"Ali and Nino" is the epic novel of enduring romance in a time of war. It has been hailed as one of the most romantic epic novels of all time. Ali and Nino, two lovers from vastly different backgrounds, grow up together in carefree innocence in Baku on the Caspian Sea. Here, where Eastern and Occidental collide, they are inevitably drawn into the events of the First World War and the Russian Revolution. Torn apart by the turmoil, Ali joins the defense of Azerbaijan from the onslaught of the Red Army,

and Nino flees to the safety of Paris with their child, not knowing whether they will ever see each other again. A sweeping tale, as romantic and gripping as "Gone with the Wind" or "Dr. Zhivago," it portrays, against a gloriously exotic backdrop, the enduring love between childhood friends divided by their separate cultures.

The great Russian psychologist L. S. Vygotsky has long been recognized as a pioneer in developmental psychology. But somewhat ironically, his theory of development has never been well understood in the West. *Mind in Society* should correct much of this misunderstanding. Carefully edited by a group of outstanding Vygotsky scholars, the book presents a unique selection of Vygotsky's important essays, most of which have previously been unavailable in English. The Vygotsky who emerges from these pages can no longer be glibly included among the neobehaviorists. In these essays he outlines a dialectical-materialist theory of cognitive development that anticipates much recent work in American social science. The mind, Vygotsky argues, cannot be understood in isolation from

the surrounding society. Man is the only animal who uses tools to alter his own inner world as well as the world around him. From the handkerchief knotted as a simple mnemonic device to the complexities of symbolic language, society provides the individual with technology that can be used to shape the private processes of mind. In *Mind in Society* Vygotsky applies this theoretical framework to the development of perception, attention, memory, language, and play, and he examines its implications for education. The result is a remarkably interesting book that is bound to renew Vygotsky's relevance to modern psychological thought.

Azerbaijan, the 'land of fire', is full of infinite beauty and treasures; moreover it offers a wide variety of cultural attractions. As part of the South Caucasus, the country lies between the Mountains and Asia Minor and the Black and Caspian Seas. Just as diverse as the landscape is Azerbaijani cuisine: hearty lamb dishes, sticky sweet baklava, and the sheer never-ending world of oriental spices are just asking to be cooked. The atmospheric images by the Cologne photographer Barbara Lutterbeck, who captured the heart and soul of the country on her travels, tempt the reader on a tour of discovery as much as her enticing recipes do.

**The Economy of Prestige** Harvard University Press

Azerbaijan has set the course for the economy to reduce its dependence on oil by promoting new drivers of growth. By 2025, under the government's Strategic Road Maps, a more diversified economy should take shape led by three sectors: agriculture, tourism, and manufacturing. Bold reforms need to strengthen areas of the economy that could otherwise impede this transition, and policy makers must resolutely stay on the reform path. The core message of this publication is diversification toward non-oil sources of growth alongside efforts to reduce macroeconomic risks and the high cost of finance, make the education system responsive to the needs of the labor market, close infrastructure gaps, and help economically significant state-owned enterprises become more efficient.

For Westerners, the modern state of Azerbaijan may be hard to pinpoint. This small, oil-rich country in the southern Caucasus, on the southwestern shore of the Caspian Sea, only made its way on

to the contemporary world map after the dissolution of the Soviet Union in 1991. As the world shrinks and competition for precious resources intensifies, the direction this strategically and economically important country takes will affect us all. The historically tolerant and pluralist Azeri people have an ancient history and a rich culture. Azerbaijan lay on the route of the Great Silk Road, the trade network that connected China with Europe, and its people have lived through centuries of conquests by different imperial powers. It was also situated in the heart of the Great Game, the struggle for control of Central Asia played out between Russia and the West at the turn on the nineteenth century, which seems to be going through a modern remake. Azerbaijan has been called "the quintessential borderland, many times over: between Europe and Asia, Islam and Christianity, Russia and the Middle East, Turks and Iranians, Shi'a and Sunni Islam." Azerbaijan was briefly independent after the First World War, when it was the first Muslim state to adopt progressive Western values. A democratic republic with full women's suffrage, it boasted the first women's high school, the first opera, and the first female opera composer, as well as the first ballet in the Muslim world. There followed seventy years of Soviet rule. After a bitter war in 1991&-94, areas of Azerbaijan were occupied by neighboring Armenia, and the country has absorbed a huge number of refugees. At the same time, it is experiencing a new oil boom and the economy is growing. Among the people, there is a growing sense of national identity. Culture Smart! Azerbaijan looks at the many facets of this identity and explains the complex workings of Azerbaijani society. It will equip you with vital information and advice about the customs, practices, and

sensibilities of a society poised on the brink of change.

