The Tabla Is The Most Popular Percussion Instrument Of North India. Each Sound On The Tabla Has An Onomatopoeic Syllable To Represent It. Therefore, The Tabla Player Must Learn To Speak A New Language In Addition To Playing. These Syllables Are, In Fact, The Main Mode Of Teaching And Communicating Tabla Material. They Help The Student To Understand The Sound To Be Produced And Aid The Memorization Of Compositions. There Are Many Books Available On The Subject Of Tabla And

Writers Have Written, Focusing Their Own Areas. No Doubt, These Books Are Useful For Students, But Some Specific Terms Are Left Unexplained Viz.

The Encyclopedia of Percussion is an extensive guide to percussion instruments, organized for research as well as general knowledge. Focusing on idiophones and membranophones, it covers in detail both Western and non-Western percussive instruments. These include not only instruments whose usual sound is produced percussively (like snare drums and triangles), but those whose usual

sound is produced percussively (like castanets and claves) or by friction (like the *cuica* and the lion's roar). The expertise of contributors have been used to produce a wide-ranging list of percussion topics. The volume includes: (1) an alphabetical listing of percussion instruments and terms from around the world; (2) an extensive section of illustrations of percussion instruments; (3) thirty-five articles covering topics from Basel drumming to the xylophone; (4) a list of percussion symbols; (5) a table of percussion instruments and terms in English, French, German, and Italian; and (6) an updated section of published writings on methods for percussion.

I first met M.A Sheikh in the late nineteen seventies as my interest in music grew

beyond that of mere appreciation. I was looking for people who could help in developing my taste further and on being recommended I went to visit M. A Sheikh who had an office in the basement of Radio Pakistan Lahore. With regular visits I came to know of the setting up of the Classical Music Cell and its dramatic downturn in fortune with the change of government. The Classical Music Research Cell had been shut down after martial law had been imposed in nineteen seventy seven as an unnecessary drain on the national expenditure. Since the hired premises had to be vacated the question remained as to what was to become of the music, manuscripts, books and some equipment which had been collected so assiduously in the past year. It was lugged from one premise to another till finally a more permanent place in the basement of the Lahore Radio Station was settled for. During this series of very grave crises a small team maneuvered to ward off all the palpable threats. These few individuals had as if almost vowed not to let the Cell be closed down or fall in UN deserving hands. Principally through M.A. Sheikh's efforts it managed to survive. I gradually came to appreciate the work being done by M.A Sheikh who really toiled for years in conditions which were far from ideal to save the collection of recorded material and the many rare and invaluable manuscripts which had been collected over time. .

**Playing Techniques of Tabla** Metuchen, N.J. : Scarecrow Press

Here at last is a book in English on the

Tabla, which the world has been waiting for. Due to continuation of insulated traditions in Indian Musical Practices as well as a veil of secrecy in the closeted legacy of the Guru-Shishya Parampara, most Tabla students were

prevented from learning the subject in a free and unrestricted manner. This book has two sections viz. Theory and Practice. It is lucidly written and is both systematic and understandable. It starts from the

very basics to the advanced levels of Tabla in all its multi-dimensions and will prove to be an asset for any Individual, Institution, Teacher or Student who would like to teach/learn or appreciate and enjoy the Tabla in a systematic way.
