefs of the Veda, Buddhism, Jesus Christ: saving our souls, and Darwin's Evolution, - trying to confront Reality." Germany: a forerunner in science, had Wilhelm Wundt a psychologist and a leader with a new understanding of the reality of Darwin and evolution declared in a party of interested persons that "Man is only an animal and has no soul that can be demonstrated; the same with God and Religion; both of them are the myths of the old people; man is an evolved chimpanzee and should be treated like an animal with a brain and nervous system, and to be observed for abnormal behavior and treated as such." Russian observers agreed and together with Germany formed the National Education (NEA) of teachers, and the birth of psychiatry. There is more but it is in my book, and the source is a well-distinguished school teacher: Samuel L. Blumenfeld and author of: *N.E.A. Trojan Horse in American Education - The First Full-Length Expose of The National Education Association.* © 1949-1984. Since then, American psychiatry has invaded our schools, colleges, universities, State and Federal Governments and you will learn how and what they did to our Country. They have sought to destroy - our education, religion, morals, field of medicine, the laws and our courts...and today we have illiteracy, mental illness, drug addiction, adultery, living together without marriage (responsibility), prostitution, mass shootings of family, teachers and friends, and often themselves. And etc. Again, I

repeat: Can We Restore American Standards? If I provide you with all the tools or resources that will help you do the job – would you be willing to become a Problem Solver? A person desiring to be a Problem Solver would be dealing with his/her environment with one or more persons and also promoting the IDEA through his/her Facebook connections – so it could become world-wide...perhaps like telepathy. But, read the two pages of the Contents and see for yourself the huge scope of help you will receive for common problems of illiteracy, what causes disease, how to attain optimum health and happiness. The persons you help, your children, and their future generations will all appreciate your help. So will I.

The Technological Evolution of Lean Piatkus Books

Tapping is an activity that many of us engage in everyday without even thinking about what we are doing. We drum our fingers on a desk or table while we wait for something to happen. We tap our forehead while we are figuring out a problem. We stroke our chin or rub our head as we contemplate the issues of the day. Each of

these acts is our body's clumsy way of attending to a need for peace or resolution. Tapping prayer is a spiritual practice that intentionally focuses our attention on the rhythmic movement of our finger tips. It directs the energy of God's healing onto specific points on our body that through the practice of acupuncture and reiki, have shown to be conduits of healing. Tapping prayer is the most exciting addition to my spiritual tool belt in 25 years of ministry. It's fun and effective and easy to administer alone, one on one, or in a group. It is very flexible...and did I mention, effective? Tapping prayer is effective in bringing individuals into a one on one relationship with God that creates peace, healing, and a desire to share those gifts with other individuals, communities, and Creation. Tapping prayer is an integration of sacred wisdom from the East and West. It is a spiritual practice that blends a knowledge of the Spirit's movement through our body with an understanding of meridian tapping based on the Emotional Freedom Technique created by Gary Craig. Tapping prayer brings balance and peace to individuals who are experiencing spiritual distress. By gently tapping on identified points of entry for the Holy which correspond to meridian end points in acupuncture, while praying for God to attend to a particular pain, we focus God's intention to heal and in most cases actually experience a peace which is not of our own doing. By acknowledging pain instead of wishing for relief, we recognize God's interest to heal us and indeed, God heals us. This technique can be used for individuals who are seeking peace from a wide variety of issues ranging from: trauma such as a car accident, an abusive parent, a friend killed in battle, a sudden illness, a job loss, a fire, a damaged relationship. Tapping prayer can also facilitate forgiveness and/or letting go. Tapping prayer is effective in praying for others (surrogate prayer tapping focused on an individual who is not present to the prayer tapping), for events (9/11, Sandy Hook, a company leaving a community), or Creation (an oil spill, deforestation, strip mining). Wherever there is a disruption to the peaceful flow of the Holy Spirit, tapping prayer can be applied. When I first learned about the Emotional Freedom Technique as a tool to help veterans in our community, I thought it was weird. The tapping. The repetition. It seemed...odd. This was not how I understood healing from trauma to work, and yet it worked. Clearly, my Western roots were showing. When I got home from the training I began using the technique with

members of my community and saw such dramatic results I had to learn more. They also found it strange, but effective. Some folks were uncomfortable with the language of "energies" and "chi," so I experimented a bit and added more traditional faith language to the mix. I dug deeply into my own faith traditions and discovered a theology of healing that accompanied tapping prayer. I found that by invoking God's presence into the act of tapping, people from varying faith experiences were able to connect to the Holy on a deeper level. They began to experience God as very real and very present in their lives. They asked to learn more about this new way of praying. They discovered that by using tapping prayer on a wide variety of issues, their relationship with God grew deeper. If you are ready to draw closer to God's healing love for you, please take responsibility for your participation in tapping prayer, and let's pray! --Todd Farnsworth
