This book, based on extensive work in Russian archives, investigates how strategy, organisational rivalry and cultural factors came to shape naval developments in the Soviet Union, up to the invasion of 1941. Focussing on the Baltic Fleet, the author shows how the perceived balance of power in northern Europe came to have a major influence on Soviet naval policy during the 1920s and 1930s. The operational environment of a narrow inland-sea like the Baltic would have required a joint approach to military planning, but the Soviet navy's weak position among the armed services made such an approach hard to attain. The Soviet regime also struggled against the cultural heritage of the tsarist navy and the book describes how this was overcome. In a special Appendix dedicated to the purges of 1937-38, surviving party records from the Baltic Fleet Intelligence Section are used to illustrate the mechanisms of the Great Terror at local level.

La Araucana Cornell University Press [B]ecause of the thoroughness of the literature reviews and the comprehensive coverage of the chapter topics, [this book] should be required reading for any scholar working in related areas of personality or intelligence."--PsyncCRITIQUES "This book is a masterly attempt to bring order and cohesion to a field that for many years has been riven with claims and counterclaims. The editors and authors are to be congratulated for addressing a very complex task so helpfully." John Biggs, PhD Honorary Professor of

Psychology University of Hong Kong "If you are interested in intellectual stylesópeople's preferred ways of processing informationóthen this book belongs on your bookshelf." Richard E. Mayer, PhD Professor of Psychology University of California, Santa Barbara "For more than half a century, the construct of styleówhether designated as cognitive, thinking or learningóhas been in or out of fashion in the history of psychology and education. The editors of the present Handbook have invigorated the style construct in the form of intellectual styles, and have brought together a distinguished international panel of chapter authors who offer up-to-date surveys of the assessment, development, correlates, and educational and organizational applications of intellectual styles. For those seeking to familiarize themselves with current theory and research in an intellectually exciting field, the present Handbook is essential." Nathan Kogan, PhD Professor Emeritus, Department of Psychology New School for Social Research, New York, NY The concept of intellectual styles has had a controversial history based on diverse philosophical and theoretical foundations. Most recently, the idea of intellectual stylesóan umbrella term that covers such closely related constructs as "cognitive styles," "learning styles," "teaching styles," and "thinking styles"óhas gained momentum as an explanation for why different people succeed in different professional and organizational settings. Previously, it was thought that high-achievers simply had more innate abilities than their less successful peers, but research has shown that individuals have different intellectual styles that are better suited for varying types of contexts and

problems. Based on the most current and expansive research, this handbook is the first to provide a comprehensive review of research on the construct of intellectual style, from its foundations and development, to its relations to allied constructs, its roles in school and job performance, its applications in various populations, and its future.. This understanding of intellectual styles as a valid concept for both individuals and groups has far-reaching implications for researchers in cross-cultural psychology, multicultural education, organizational behavior and work performance, and many other academic disciplines, as well as practitioners in education and beyond. Key Features: Provides a comprehensive review of intellectual styles from multiple perspectives Written for students and scholars in diverse academic arenas, as well as practitioners in education and other fields Includes contributions from researchers from diverse disciplines, such as psychology, business, education, and health sciences

Primera parte de la saga En una tarde de lluvia intensa a Kalinin y Serena no les queda otra que entretenerse leyendo un buen libro en casa. Lo que no se esperan es que esa lectura los hará adentrarse en la misión más importante que jamás hayan vivido: salvar el Boque del

Lenguaje Encantado. SOBRE LA AUTORA Teresa Calderón Esta poeta y narradora chilena nació en La Serena en 1955 y es hija del Premio Nacional Alfonso Calderón. Estudió Pedagogía en Castellano en la Universidad Católica y más tarde Licenciatura en Estética en la misma universidad. El primer poemario de Teresa, titulado *Causas perdidas*, fue publicado en 1984; desde entonces ha publicado una amplia variedad de cuentos, poemas, novelas y antologías que la han posicionado como una de las escrituras más importantes a nivel nacional. Además de dedicarse a la docencia escolar y universitaria y dictar talleres literarios, ha publicado exitosos libros para niños como la trilogía *Aventuras de Súper Inti y Analfabruja*, *Súper Inti y el misterio del espejo* y *Súper Inti y Serena atrapados en un portal*.