THE HISTORY OF AZERBAIJAN: from ancient times to the present day Youguide International BV

This is a book about one of the great untold stories of modern cultural life: the remarkable ascendancy of prizes in literature and the arts. Such prizes and the competitions they crown are almost as old as the arts themselves, but their number and power--and their consequences for society and culture at large--have expanded to an unprecedented degree in our day. In a wide-ranging overview of this phenomenon, James F. English documents the dramatic rise of the awards industry and its complex role within what he describes as an economy of cultural prestige. Observing that cultural prizes in their modern form originate at the turn of the twentieth century with the institutional convergence of art and competitive spectator sports, English argues that they have in recent decades undergone an important shift--a more genuine and far-reaching globalization than what has occurred in the economy of material goods. Focusing on the cultural prize in its contemporary form, his book addresses itself broadly to the economic dimensions of culture, to the rules or logic of exchange in the market for what has come to be called "cultural capital." In the wild proliferation of prizes, English finds a key to transformations in the cultural field as a whole. And in the specific workings of prizes, their elaborate mechanics of nomination and election, presentation and acceptance, sponsorship, publicity, and scandal, he uncovers evidence of the new arrangements and relationships that have refigured that field.

The early Soviet Union's nationalities policy involved the formation of many national republics, within which "nation building" and "modernization" were undertaken for the benefit of "backward" peoples. This book, in considering how such policies were implemented in Azerbaijan, argues that the Soviet policies were in fact a form of imperialism, with "nation building" and "modernization" imposed firmly along Soviet lines. The book demonstrates that in Azerbaijan, and more widely among western Turkic peoples, the Volga and Crimean Tatars, there were before the onset of Soviet rule, well developed, forward looking, secular, national movements, which were not at all "backward" and were different from the Soviets. The book shows how in the period 1920 to 1940 the two different visions competed with each other, with eventually the pre-Soviet vision of Azerbaijani culture losing out, and the Soviet version dominating in a new Soviet Azerbaijani culture. The book examines the details of this Sovietization of culture: in language policy and the change of the alphabet, in education, higher education and in literature. The book concludes by exploring how pre-Soviet Azerbaijani culture survived to a degree underground, and how it was partially rehabilitated after the death of Stalin and more fully in the late Soviet period.

Azerbaijan is a country located at the crossroads of Eastern Europe and Western Asia. It is bordered by Russia to the north, Georgia to the northwest, Armenia to the west, Iran to the south, and the Caspian Sea to the east. Azerbaijan has a rich history and has been inhabited by various peoples and empires throughout its history. The country gained independence from the Soviet Union in 1991 and has since undergone significant political and economic reforms. Azerbaijan is known for its oil and natural gas reserves, which have helped fuel its economic growth. The capital of Azerbaijan is Baku, a city famous for its oil industry and the iconic Flame Towers. Other major cities include Ganja, Sumgait, and Mingachevir. The official language of Azerbaijan is Azerbaijani, although Russian and English are also widely spoken. The majority of the population is Muslim, but the country is known for its religious tolerance and the coexistence of various religious communities. Azerbaijan is a member of several international organizations, including the UN, the Council of Europe, and the Non-Aligned Movement.

Iran is rarely out of the headlines, and there is likely to be a rush of interest from tourists and investors if the provisional framework agreement reached in April 2015 is implemented, lifting most sanctions in exchange for limits on its nuclear program for at least ten years. Western fascination with Iran is nothing new. For centuries, foreigners have been entranced by a country that is quite distinct from all others in the region. Iran is home to one of the world's oldest civilizations. Travelers have long been seduced by the echoes of the extraordinary ancient history contained in the word "Persia." But Iran is also a modern society that is experiencing great change. Although it is still feeling the effects of the Islamic Revolution of 1979, social restrictions have loosened considerably in recent years. Strict Islamic rules coexist with an increasingly dynamic society driven by an overwhelmingly young population. Animosity toward the West at a political level sits side-by-side with a wholehearted welcome for foreigners as individuals. Culture Smart! Iran takes you beyond the clichés to show how life in Iran really is and how you can feel comfortable in its society. It offers insights into a country full of surprises. Despite Iran's deep commitment to Islam, the pre-Islamic Zoroastrian past is still part of everyday culture. Its language, Farsi, shares linguistic roots with English and French. It is a country where one of the more genuine democracies in the Middle East is overlaid by an unelected theocracy. And where "no thank you" really does sometimes mean "yes please." If nothing else, this entrancing, beautiful, and sometimes infuriating place is a country whose inhabitants genuinely wish visitors Khosh amadi!--Welcome!
