The History Press  
A lively exploration of the

joys of a not-so-dead language From the acclaimed novelist and Oxford professor Nicola Gardini, a personal and passionate look at the Latin language: its history, its authors, its essential role in education, and its enduring impact on modern life—whether we call it “dead” or not. What use is Latin? It’s a question we’re often asked by those who see the language of Cicero as no more than a cumbersome heap of ruins, something to remove from the curriculum. In this sustained meditation, Gardini gives us his sincere and brilliant reply: Latin is, quite simply, the means of expression that made us—and continues to make us—who we are. In Latin, the rigorous and inventive thinker Lucretius examined the nature of our world; the poet Propertius told of love and emotion in a dizzying variety of registers; Caesar affirmed man’s capacity to shape reality through reason;

Virgil composed the Aeneid, without which we’d see all of Western history in a different light. In Long Live Latin, Gardini shares his deep love for the language—enriched by his tireless intellectual curiosity—and warmly encourages us to engage with a civilization that has never ceased to exist, because it’s here with us now, whether we know it or not. Thanks to his careful guidance, even without a single lick of Latin grammar readers can discover how this language is still capable of restoring our sense of identity, with a power that only useless things can miraculously express.

Long live the King...until a Queen takes the reign. In a Cuban crime family run by men, nothing was more disappointing than Claudia's birth. Outcast by her father and shunned by her brother, she spent a lifetime plotting, never forgetting what should have been hers by birthright. She bided her time, waiting for her

unworthy brother to screw up his leadership. He did one thing right: he produced an heir. But nothing could save him from a tragedy so great, it caused the De la Cova heir to skip town...putting Claudia right where she belongs-in position as the Queen. Finally, under her leadership, she takes the family business in her direction, shaping the organization to her satisfaction...until her nephew returns wanting the throne he believes is his. Claudia has a shock for him, though. She isn't giving up her empire without one hell of a fight, and if that means spilling family blood to keep it, then so be it. After all, it wouldn't be the first time.

California Gold offers a compelling cultural snapshot of a diverse California during the 1930s at the height of the New Deal, drawing on the career of folk music collector Sidney Robertson and the musical culture of often-unheard voices.

Robertson--an intrepid young woman armed only with a map, her notebooks, and the recording equipment of

the time--proposed and directed a New Deal initiative, the WPA California Folk Music Project, designed to survey musical traditions from a wide range of English-speaking and immigrant communities in Northern California. In *California Gold*, Catherine Hiebert Kerst explores Robertson's distinctive and modern approach to fieldwork and examines the numerous ethnographic documentary materials she generated with WPA project staff to capture a cross-section of the music that people were actively performing in their communities. Kerst highlights some of the most notable songs, images, and ephemera of the collection, capturing and contextualizing the diverse musical traditions that California immigrant communities performed during the New Deal era. Kerst also foregrounds the ethnographic insights and accomplishments of a significant woman folk music collector who has received less attention than she deserves.

As a child, Madden lived a life of extravagance, from her

exclusive private school to her equestrian trophies and designer shoe-brand name. But under the surface was a wild instability. The only child of parents continually battling drug and alcohol addictions, Madden confronted her environment alone. Facing a culture of assault and objectification, she found lifelines in the desperately loving friendships of fatherless girls. With unflinching honesty and lyrical prose, spanning from 1960s Hawai'i to the present-day struggle of a young woman mourning the loss of a father while unearthing truths that reframe her reality, *Long Live the Tribe of Fatherless Girls* is equal parts eulogy and love letter. It's a story about trauma and forgiveness, about families of blood and affinity, both lost and found, unmade and rebuilt, crooked and beautiful. "On the eve of Christmas Eve..." Paul Auster writes, "Tyler Kobe Nichols collapsed onto the sidewalk with three knife wounds in the front of his torso and one in the back." His death soon followed. With it, the twenty-one-year-old joined the ranks of young people killed by senseless violence in America. Tyler's death warranted just two paragraphs in the *New York Daily News*. And yet with each death, a new story begins that is rarely if ever told; one that centers around the fallout from traumatic loss. This story, as Tyler's mother Sherma Chambers keenly observes, is generational, with no clear end in sight. *Long Live King Kobe* began with a mistake. Photographer Spencer Ostrander had arrived at the funeral for

