The book provides an incisive look into Ruttie's life and legacy, providing a fresh understanding of her husband Jinnah and the Partition of India.

Syndromes of the Head and Neck, An Issue of Atlas of the Oral & Maxillofacial Surgery Clinics, Pan Macmillan

This issue of the Atlas of the Oral and

Maxillofacial Surgery Clinics of North America serves as an aid to identification of 70 of the more important head and neck syndromes, and organized using the same nosology as in the landmark text of Robert Gorlin. As such, it should be useful to a varied audience, including not only the oral and maxillofacial surgeon but also the oral pathologist, the practitioner of oral medicine, and members of the craniofacial team--the orthodontist, pediatric dentist, speech and language specialist, geneticist,

plastic surgeon, ENT specialist, pediatrician, nurse coordinator, and others. Areas covered include: Craniosynostosis Syndromes; Syndromes Affecting Bone; Metabolic and Autoimmune Syndromes; Syndromes Affecting Skin and Mucosa; Hamartoneoplastic Syndromes; Branchial Arch Syndromes; Clefting Syndromes; Syndromes Affecting the Central Nervous System; Chromosomal Syndromes; Syndromes with Unusual Facies; and Syndromes with Unusual Dental Findings or Gingival Components. *Culture and Imperialism* Simon and Schuster
 The Story of My Experiments with Truth is the autobiography of Mahatma Gandhi, covering his life from early childhood through to 1921. Starting with

his birth and parentage, Gandhi has given reminiscences of childhood, child marriage, relation with his wife and parents, experiences at the school, his study tour to London, efforts to be like the English gentleman, experiments in dietetics, his going to South Africa, his experiences of colour prejudice, his quest for dharma, social work in Africa, return to India, his slow and steady work for political awakening and social activities.

Fareedoon (Freddie) Junglewalla is either the jewel of the Parsi community or a murdering scoundrel. Freddie???'s mother-in-law, Jerbanoo, thinks he is planning to do away with her, but

Freddie has always been a pragmatist: if the old woman were to die (be murdered?) the body would have to be placed on the open-roofed Towers of Silence, in keeping with custom, and that would never do. Insurance fraud and arson, however, are well within Freddie's repertoire—in fact he thinks he has invented the idea, so advanced is it for India, in 1901. As his skills grow he becomes a man of consequence among the Parsis, with people travelling thousands of miles to see him in Lahore, especially if they wish to escape tight spots they have got themselves into. In this wickedly comic novel, the celebrated author of Ice-Candy Man takes us into the heart of the Parsi community, portraying its varied customs and traits with contagious

humour.

This Is The Story Of Kalam's Rise From Obscurity And His Personal And Professional Struggles, As Well As The Story Of Agni, Prithvi, Akash, Trishul And Nag--Missiles That Have Become

Household Names In India And That Have Raised The Nation To The Level Of A Missile Power Of International Reckoning.

The Terrorist Prince New Age International

Hempher, only one of the thousands of male and female agents employed and sent forth to all countries by this ministry, entrapped a person named Muhammad of Najd in Basra, misled him for several years, and caused him to establish the sect called Wahhabi in 1125 [1713 A.D.]. They announced this sect in 1150. Hempher is a British missionary who was assigned the task of carrying on espionage activities in Egypt, Iraq, Iran, Hidjaz and in Istanbul, the center of the (Islamic) caliphate, misleading Muslims and serving

Christianity, by means of the Ministry of British Commonwealth of Nations.

The Story of My Experiments with Truth Verso

The first in a detective series that “immediately joins the No. 1 Ladies’ Detective Agency as representing the best in international cozies” (Booklist, starred review). Meet Vish Puri, India’s most private investigator. Portly, persistent, and unmistakably Punjabi, he cuts a determined swath through modern India’s swindlers, cheats, and murderers. In hot and dusty Delhi, where call centers and malls are changing the ancient fabric of Indian life, Puri’s main work comes from screening prospective marriage partners, a job once the preserve of aunties and family priests. But when an honest public litigator is

accused of murdering his maidservant, it takes all of Puri's resources to investigate. With his team of undercover operatives—Tubelight, Flush, and Facecream—Puri combines modern techniques with principles of detection established in India more than two thousand years ago, and reveals modern India in all its seething complexity.