Performance and the City Roberto Marcelo Russo

Sport is a global phenomenon engaging billions of people and generating annual revenues of more than US\$ 145 billion. Problems in the governance of sports organisations, fixing of matches and staging of major sporting events have spurred action on many fronts. Yet attempts to stop corruption in sport are still at an early stage. The Global Corruption Report (GCR) on sport is the most comprehensive analysis of sports corruption to date. It consists of more than 60 contributions from leading experts in the fields of corruption and sport, from sports organisations, governments, multilateral institutions, sponsors, athletes, supporters, academia and the wider anti-corruption movement. This GCR provides essential analysis for understanding the corruption risks in sport, focusing on sports governance, the business of sport, planning of major

events, and match-fixing. It highlights the significant work that has already been done and presents new approaches to strengthening integrity in sport. In addition to measuring transparency and accountability, the GCR gives priority to participation, from sponsors to athletes to supporters an essential to restoring trust in sport.

. "Escribí este libro porque me gustaría que tú, que quizás estás pensando si acaso esto de emprender es para ti, también puedas vivir una vida donde seas la dueña de tu tiempo y energía". "Pasé de ser una profesora empleada, con miedo a la cesantía, que ahorraba todo el año para viajar diez de cada 365 días, a ser una empresaria que lidera un equipo de más de veinte personas, factura más de 250 mil dólares anuales, puede viajar cuando quiera, y, sobre todo, perdí prácticamente todos mis miedos, porque sé que diseñar la vida de mis sueños está en mis manos". A partir de su propia experiencia, Tamara Muñoz,

creadora de la comunidad @Quiere.cl y de la Escuela de Negocios Abundantes, invita a las lectoras a transformar sus vidas a través del emprendimiento. Aunque a muchas mujeres les asuste o sientan que armar su propio negocio es una idea inalcanzable o solo para unas pocas, en Negocios abundantes la autora entrega todas las herramientas prácticas y hace las preguntas clave para que cualquier mujer se atreva a dar el gran paso de emprender. Encuentra tu código único, aprende a vender y cómo perderle el miedo, descubre qué hacer y no hacer cuando quieras crecer y cuáles son las estrategias para usar las redes sociales a tu favor, para dar forma a ese negocio que llenará tu vida de abundancia.

National Geographic Books

The best country-by-country assessment of human rights. The human rights records of more than ninety countries and territories are put into perspective in Human Rights Watch's signature yearly report. Reflecting extensive investigative work undertaken by Human Rights Watch staff, in close partnership with domestic human rights activists, the annual World Report is an invaluable resource for journalists, diplomats, and citizens, and is a must-read for anyone interested in the fight to protect human rights in every corner of the globe.

GUÍA ARGENTINA DE FRANQUICIAS VERSIÓN DIGITAL - ANUARIO 2022

Editora CRV

El presente libro muestra una posición política clara en defensa de la educación superior pública, desde dos orillas: una definida por el debate informado y argumentado sobre los problemas fundamentales de la educación (autonomía, financiamiento, evaluación y acreditación) y otra derivada de la actividad académica de un historiador

que no abandona su interés por examinar con detalle los acontecimientos que marcan los tiempos actuales. Atehortúa explora con agudeza el presente histórico, conformado por varias situaciones sincrónicas y diacrónicas que incluyen “un buen número de situaciones pasadas, sobre las cuales todavía se puede reaccionar y que, por tanto, a su manera, siguen participando en la modelación del presente” (en palabras de Hugo Fazio Vengoa). Las siete temáticas abordadas a lo largo de las columnas que conforman este libro son: “En defensa de la educación superior pública”, “Por la universidad y la educación”, “Ciencia e historia”, “Proceso de Paz”, “Política doméstica” “Política internacional” y “Política antidrogas”.

