Malagasy stock,
involved in South
African politics from an
early age, Alex La
Guma was arrested for
treason with 155
others in 1956 and
finally acquitted in
1960. During the State
of Emergency following
the Sharpeville
massacre he was

detained for five months. Continuing to write, he endured house arrest and solitary confinement. La Guma left South Africa as a refugee in 1966 and lived in exile in London and Havana. He died in 1986. *A Walk in the Night and Other Stories* reveals La Guma as one of the most important African writers of his time. These works reveal the plight of non-whites in apartheid South Africa, laying bare the lives of the poor and the outcasts who filled the ghettos and shantytowns. Selected Essays and Criticism Pelekinesis Chris, Ikem and Beatrice are three like-minded friends working under the military regime of His Excellency, the Sandhurst-educated

President of Kangan. In the pressurized atmosphere of oppression and intimidation they are simply trying to live and love - and remain friends. But in a world where each day brings a new betrayal, hope is hard to cling on to. *Vengeful Creditor* Oxford University Press From the renowned author of *The African Trilogy*, a political satire about an unnamed African country navigating a path between violence and corruption As Minister for Culture, former school teacher M. A. Nanga is a man of the people, as cynical as he is charming, and a roguish opportunist. When Odili, an idealistic young teacher, visits his former instructor at the

ministry, the division between them is vast. But in the eat-and-let-eat atmosphere, Odili's idealism soon collides with his lusts—and the two men's personal and political tauntings threaten to send their country into chaos. When Odili launches a vicious campaign against his former mentor for the same seat in an election, their mutual animosity drives the country to revolution. Published, prophetically, just days before Nigeria's first attempted coup in 1966, *A Man of the People* is an essential part of Achebe's body of work.

From the legendary
author of Things Fall
Apart comes a
long-awaited memoir
about coming of age

with a fragile new
nation, then watching
it torn asunder in a
tragic civil war The
defining experience of
Chinua Achebe's life
was the Nigerian civil
war, also known as the
Biafran War, of
1967–1970. The
conflict was infamous
for its savage impact
on the Biafran people,
Chinua Achebe's
people, many of whom
were starved to death
after the Nigerian
government blockaded
their borders. By then,
Chinua Achebe was
already a world-
renowned novelist,
with a young family to
protect. He took the
Biafran side in the
conflict and served his
government as a
roving cultural
ambassador, from
which vantage he
absorbed the war's full
horror. Immediately

after, Achebe took refuge in an academic post in the United States, and for more than forty years he has maintained a considered silence on the events of those terrible years, addressing them only obliquely through his poetry. Now, decades in the making, comes a towering reckoning with one of modern Africa's most fateful events, from a writer whose words and courage have left an enduring stamp on world literature. Achebe masterfully relates his experience, both as he lived it and how he has come to understand it. He begins his story with Nigeria's birth pangs and the story of his own upbringing as a man and as a writer so that we might come to

understand the country's promise, which turned to horror when the hot winds of hatred began to stir. To read *There Was a Country* is to be powerfully reminded that artists have a particular obligation, especially during a time of war. All writers, Achebe argues, should be committed writers—they should speak for their history, their beliefs, and their people. Marrying history and memoir, poetry and prose, *There Was a Country* is a distillation of vivid firsthand observation and forty years of research and reflection. Wise, humane, and authoritative, it will stand as definitive and reinforce Achebe's place as one of the most vital literary and

moral voices of our age.

A Personal History of Biafra Influence Publishers

Since the first edition of *On Being a Scientist* was published in 1989, more than 200,000 copies have been distributed to graduate and undergraduate science students. Now this well-received booklet has been updated to incorporate the important developments in science ethics of the past 6 years and includes updated examples and material from the landmark volume *Responsible Science* (National Academy Press, 1992). The revision reflects feedback from readers of the original version. In response to graduate students' requests, it offers

several case studies in science ethics that pose provocative and realistic scenarios of ethical dilemmas and issues. *On Being a Scientist* presents penetrating discussions of the social and historical context of science, the allocation of credit for discovery, the scientist's role in society, the issues revolving around publication, and many other aspects of scientific work. The booklet explores the inevitable conflicts that arise when the black and white areas of science meet the gray areas of human values and biases. Written in a conversational style, this booklet will be of great interest to students entering scientific research, their instructors and mentors, and anyone

interested in the role of scientific discovery in society.

From the visionary founder of the Self-Assembly Lab at MIT, a manifesto for the dawning age of active materials Things in life tend to fall apart. Cars break down. Buildings fall into disrepair. Personal items deteriorate. Yet today's researchers are exploiting newly understood properties

of matter to program materials that physically sense, adapt, and fall together instead of apart. These materials open new directions for industrial innovation and challenge us to rethink the way we build and collaborate with our environment. Things Fall Together is a provocative guide to this emerging, often mind-bending reality, presenting a bold vision for harnessing the intelligence embedded in the material world. Drawing on his pioneering work on self-assembly and programmable material technologies, Skylar Tibbits lays out the core, frequently counterintuitive ideas and strategies that animate this new approach to design and

innovation. From furniture that builds itself to shoes printed flat that jump into shape to islands that grow themselves, he describes how matter can compute and exhibit behaviors that we typically associate with biological organisms, and challenges our fundamental assumptions about what physical materials can do and how we can interact with them. Intelligent products today often rely on electronics, batteries, and complicated mechanisms. Tibbits offers a different approach, showing how we can design simple and elegant material intelligence that may one day animate and improve itself—and along the way help us build a more

sustainable future. Compelling and beautifully designed, *Things Fall Together* provides an insider's perspective on the materials revolution that lies ahead, revealing the spectacular possibilities for designing active materials that can self-assemble, collaborate, and one day even evolve and design on their own.