Reconciliation Bantam

In a second edition of their successful Concise History of Modern India, Barbara Metcalf and Thomas Metcalf explore India's modern history afresh and update the events of the last decade. These include the takeover of Congress from the seemingly entrenched Hindu nationalist party in 2004, India's huge advances in technology and the country's new role as a major player in

world affairs. From the days of the Mughals, through the British Empire, and into Independence, the country has been transformed by its institutional structures. It is these institutions which have helped bring about the social, cultural and economic changes that have taken place over the last half century and paved the way for the modern success story. Despite these advances, poverty, social inequality and religious division still fester. In response to these dilemmas, the book grapples with questions of caste and religious identity, and the nature of the Indian nation.

| WINNER OF THE GAJA CAPITAL
BUSINESS BOOK PRIZE 2019 | The

nineteenth century was an exciting time of initiative and enterprise around the world. If John D. Rockefeller was creating unimagined wealth in the United States that he would put to the service of the nation, a Parsi family with humble roots was doing the same in India. In 1822, a boy was born in a priestly household in Gujarat's Navsari village. Young Nusserwanji knew early on that his destiny lay beyond his village and decided to head for Bombay to start a business - the first in his family to do so. He had neither higher education nor knowledge of business matters, just a burning passion to carve a path of his own. What Nusserwanji started as a cotton trading venture, his son Jamsetji, born in the same year as Rockefeller, grew into a multifaceted business,

turning around sick textile mills, setting up an iron and steel company, envisioning a cutting-edge institute of higher learning, building a world-class hotel, and earning himself the title of the 'Bhishma Pitamah of Indian Industry'. Stewarded ably over the decades by Jamsetji's sons Dorabji and Ratanji, the charismatic and larger-than-life JRD, and thereafter the more business-like Ratan, the Tata group today is a 110-billion-dollar empire. The Tatas is their story. But it is more than just a history of the industrial house; it is an inspiring account of India in the making. It chronicles how each generation of the family invested not only in the expansion of its own business interests but also in nation building. Few know, for instance, that the first hydel power project in the

world was conceived of and built by the Tatas. Nor that some radical labour concepts such as eight-hour work shifts were born in India, at the Tata mill in Nagpur. The Tata Cancer Research Centre, the Indian Institute of Science, the Tata Institute of Fundamental Research, as also the national carrier Air India - the family has a long, rich and unrivalled legacy. The Tatas is a tribute to a line of visionaries who have a special place in the hearts and minds of ordinary Indians. Written by seasoned journalist Girish Kuber, this is also the only book that tells the complete Tata story spanning almost two hundred years.

Democracy and War Ebury Press
Ramachandra Guha's India after Gandhi is a magisterial account of the pains,

struggles, humiliations and glories of the world's largest and least likely democracy. A riveting chronicle of the often brutal conflicts that have rocked a giant nation, and of the extraordinary individuals and institutions who held it together, it established itself as a classic when it was first published in 2007. In the last decade, India has witnessed, among other things, two general elections; the fall of the Congress and the rise of Narendra Modi; a major anti-corruption movement; more violence against women, Dalits, and religious minorities; a wave of prosperity for some but the persistence of poverty for others; comparative peace in Nagaland but greater discontent in Kashmir than ever before. This tenth anniversary edition, updated and expanded, brings the

narrative up to the present. Published to coincide with seventy years of the country's independence, this definitive history of modern India is the work of one of the world's finest scholars at the height of his powers.

Banker To The Poor DigiCat

When Ruttie Petit fled from her father's castle to wed Mohammed Ali Jinnah in 1918, their marriage outraged society at large. They were divided by community, religion and an age gap of twenty-four years. Well-known journalist Sheela Reddy uses never-before-seen personal letters and papers as well as accounts left by contemporaries and friends to portray this unusual relationship with a sympathetic, discerning eye. A product of intensive and meticulous research in Delhi, Bombay and Karachi, Reddy not

only brings the solitary, misunderstood Jinnah and the lonely, wistful Ruttie to life, but also the society and politics of the times their story was set in. A must-read for all those interested in politics, history, and the power of an unforgettable love story.

