Hidden in the mountains of East Tennessee, an eleven-year old goes about the business of being a boy during the summer of 1970. Within a balance of terror and innocence, he bears silent witness to ghosts of the dead and the cruelties of a teenage killer while local justice plays out in a community carved from legacies of coal mining and religion.

"As the first substantial investigation of commercial art in China, *Selling Happiness* explains how the early twentieth century Chinese public came to accept Western style art as mainstream and the

heretofore ignored process by which the Chinese art world became (in some sectors at least) thoroughly cosmopolitan. A monumental study of the most important genre of modern Chinese commercial art, this volume will appeal not only to historians of Chinese art but also to those interested in literary, economic, and social history. It will be an essential resource for comparative studies of visual culture."--BOOK JACKET. Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

Fernandez and Ferranti uncover a tantalizing blend of German efficiency and Latin nonchalance, French literature and Gypsy music, Western rationalism and Oriental mysteries. Attentive and precise, they dig beneath the somber heritage of communism to reach the deep roots of a European country about which so little is known.

This book provides a comprehensive and expert examination of the Markets in Financial Instruments Directive II, which comes into force in January 2018 and will have a major impact on investment firms and financial markets. It offers detailed guidance on interpretation of MiFID II, its measure and aims which include: to increase transparency; better protect investors; reinforce confidence; address unregulated areas; and ensure that supervisors are granted adequate powers to fulfil their tasks. After a thorough overview of the various innovative features of the new legislative framework in comparison with the former MiFID, the book's chapters are grouped thematically to cover the following areas: general aspects; investment firms and investment services; trading; supervision and enforcement; and reform perspectives. Offering high-quality analysis of both the theoretical and practical aspects of MiFID II, this book is an essential guide to this major EU legislation. It brings together the expert opinions of leading practitioners and legal and economic scholars with access to practice, providing a variety of perspectives on the new regime and the likely effect of the increased regulation.

Lately, Anviksha Punjabi can't seem to get anything right. She is in the middle of ending her second marriage, is barely keeping any friends, and repeatedly getting into trouble at work. And as if all that weren't enough, she must put up with her gregarious and over-bearing 67-year-old mother as a

housemate. Afraid that if this goes on, she'll finally unravel completely, Anviksha decides that she needs a break - a Bollywood style, solo-trip across Europe kind of break. What she doesn't expect is that her mother, Smita Punjabi, will insist on coming along. The unlikely duo embarks on a journey complete with nudists, an unwelcome blast from the past, a British dog named Bhindi, and several eligible bachelors, and slowly, what was supposed to be a soul-searching journey for one, turns into a life-altering experience for two.

As the United States marks its first presidential election of a new century, Witcover shows us how professional mercenaries -- with little party loyalty and diminished political principles, driven by an insatiable need for money -- are poisoning public life. At the same time, politicians themselves have condoned and even encouraged these developments, responding to the demands of a media-driven age in which the press corps pursues its own quest for celebrity and financial reward. Sharp, revealing, and rich with anecdotes, *No Way to Pick a President* offers a wealth of presidential history, from the role of the vice president's office to campaign funds, television and the electoral college.

Sometimes you know things you're not supposed to know. Things that you can never un-know. Things that will change the course of your life...and the fate of the ones you love. I found her in our living room, bleeding and close to death, but alive. Barely. Until morning stole her last breath. The media called her killer the "Triangle Terror" ... and then forgot about her. But I never forgot—my murdered sister, and an investigation that led to my own resurrection from the dead. Twenty-two years ago, on a cold February night, Landon Worthington lost his father for the last time. After an armed robbery gone wrong, evidence and witness testimony pointed a shaky finger at Dan Worthington—deadbeat dad and alcoholic husband. But before the dust could settle over the conviction, Landon's preteen sister, Alexis, is murdered in their home, plunging Landon's life into further despair. Two decades and a cold case later, Landon is dogged by guilt over their estranged relationship and decides to confront his incarcerated father about what really happened the night of the robbery. But the years of lies are hard to unravel. And the biggest question of all haunts him: How does everything tie into his sister's murder? And so begins Landon's journey to piece together the puzzle of secrets, lies, and truths that can free his father, avenge his sister, and perhaps save himself. A short story mystery perfect for fans of Robert Dugoni's *Third Watch* and Dean Koontz's *The Neighbor*. Read as a standalone or as the companion book to *A Secondhand Life*.
