They Keep It All Hid Mondadori Electa

I riti misterici eleusini ed orfici, i culti di Iside, Dioniso, Mitra, Serapide, le magiche atmosfere delle iniziazioni, da migliaia di anni manifestano la loro presenza nelle tradizioni dell'intero bacino Mediterraneo, costituendo parte delle radici culturali euro-asiatiche. Attraverso tracce storiche, antropologiche, artistiche, archeologiche e culturali, questo volume ne delinea le caratteristiche principali e la crescente diffusione che, in Europa, ebbe inizio proprio attraverso i centri urbani della Campania. In tale ricostruzione, sono di supporto le testimonianze rintracciabili in quel sito di eccezionale ricchezza e fascino che è l'area archeologica di Pompei. L'attenzione è volta in particolare verso le componenti esoteriche di tali riti, le cui presenze sono ampiamente rintracciabili nella simbologia posteriore, sino ai nostri giorni. Infatti, l'interesse verso tali riti ha

valenze non solo storiche, ma anche sociologiche, etiche e culturali odierne. Un nutrito glossario simbolico esoterico arricchisce il lavoro, rendendolo anche un utile strumento di consultazione. Antonio Virgili, Professore di storia, geografia antropica e scienze sociali, è Direttore scientifico dell'Istituto Italiano di Scienze Sociali e Presidente del Centro Studi Internazionali. Autore di numerosi saggi di sociologia, storia e geografia, cultore di studi esoterici, araldici e di simbologia, per i suoi ampi interessi è stato definito uno spirito rinascimentale. È membro di varie organizzazioni scientifiche quali: Int. Union Scientific Study of Population; Istituto Italiano per l'Africa e l'Oriente; European Society for the Study of Western Esotericism. Tra i suoi più recenti volumi: *La rivoluzione silenziosa. Trasformazioni demografiche nel XX secolo* (Napoli, 2002), *"Tradizione, simboli e culture"* (Napoli, 2004) e *"La Tradizione Napoleonica"* (Napoli, 2005). *The Last Days of Pompeii* Rome : H. Van der Poel, 1977- (Rome, Italy : Edizioni dell'Elefante) "MacKendrick writes so enthusiastically that all laymen who have a serious interest in scholarship and antiquity will delight in following his story." --New York Times Book Review *Rivista di studi pompeiani* Prensas de la Universidad de Zaragoza This study presents an overview of the wooden furniture that has come to light since the

rediscovery of Herculaneum in the 18th century, with an emphasis on the form, function and the techniques employed. The combination of comments in the excavation reports with the information derived from the surviving pieces of furniture and fittings made of other materials as well as indications for the presence of furniture in the architecture and decoration of the houses, offers a representative idea of the role of wooden furniture in the interior arrangements of the houses at Herculaneum.

Pompei ed Ercolano Routledge

'Antiquity Recovered' presents 13 diverse essays that trace how perceptions of the past have changed over the course of three centuries of excavations. They range in subject from a reassessment of the contents of the library at Herculaneum's Villa of the Papyri, to the symbolic appearance of the ancient world in classic films.

The Mute Stones Speak J C Gieben

This all embracing survey of Pompeii provides the most comprehensive survey of the region available. With contributions by well-known experts in the field, this book studies not only Pompeii, but also – for the first time – the buried surrounding cities of Campania. *The World of Pompeii*

includes the latest understanding of the region, based on the up-to-date findings of recent archaeological work. Accompanied by a CD with the most detailed map of Pompeii so far, this book is instrumental in studying the city in the ancient world and is an excellent source book for students of this fascinating and tragic geographic region.