Mr and Mrs Jinnah Harper Collins

A landmark work from the author of *Orientalism* that explores the long-overlooked connections between the Western imperial endeavor and the culture that both reflected and reinforced it. In the nineteenth and early twentieth centuries, as the Western powers built empires that stretched from Australia to the West Indies, Western artists created masterpieces ranging from *Mansfield Park* to *Heart of Darkness* and *Aida*. Yet most cultural critics

continue to see these phenomena as separate. Edward Said looks at these works alongside those of such writers as W. B. Yeats, Chinua Achebe, and Salman Rushdie to show how subject peoples produced their own vigorous cultures of opposition and resistance. Vast in scope and stunning in its erudition, *Culture and Imperialism* reopens the dialogue between literature and the life of its time.

India today is a vibrant free-market democracy, a nation well on its way to overcoming decades of widespread poverty. The nation's rise is one of the great international stories of the late twentieth century, and in *India Unbound* the acclaimed columnist Gurcharan Das offers a sweeping economic history of India from independence to the new millennium. Das shows how India's policies after 1947 condemned the nation to a hobbled economy until 1991, when the government instituted sweeping reforms that paved the way for extraordinary growth. Das traces these developments and tells the stories of the major players from Nehru through today. As the former CEO of Proctor & Gamble India, Das offers a unique insider's

perspective and he deftly interweaves memoir with history, creating a book that is at once vigorously analytical and vividly written. Impassioned, erudite, and eminently readable, *India Unbound* is a must for anyone interested in the global economy and its future.

They Must Go Public Affairs

In *Secession and Security*, Ahsan I. Butt argues that states rather than separatists determine whether a secessionist struggle will be peaceful, violent, or genocidal. He investigates the strategies, ranging from negotiated concessions to large-scale repression, adopted by states in response to separatist movements. Variations in the external security environment, Butt argues, influenced the leaders of the Ottoman Empire to use peaceful

concessions against Armenians in 1908 but escalated to genocide against the same community in 1915; caused Israel to reject a Palestinian state in the 1990s; and shaped peaceful splits in Czechoslovakia in 1993 and the Norway-Sweden union in 1905. Butt focuses on two main cases—Pakistani reactions to Bengali and Baloch demands for independence in the 1970s and India's responses to secessionist movements in Kashmir, Punjab, and Assam in the 1980s and 1990s. Butt's deep historical approach to his subject will appeal to policymakers and observers interested in the last five decades of geopolitics in South Asia, the contemporary Israeli-Palestinian conflict, and ethno-national conflict, separatism, and nationalism more generally.

According to Time magazine, Pakistan's President Pervez Musharraf holds "the world's most dangerous job." He has twice come within inches of assassination. His forces have caught more than 670 members of al Qaeda in the mountains and cities, yet many others remain at large and active,

including Osama bin Laden and Ayman Al Zawahiri. Long locked in a deadly embrace with its nuclear neighbor India, Pakistan has come close to full-scale war on two occasions since it first exploded a nuclear bomb in 1998. As President Musharraf struggles for the security and political future of his nation, the stakes could not be higher for the world at large. It is unprecedented for a sitting head of state to write a memoir as revelatory, detailed, and gripping as *In the Line of Fire*. Here, for the first time, readers can get a firsthand view of the war on terror in its central theater. President Musharraf details the manhunts for Osama and Zawahiri and their top lieutenants, complete with harrowing cat-and-mouse games, informants, interceptions, and bloody

firefights. He tells the stories of the near-miss assassination attempts, not only against himself but against Shaukat Aziz (later elected prime minister) and one of his top army officers (later the vice chief of army staff), and of the abduction and beheading of Daniel Pearl -- as well as the forensic and shoe-leather investigations that uncovered the perpetrators. He details the army's mountain operations that have swept several valleys clean, and he talks about the areas of North Waziristan where al Qaeda is still operating. Yet the war on terror is just one of the many headline-making subjects in *In the Line of Fire*. The full story of the events that brought President Musharraf to power in 1999 is told for the first time. He reveals new details of the 1999 confrontation with

India in Kashmir (the Kargil conflict) and offers a proposal for resolving the Kashmir dispute. He offers a portrait of Mullah Omar, with stories of Pakistan's attempts to negotiate with him. Concerning A. Q. Khan and his proliferation network, he explains what the government knew and when it knew it, and he reveals fascinating details of Khan's operations and the investigations into them. In addition, President Musharraf takes many stances that will make news. He calls for the Muslim world to recognize Israel once a viable Palestinian state is created. He urges the repeal of Pakistan's 1979 Hudood law. He calls for the emancipation of women and for their full political equality with men. He tells the sad story of Pakistan's experience with democracy and what he

has done to make it workable.