A gargantuan, mind-

altering comedy about the Pursuit of Happiness in America Set in an addicts' halfway house and a tennis academy, and featuring the most endearingly screwed-up family to come along in recent fiction, *Infinite Jest* explores essential questions about what entertainment is and why it has come to so dominate our lives; about how our desire for entertainment affects our need to connect with other people; and about what the pleasures we choose say about who we are. Equal parts philosophical quest and screwball comedy, *Infinite Jest* bends every rule of fiction without sacrificing for a moment its own entertainment value. It is an exuberant,

uniquely American exploration of the passions that make us human - and one of those rare books that renew the idea of what a novel can do. "The next step in fiction...Edgy, accurate, and darkly witty...Think Beckett, think Pynchon, think Gaddis. Think." -- Sven Birkerts, *The Atlantic* Vintage
The five sequences of *Lift Your Right Arm* are minimalist novels of sorts—thought-provoking, mostly deadpan prose that is often darkly humorous. From the stark relationship studies of "Bagatelles" and "Dirty Windows" to the wry observations of "Mr. Deadman" and "A Certain Clarence," the stars of these pieces are Peter Cherches' unique takes on

Everyman and Everywoman—dead or alive—navigating a world in which very little is what it seems.

Things Fall Apart**

Chinua Achebe is Africa's most prominent writer, the author of *Things Fall Apart*, the best known--and best selling--novel ever to come out of Africa. His fiction and poetry burn with a passionate commitment to political justice, bringing to life not only Africa's troubled encounters with Europe but also the dark side of contemporary African political life. Now, in

Home and Exile, Achebe reveals the man behind his powerful work. Here is an extended exploration of the European impact on African culture, viewed through the most vivid experience available to the author--his own life. It is an extended snapshot of a major writer's childhood, illuminating his roots as an artist. Achebe discusses his English education and the relationship between colonial writers and the European literary tradition. He argues that if colonial writers try to imitate and, indeed, go one better than the Empire, they run the danger of undervaluing their homeland and their own people. Achebe contends that to redress the inequities

of global oppression, writers must focus on where they come from, insisting that their value systems are as legitimate as any other. Stories are a real source of power in the world, he concludes, and to imitate the literature of another culture is to give that power away. *Home and Exile* is a moving account of an exceptional life. Achebe reveals the inner workings of the human conscience through the predicament of Africa and his own intellectual life. It is a story of the triumph of mind, told in the words of one of this century's most gifted writers. Networks, Crowds, and Markets Heinemann Since its publication in 1958, Chinua Achebe's *Things Fall Apart* has

won global critical and popular acclaim. Offering a hitherto unlimned picture of a traditional culture, it is both a moving story of the coming of colonialism and a powerful and complex political statement on the nature of cross-cultural encounter. The novel has been immensely influential work as the progenitor of a whole movement in fiction, drama, and poetry focusing on the re-evaluation of traditional cultures and postcolonial tensions. It enjoys a pre-eminent position as a foundational text of postcolonial studies. This collection, originating in a conference held in London to celebrate the fiftieth anniversary of the novel's first publication, opens with

a fascinating, insightful, and wide-ranging interview with Achebe. The essays that following explore contemporary critical responses and the novel's historical and cultural contexts. Achebe's influence on the latest generation of Nigerian writers is discussed in essays devoted to Chimamanda Ngozi Adichie. Another essay examines the radical feminist response to the novel in the work of the francophone Algerian writer Assia Djebar, another the illustrations accompanying early editions. Teaching strategies and reader responses to the novel cover Texas, Scotland, and Australia. One measure of the phenomenal worldwide success of Things Fall

Apart is the fact that it has been rendered into some forty-five languages; accordingly, further contributions offer sharp analyses of the German and Polish translations of the novel. GRE Prep by Magoosh Modern Language Assn of Amer Obi Okonkwo is an idealistic young man who, thanks to the privileges of an education in Britain, has now returned to Nigeria for a job in the

civil service. However in his new role he finds that the way of government seems to be backhanders and corruption. Obi manages to resist the bribes that are offered to him, but when he falls in love with an unsuitable girl - to the disapproval of his parents - he sinks further into emotional and financial turmoil. The lure of easy money becomes harder to refuse, and Obi becomes caught in a trap he cannot escape. Showing a man lost in cultural limbo, and a Nigeria entering a new age of disillusionment, *No Longer at Ease* concludes Achebe's remarkable trilogy charting three generations of an African community under the impact of colonialism, the first

two volumes of which are *Things Fall Apart* and *Arrow of God*. *A Walk in the Night* Penguin UK

 The Sultan secretly commissions a great book: a celebration of his life and the

Ottoman Empire, to be illuminated by the best artists of the day - in the European manner. In Istanbul at a time of violent fundamentalism, however, this is a dangerous proposition. Even the illustrious circle of artists are not allowed to know for whom they are working. But when one of the miniaturists is murdered, their Master has to seek outside help. Did the dead painter fall victim to professional rivalry, romantic jealousy or religious terror? With

the Sultan demanding an answer within three days, perhaps the clue lies somewhere in the half-finished pictures . . . From Turkey's winner of the Nobel Prize and author of *Istanbul and The Museum of Innocence*, this novel is a thrilling murder mystery set amid the splendour of Istanbul and the Ottoman Empire. Part fantasy and part philosophical puzzle, *My Name is Red* is also a stunning meditation on love, artistic devotion and the tensions between East and West.