Pompei ed Ercolano JHU Press

"Il presente volume costituisce gli atti del Convegno Internazionale di Studi Pompei e l'Europa. Memoria e riuso dell'antico dal neoclassico al post-classico, che si è svolto nel luglio 2015 al margine della mostra al Museo Archeologico Nazionale di Napoli e negli scavi di Pompei. Promosse dalla Soprintendenza e dalla Seconda Università di Napoli, le giornate sono state un'importante occasione di riflessione sul rapporto della cultura moderna con l'antico, fonte di ispirazione formale e insieme modello estetico assoluto, ideale. Disseppellite a partire dal Settecento, sotto il manto di lapilli che l'aveva coperta dopo la sventurata eruzione del 79 d.C., le rovine della città vesuviana hanno contribuito alla nascita dell'archeologia moderna, stimolando altresì gli artisti all'imitazione e reinterpretazione dell'eredità classica. Insieme alle più aggiornate ricerche archeologiche, il volume raccoglie gli interventi di storici dell'arte, della letteratura, della filosofia, del teatro e della musica, per raccontare la storia della seconda vita di Pompei e il suo impatto sulla cultura moderna"

Roman Cities Getty Publications

Roman Cities combines G. Michael Woloch's translation of *Les villes romaines*, Pierre Grimal's noted French work on Roman city planning, archeology, and urban history, with Woloch's additional notes and descriptions of the cities mentioned by Grimal, as well as other important Roman cities. The book provides a brief history and description of more than a hundred Roman cities, an extensive master bibliography, and a comprehensive glossary. Roman Cities will interest both scholars and students of Roman history and archeology, city planning, urban geography, and the social sciences. The glossary and bibliography make the book of value to specialists pursuing a particular topic and to students, history buffs, and amateur archaeologists seeking to broaden their understanding of the Roman city planning methods that are such an integral part of our modern urban heritage. Roman Cities provides the first comprehensive study in English of major Roman cities, including an excellent coverage of the Roman legacy which was transmitted to medieval and modern trends in architecture and urban planning..

Tales from an Eruption Getty Publications

An intriguing look at contemporary views regarding the casts of victims from Mt. Vesuvius' eruption

Wooden Furniture in Herculaneum Routledge

El prestigio del que tradicionalmente han gozado las culturas clásicas (griega y romana) ha dado pie a que ciertas realizaciones de esas épocas se hayan convertido, en algunos momentos de la historia moderna, en modelo tanto político como artístico. La reputación canónica que acompaña a lo antiguo también ha sido y es explotada como fuente de justificación de comportamientos imperialistas, racistas, o nacionalistas. Este libro plural y heterogéneo, en el que colaboran diez especialistas en mundo antiguo, aborda algunas «apropiaciones» ilegítimas de la historia antigua por polemistas, teóricos y políticos desde la Ilustración a nuestros días. Su lectura deja planteada la cuestión crucial de qué es lo que separa la historia de la memoria, la ficción y el mito.

Houses and Monuments of Pompeii Routledge

Destroyed yet paradoxically preserved by the eruption of Mount Vesuvius in A.D. 79, Pompeii and other nearby sites are usually considered places where we can most directly experience the daily lives of ancient Romans. Rather than present these sites as windows to the past, however, the authors of *The Last Days of Pompeii: Decadence, Apocalypse, Resurrection* explore Pompeii as a modern obsession, in which the Vesuvian sites function as mirrors of the present. Through cultural appropriation and projection, outstanding visual and literary artists of the last three centuries have made the ancient catastrophe their own, expressing contemporary concerns in diverse media--from paintings, prints, and sculpture, to theatrical performances, photography, and film. This lavishly illustrated volume--featuring the works of artists such as Piranesi, Fragonard, Kaufmann, Ingres, Chassériau, and Alma-Tadema, as well as Duchamp, Dalí, Rothko, Rauschenberg, and Warhol--surveys the legacy of Pompeii in the modern imagination under the three overarching rubrics of decadence, apocalypse, and resurrection. Decadence investigates the perception of Pompeii as a site of impending and well-deserved doom due to the excesses of the ancient Romans, such as paganism, licentiousness, greed, gluttony, and violence. The catastrophic demise of the Vesuvian sites has become inexorably linked with the understanding of antiquity, turning Pompeii into a fundamental allegory for Apocalypse, to which all subsequent disasters (natural or man-made) are related, from the San Francisco earthquake of 1906 to Hiroshima, Nagasaki, 9/11, and Hurricane Katrina. Resurrection examines how Pompeii and the Vesuvian cities have been reincarnated in modern guise through both scientific archaeology and fantasy, as each successive cultural reality superimposed its values and ideas on the distant past. An exhibition of the same name will be on view at the Getty Villa from September 12, 2012, through January 7, 2013; at the Cleveland Museum of Art from February 24 through May 19, 2013; and at the Musée national des beaux-arts du Québec from June 13 through November 8, 2013.