The Battle Against Polio Cornell University Press

Este segundo tomo de La Armada de Chile: una historia de dos siglos narra la historia del poder naval desde el final de la Guerra del Pacífico hasta nuestros días, abarcando la conmemoración del Bicentenario en el 2017. Abarca el periodo de crecimiento de fines del siglo XIX, el motín naval de 1931, la Segunda Guerra Mundial, las tensiones de la Guerra Fría, y con Perú y Argentina de los años 70. Mientras que en décadas más recientes, destaca los esfuerzos de renovación de la flota y la participación de la Armada en la mitigación de desastres naturales, en operaciones de paz y en ejercicios multinacionales hasta llegar a las conmemoraciones del 2017-2018.

Comprometidos con la Agenda 2030 de Naciones Unidas este aporte a la comunidad se incardina con los Objetivos de Desarrollo Sostenible (ODS). Cumpliendo el ODS 17 se ha

creado una alianza sólida y cooperativa donde se alcanza el ODS 4 de educación de calidad. Nunca antes tantos profesionales del Derecho comprometieron su trabajo en una obra de Derecho de la Moda intentando cubrir todos los espacios posibles de consulta y preocupación de los actores del Sector. Para nosotros ha sido un espacio de intercambio de saberes, de experiencias, de sentirse por lo que sólo tenemos palabras de agradecimiento para todos los autores que confiaron en este proyecto que fue cosido, puntada tras puntada, letra tras letra, por muchas manos amigas.

Silent Spring Editorial Catalonia

An introduction to work and society for undergraduate and postgraduate students. This new text brings together international experts on work and employment from a range of disciplines to debate key themes and issues related to work in a globalised economy.

Power in Coalition Cornell University Press

Through flashbacks, recollections, and short narratives, this story powerfully communicates an individual's experience of exile from an emotional and psychological perspective while at the same time linking the individual experience to the collective one."--BOOK JACKET.

World Report 2019 Springer Publishing Company

In the Museum of Man offers new insight into the thorny relationship between science, society, and empire at the high-water mark of French imperialism and European racism. Alice L. Conklin takes us into the formative years of French anthropology and social theory between 1850 and 1900; then deep into the practice of anthropology, under the name of ethnology, both in Paris and in

the empire before and especially after World War I; and finally, into the fate of the discipline and its practitioners under the German Occupation and its immediate aftermath. Conklin addresses the influence exerted by academic networks, museum collections, and imperial connections in defining human diversity socioculturally rather than biologically, especially in the wake of resurgent anti-Semitism at the time of the Dreyfus Affair and in the 1930s and 1940s. Students of the progressive social scientist Marcel Mauss were exposed to the ravages of imperialism in the French colonies where they did fieldwork; as a result, they began to challenge both colonialism and the scientific racism that provided its intellectual justification. Indeed, a number of them were killed in the Resistance, fighting for the humanist values they had learned from their teachers and in the field. A riveting story of a close-knit community of scholars who came to see all societies as equally complex, In the Museum of Man serves as a reminder that if scientific expertise once authorized racism, anthropologists also learned to rethink their paradigms and mobilize against racial prejudice—a lesson well worth remembering today. *From the Patient's Perspective* Museo de Antofagasta

A story that involves as its main players "workers" and "Walmart" does not usually have a happy ending for labor, so the counternarrative offered by Building Power from Below is must reading for activists and union personnel as well as scholars. In 2008 Walmart acquired a controlling share in a large supermarket chain in Santiago, Chile. As part of the deal Walmart had to accept the unions that were already in place. Since then, Chilean retail and warehouse workers have done something that has seemed

impossible for labor in the United States: they have organized even more successful unions and negotiated unprecedented contracts with Walmart. In *Building Power from Below*, Carolina Bank Muñoz attributes Chilean workers' success in challenging the world's largest corporation to their organizations' commitment to union democracy and building strategic capacity. Chilean workers have spent years building grassroots organizations committed to principles of union

democracy. Retail workers' unions have less structural power, but have significant associational and symbolic power. Their most notable successes have been in fighting for respect and dignity on the job. Warehouse workers by contrast have substantial structural power and have achieved significant economic gains. While the model in Chile cannot necessarily be reproduced in different countries, we can gain insights from the Chilean workers' approaches, tactics, and strategies.
