The Terran Fleet
Command Saga -
Disney Electronic
Content
A relentless enemy...
An old wolf's last
hunt... The future of
two species hanging in
the balance... The
Darshik war machine is
flagging, but the war is
far from over. Even as

an exhausted
Federation military
tenses up for a
counterattack after
repelling the last
Darshik invasion,
reports are coming in
of a new, more
powerful class of ship
that's striking deep
into Terran space.
Captain Jackson Wolfe
has been given the
fleet's newest, most
advanced destroyer
and tasked with
eliminating this new

threat before it can claim any more human lives. What he finds, however, is immeasurably more dangerous than just some new class of starship ... it's a horror that could lead to the destruction of both their species if it isn't stopped. Destroyer is the third book in the Expansion Wars Trilogy and part of the #1 bestselling Black Fleet Saga.

Book 1 in the Neon Octopus Overlord Series Penguin

The first novel in a new trilogy starring veteran New Republic pilots! On the brink of victory in a brutal war, five New Republic pilots transform from hunted to hunters in this epic Star Wars adventure. Set after Return of the Jedi, Alphabet Squadron follows a

unique team, each flying a different class of starfighter as they struggle to end their war once and for all. The Emperor is dead. His final weapon has been destroyed. The Imperial Army is in disarray. In the aftermath, Yrica Quell is just one of thousands of defectors from her former cause living in a deserters' shantytown—until she is selected to join Alphabet Squadron. Cobbled together from an eclectic assortment of pilots and starfighters, the five members of Alphabet are tasked by New Republic general Hera Syndulla herself. Like Yrica, each is a talented pilot struggling to find their place in a changing galaxy. Their mission: to track down and

destroy the mysterious Shadow Wing, a lethal force of TIE fighters exacting bloody, reckless vengeance in the twilight of their reign. The newly formed unit embodies the heart and soul of the Rebellion: ragtag, resourceful, scrappy, and emboldened by their most audacious victory in decades. But going from underdog rebels to celebrated heroes isn't as easy as it seems, and their inner demons threaten them as much as their enemies among the stars. The wayward warriors of Alphabet Squadron will have to learn to fly together if they want to protect the new era of peace they've fought so hard to achieve. Part of a Marvel and Del Rey crossover event, Alphabet Squadron is

the counterpart to Marvel's TIE Fighter miniseries, which follows the exploits of Shadow Wing as they scheme to thwart the New Republic.

Black Fleet Trilogy 1

In war, no one is safe. War has come to Thornstone, Tarkin's Point, and Thoriddon, throwing all three nations into chaos. Led by the demon lord Vagborar, the legions of orcs are bent on nothing less than the total annihilation of both human and dwarf. With their demonic allies, they just might succeed. But not without a fight. As Serena tries to find answers and a path to victory, Orin and Brom fight with both sword and spell to turn back the tide of darkness. Beside them are a

kingdom of dwarves and a city of humans, but even they may not be enough to beat back such a force. If they hope to survive, they need to come together, but with each nation under siege, uniting as one is easier said than done. When one of them is freed from battle, hope is rekindled, but prejudices rise to the surface, threatening everything. If any of them hope to survive, past actions and old hatreds must be forgotten. Hard decisions and painful sacrifices must be made. And pride and egotism must be set aside for the greater good. If not, a new age of evil will dawn upon the world.

An ancient starship discovered... An eternal enemy revealed... An impossible mission to save humankind... The Goliath has been discovered, the first of its secrets revealed. Now the race is on for Captain Mitchell Williams and his crew to return to Liberty and recover Origin's lost memories before the enemy can complete its violent conquest. It's a mission with a near-zero chance of success. A mission that only the Riggers would be crazy enough to accept, and skilled enough to survive. A mission that will test the limits of Mitchell's mind, body, and soul, and force him to make an impossible choice that could cost the lives of millions. This is

war, and if he can't win a battle for a single planet, how can he possibly change the outcome of a conflict that has raged beyond eternity?

search for salvation... --

----- Captain
Mitchell "Ares" Williams
is a Space Marine and
the hero of the Battle
for Liberty, whose Shot
Heard 'Round the
Universe saved the
planet from a nearly
unstoppable war
machine. He's
handsome,
charismatic, and the
perfect poster boy to
help the military drive

enlistment. Pulled from
the war and thrown
into the spotlight, he's
as efficient at charming
the media and bedding
beautiful celebrities as
he was at shooting
down enemy
starfighters. After an
assassination attempt
leaves Mitchell
critically wounded, he
begins to suffer from
strange hallucinations
that carry a chilling
and oddly familiar
warning: They are
coming. Find the
Goliath or humankind
will be destroyed.
Convinced that the
visions are a side-
effect of his injuries, he
tries to ignore them,
only to learn that he
may not be as crazy as
he thinks. The enemy
is real and closer than
he imagined, and
they'll do whatever it
takes to prevent him
from rediscovering the

centuries lost starship. Narrowly escaping capture, out of time and out of air, Mitchell lands at the mercy of the Riggers - a ragtag crew of former commandos who patrol the lawless outer reaches of the galaxy. Guided by a captain with a reputation for cold-blooded murder, they're dangerous, immoral, and possibly insane. They may also be humanity's last hope for survival in a war that has raged beyond eternity.

The Black Fleet Saga continues... A human planet has been invaded. The enigmatic Darshik have landed troops on a frontier world and have begun subduing major cities even as their blockade repels all attempts by

the fledgling United Terran Federation to mount a counteroffensive. The Federation's military command is desperate and with their fleet still in tatters they make a last ditch effort to free the planet: They pull Captain Jackson Wolfe out of retirement and put him in command of a ship they hope can get past the defending armada and provide support to the beleaguered Marines and civilians fighting on the surface of the contested world. There is no reasoning with this enemy. If the Terran Federation wants their planet back, they will have to pay the price. Iron & Blood is the second book of The Expansion Wars Trilogy and the fifth book of the Black Fleet Saga.