Corpus Topographicum Pompeianum Getty Publications

The remains of the ancient city of Pompeii, frozen in time following the eruption of Mount Vesuvius in a.d. 79, have provided invaluable evidence of daily life, not only in Rome's provinces, but in its larger urban centers as well. This book provides a fascinating look at how ancient Romans

interacted in their public squares and marketplaces, how they worshipped, decorated their homes, and spent their leisure time--at the theater, in the gymnasium, and in the baths and brothels. Illustrated with photographs of architectural remains and exquisite details from a range of ancient artworks, including wall paintings, sculptures, mosaics, and carved reliefs, the book offers a glimpse into a lost world.

Pompeii's Ashes Mohr Siebeck

John Granger Cook traces the use of the penalty by the Romans until its probable abolition by Constantine. Rabbinic and legal sources are not neglected. The material contributes to the understanding of the crucifixion of Jesus and has implications for the theologies of the cross in the New Testament. Images and photographs are included in this volume.

Houses, Villas, and Palaces in the Roman World University of Michigan Press

With over 750 illustrations, *Roman Buildings* is a thorough and systematic examination of Roman architecture and building practice, looking at large-scale public buildings as well as more modest homes and shops. Placing emphasis on the technical aspects of the subject, the author follows the process of building through each stage -- from quarry to standing wall, from tree to roof timbers -- and describes how these materials were obtained or manufactured. The author also discusses interior decoration and looks at the practical aspects of water supply, heating and roads.

Quarterly Check-list of Classical Studies Walter de Gruyter GmbH & Co KG

Although there are many works dealing with Pompeii and Herculaneum, none of them try to encompass the entire spectrum of material related to its reception in popular imagination. Pompeii's Ashes surveys a broad variety of such works, ranging from travelogues between ca. 1740 and 2010 to 250 years of fiction, including stage works, music, and films. The first two chapters provide an in-depth analysis of the excavation history and an overview of the reflections of travelers. The six remaining chapters discuss several clearly-defined genres: historical novels with pagan tendencies, and those with Christians and Jews as protagonists, contemporary adventures, time traveling, mock manuscripts, and works dedicated to Vesuvius. "Pompeii's Ashes" demonstrates how the eternal fascination with the oldest still-running archaeological projects in the world began, developed, and continue until now.

Herculaneum Pompei ed Ercolano Pompei ed Ercolano

The rediscovery of the Roman cities overwhelmed by the rage of Vesuvius is one of history's most extraordinary adventure stories. Pompeii Awakened revels in that adventure, and tells of the re-emergence of a long-vanished cosmopolis which profoundly inspired a later age - from its arts and architecture to its science, sex and religion.

Pompeii's Living Statues Bloomsbury Publishing

Based on the 4-volume work originally edited by the Niccolinis and published in Naples 1854-1896. **Roman Building** Walter de Gruyter GmbH & Co KG

In a fascinating study of ancient Roman architecture, classics scholar Alexander McKay examines simple houses, mansions, estates and palatial buildings, interior furnishings, and gardens--revealing that Roman civilization was astonishingly similar to our own. He also discusses the conditions of life in the Roman provinces. 153 illustrations.

Nuove ricerche archeologiche nell'area vesuviana (scavi 2003-2006) Giunti Editore

A vivid portrayal of life in Pompeii's sister city, this book includes a detailed description of the ancient Villa dei Papyri, on which the present Getty Museum in Malibu is modeled.