Tyler believing he was a victim of gun violence, and hoping to include him in an ongoing project Ostrander had created to document the lives of gun victims. Instead, he met Sherma Chambers, and a week later a collaboration, which soon included Paul Auster, had begun--one in which a pair of strangers would join a family in their sorrow. Thanks to the generosity of the entire Nichols/Chambers family, *Long Live King Kobe* invites us to join them in their intimate grief in the weeks that followed Tyler's death. The family's response to his murder, including their creation of a foundation dedicated to counteracting street violence with love, is one that presents their tragedy as a means for our society to grow. *Long Live King Kobe* offers a privileged journey into the power of community for all who have felt outrage, confusion, sadness, and deep despair at the epidemic of violence in our country. It also provides reason to hope. The *Long Live King Kobe* Foundation, started by Sherma Chambers, will support nonviolence initiatives to keep youth safe. Proceeds from this book will benefit the foundation.

"My aunt is living her own life. With an old man supporting her, what do I have to be afraid of?!"

After waking up, she came to ancient times and became the young master of a village. There was one more bandit father who was protecting her, and another group of brothers. The first time he had met her in a bandit operation, he had been assaulted by the stench. Inwardly unconvinced, he had stolen her from the bandit's den at night.

Shameless! She wanted to return to her father's side and teach him a lesson, but she didn't expect to be sent to the bridal chamber with him after coming back. She was teased over and over again by him. "Xiao Shiyu!" "Aunt, I'm going to divorce you!"

Funstory

THIS is the story of a promise kept against all odds: a promise four friends made to each other that they would always be together. Like his boyhood friend Paul Ornstein, Steve Hornstein had dreams of becoming a doctor, even though admission to Hungarian universities was all but closed to Jews. Both

managed to pursue their educations in Budapest and never lost hope of realizing their dreams, even when the Germans invaded Hungary in March 1944. Both were consigned to forced-labor camps; both escaped and endured the terror of life on the run. Anna Brunn grew up in a small village in Hungary and met Paul in 1941. They saw each other only a few times before the war intervened, but Paul had every intention of marrying Anna -- provided they both survived. Anna and her parents were sent to Auschwitz, where her father died and she helped her mother survive. Lusja Schwarzwald, born and brought up in privilege in Lvov, Poland, lost her parents and brothers during the war. She became part of the Polish underground and hid in Warsaw with false papers that identified her as a Polish Catholic. After the war she became acquainted with Steve, Paul, and Anna. During the early postwar years as medical students in Heidelberg, Germany, these determined friends identified their goals and made their plans. Eventually they arrived penniless in the United

States with only their medical training, their hopes for the future -- and each other. Their remarkable firsthand accounts of survival and triumph stand as moving testimony to the resilience of the human heart and spirit.

Charlie Wheelan and his family do what others dream of: They take a year off to travel the world. This is their story. What would happen if you quit your life for a year? In a pre-COVID-19 world, the Wheelan family decided to find out; leaving behind work, school, and even the family dogs to travel the world on a modest budget. Equal parts "how-to" and "how-not-to"—and with an eye toward a world emerging from a pandemic—*We Came, We Saw, We Left* is the insightful and often hilarious account of one family's gap-year experiment. Wheelan paints a picture of adventure and connectivity, juggling themes of local politics, global economics, and family dynamics while exploring answers to questions like: How do you sneak out of a Peruvian town that has been barricaded by the local army? And where

can you get treatment for a flesh-eating bacteria your daughter picked up two continents ago? From Colombia to Cambodia, *We Came, We Saw, We Left* chronicles nine months across six continents with three teenagers. What could go wrong?

This book explains in a clear and simple way what life is and how it flows within our cells, between people and through people. It is a practical manual that will help us to "feel" life, to vibrate and breathe the life inside of our bodies and of all living beings. A key focus of this work is how emotional impact affects our pericardium, which is the membrane that envelopes, maintains

and protects the heart.

One unique aspect of the family business is its ability to transcend generations. But longevity requires successful transitions. And successful transitions are fraught with challenges. In this practical book on the family business, Les Banwart identifies the key transition moments for owners and provides

helpful advice. He addresses important issues, such as dealing with the entitlement trap of children who want to join the business. Les also provides help on setting up a family office, setting up a buy-sell agreement, and organizing a family council. This book is the business mentor you always wish you had. Les

guides family business leaders in gentle yet frank ways. He pulls no punches in his chapter called "Fair but Not Equal." This may be one of the most contentious aspects of transitioning a family business to the next generation. Les gives business owners what they need to hear to help their business thrive for years to come.