Captain Jackson Wolfe never thought he'd see the end of the Phage War in his lifetime. The enemy was too powerful, too numerous, and utterly determined to exterminate humanity. But the appearance of a new ally in the fight has changed all of that. For the first time since the original incursion Wolfe thinks that maybe there's a chance to stop their implacable enemy before they have the chance to wipe out any more human planets. That opportunity comes at great cost, however, and even as he makes plans for their first offensive move on the Phage,

Jackson is all too aware that most of them will not survive.

"Counterstrike" is book three of the bestselling Black Fleet Trilogy.

Starship Troopers

Simon and Schuster
75 years ago, an alien fleet attacked Earth. Without warning. Without mercy. We were not prepared. Then the aliens abruptly left. We rebuilt. We armed ourselves. We swore: never again. The aliens never came back ... until now ... It's the year 2650. With overwhelming force the aliens have returned, striking deep into our territory, sending Earth into a panic. Our new ships burn like straw. All our careful preparations are wasted. Only one man, one crew, and the oldest starship in

the fleet stand between the Earth and certain destruction: ISS Constitution.

Don't miss the exclusive content in this thrilling adaptation of Solo: A Star Wars Story, with scenes from alternate versions of the script including Han Solo's time in the Imperial Navy, Qi'ra's

past, the beginnings of the rebellion, and more! Though Han Solo has thrilled Star Wars fans for decades, the notorious wisecracking scoundrel was chasing adventure and dodging trouble long before he walked into the cantina at Mos Eisley spaceport. Young Han dreams of someday soaring into space at the helm of his own starship and leaving his home, the gritty industrial planet Corellia, far behind. But as long as he's trapped in a life of poverty and crime—and under the thumb of the sinister Lady Proxima and her brutal street gang—reaching the distant stars seems impossible. When Han tries to escape with his girlfriend and partner-in-crime, Qi'ra, he

makes it out—but she doesn't. Desperate for a way to find his own offworld vessel and free her, Han enlists in the Imperial Navy—the last place for a rebellious loner who doesn't play well with others. When the Empire clips his wings, Han goes rogue and plunges into the shady world of smugglers, gamblers, and con artists. There he meets the charming and cunning high roller Lando Calrissian, makes an unlikely friend in a cantankerous Wookiee called Chewbacca, and first lays eyes on the Millennium Falcon. To snag his piece of the outlaw pie, Han joins a crew of pirates to pull off a risky heist. The stakes are high, the danger is great, and the odds are slim. But

never tell Han Solo the odds. Praise for Solo: A Star Wars Story “Mur Lafferty has given us the best adaptation of a Star Wars film yet.”—Star Wars News Net “If you liked the movie but were left wanting more, this novel has exactly what you need.”—CNET “A fun adventure tale within the larger Star Wars franchise that goes beyond the run-of-the-mill novelization treatment to explore a new bit of the world that we haven't yet seen.”—The Verge

This monograph examines China's approach to using sea power to defend and advance its maritime claims in the East China Sea and South China Sea. This approach, which

Chinese strategists sometimes called "echelon defense," involves the use of non-military instruments of sea power--especially maritime law enforcement forces--to vie with other states for control over disputed maritime space. These non-military forces operate on the first line (or echelon) of China's expanding frontier. Behind them, on the second line, China employs naval forces to deter foreign leaders from using force, thereby compelling them to compete on China's own terms. The echelon defense approach allows China to gradually achieve its objectives without risking a conflict or giving other great powers such as the

United States sufficient grounds to intervene. Since 2006, when this approach was pioneered, it has enabled China to expand its influence and control in maritime East Asia. But it has also harmed China's relations with its neighbors and other great powers. " The wait is over. New York Times bestselling author Jack Campbell continues his action-packed spin-off to The Lost Fleet series as the Syndicate's civil war threatens to spread even farther into the final frontier ...

President Gwen Icen and General Artur

Drakon have

successfully liberated the Midway Star

System-but the former rulers of the Syndicate Worlds won't surrender the region without a

fight. The dictatorial regime has ordered the ex-Syndicate CEOs terminated with extreme prejudice and the system's citizens punished for their defiance.

Outnumbered and led by junior officers hastily promoted in the wake of the uprising, Midway's warships are no match for the fleet massing and preparing to strike. But the Syndicate isn't the only threat facing Icen and Drakon. Another former CEO has taken control of the Ulindi Star System, the first calculated move toward establishing his own little empire. With Drakon's ground forces dispatched to Ulindi, Midway erupts in violence as Syndicate agents and other, unknown enemies stoke a renewed revolt

against Icenii's power--leaving both her and Drakon vulnerable to trusted officers just waiting for an opportune moment to betray them ..."--

Warship Del Rey

From Joshua Dalzelle comes the follow up to the #1 Bestseller "Warship." Captain Jackson Wolfe survived

the initial incursion of a vicious alien species into human space ... barely. He had assumed the juggernaut that had devastated three Terran systems was the herald for a full invasion, but for the last few years it has been eerily quiet along the Frontier. Jackson now struggles to convince the Confederate leadership the threat is still imminent and needs to be taken seriously. While powerful factions make backroom deals he is desperate to find irrefutable proof that the invaders are coming and if humanity expects to survive they must marshal their forces and make a stand before it's too late. *Blueshift* SUNY Press
