Createspace Independent Publishing
Platform
SURPLUS RECORD, is the leading
independent business directory of new

and used capital equipment, machine
tools, machinery, and industrial
equipment, listing over 110,000
industrial assets since 1924; including
metalworking and fabricating machine
tools, lathes, cnc equipment, machine
centers, woodworking equipment, food
equipment, chemical and process
equipment, cranes, air compressors,
pumps, motors, circuit breakers,

generators, transformers, turbines, and more. Over 1,100 businesses list with the SURPLUS RECORD. November 2023 issue. Vol. 100, No. 11

April 2024 - Surplus Record Machinery & Equipment Surplus Record

SURPLUS RECORD, is the leading independent business directory of new and used capital equipment, machine tools, machinery, and industrial equipment, listing over 150,000 industrial assets since 1924; including metalworking and fabricating machine tools, lathes, cnc equipment, machine centers, woodworking equipment, food equipment, chemical and process equipment, cranes, air compressors, pumps, motors, circuit breakers, generators, transformers, turbines, and more. Over 1,100 businesses list with

the SURPLUS RECORD. November 2023 issue. Vol. 101, No. 4

August 2023 - Surplus Record Machinery & Equipment Directory Surplus Record

SURPLUS RECORD, is the leading independent business directory of new and used capital equipment, machine tools, machinery, and industrial equipment, listing over 95,000 industrial assets; including metalworking and fabricating machine tools, chemical and process equipment, cranes, air compressors, pumps, motors, circuit breakers, generators, transformers, turbines, and more. Over 1,100 businesses list with the SURPLUS RECORD. March 2022 issue. Vol. 99, No. 3

PPI Detailed Report Surplus Record SURPLUS RECORD, is the leading

independent business directory of new and used capital equipment, machine tools, machinery, and industrial equipment, listing over 110,000 industrial assets since 1924; including metalworking and fabricating machine tools, lathes, cnc equipment, machine centers, woodworking equipment, food equipment, chemical and process equipment, cranes, air compressors, pumps, motors, circuit breakers, generators, transformers, turbines, and more. The Overhead Traveling Crane, Hoist & Monorail System World Summary Paperback Edition provides 7 years of Historic & Current data on the market in about 100 countries. The Aggregated market comprises of the 51 Products / Services listed. The Products / Services covered (Overhead traveling crane, hoist & monorail system) are classified by the 5-Digit NAICS Product Codes and each

Product and Services is then further defined by each 6 to 10-Digit NAICS Product Codes. In addition full Financial Data (188 items: Historic & Current Balance Sheet, Financial Margins and Ratios) Data is provided for about 100 countries. Total Market Values are given for 51 Products/Services covered, including: OVERHEAD TRAVELING CRANE - HOIST + MONORAIL SYSTEM 1. Overhead traveling crane, hoist & monorail system 2. Hoists 3. Hoists, all types 4. Chain hand hoists 5. Ratchet lever hand hoists 6. Wire rope puller hand hoists 7. Electric (roller & link) chain hoists 8. Other hoists, powered by electric motor 9. Electric wire rope hoists (excl hand, mine shaft & slope wire rope hoists) 10. Air or other nonelectric chain hoists, except hand 11. Air or other

nonelectric wire rope hoists (excl hand, mine shaft & slope wire rope hoists) 12. Other hoists, not powered by electric motor 13. Parts & attachments for hoists (sold separately) 14. Hoists, nsk 15. Overhead traveling cranes & monorail systems 16. Overhead traveling cranes, incl parts & monorail systems 17. Single top running bridge type overhead traveling cranes (except construction power cranes) 18. Under running bridge type overhead traveling cranes (except construction power cranes) 19. Gantry type overhead traveling cranes (except construction power cranes) 20. Stacker-storage type overhead traveling cranes (except construction power cranes) 21. Other overhead traveling cranes on fixed support 22. Other overhead traveling cranes 23. Buckets, grabs & grips 24.

Monorail systems (manual & powered) 25. Double top running bridge type overhead traveling cranes (except construction power cranes) 26. Parts & attachments for overhead traveling cranes & monorail 27. Other parts & attachments for overhead traveling cranes 28. Parts & attachments for monorail systems (sold separately) 29. Overhead traveling cranes & monorail systems, nsk 30. Winches, aerial work platforms & automotive wrecker hoists 31. Personnel aerial work platforms (excl parts) 32. Winches for mounting on wheel or crawler tractors or other prime movers, complete units 33. Winches (except for mounting on tractors or other prime movers) & automobile hoists, complete units 34. Electric winches, incl marine use (excl winches for tractor mounting & parts) 35. Other winches, incl marine use (excl winches for tractor mounting & parts) 36. Other winches, incl. automobile hoists used on tow trucks 37. Automobile hoists (used on tow trucks) (excl parts) 38. Parts for winches, aerial work platforms & automobile hoists (sold separately) 39. Parts for winches for mounting on tractors & other prime movers (sold separately) 40. Parts for winches (except for mounting on prime movers), aerial work platforms, automobile hoists (sold separately) 41. Winches, aerial work platforms & automotive wrecker hoists, nsk 42. Hoists, cranes & monorails, nsk, total 43. Hoists, cranes & monorails, nsk, nonadministrative-record 44. Hoists, cranes & monorails, nsk, administrative-record

Surplus Record

An overhead crane, also known as a bridge crane, is a type of crane where the hook and line mechanism runs along

a horizontal beam that itself travels on the two widely separated rails. Often it is in a factory building and runs along rails mounted on the two long walls. A gantry crane is similar to an overhead crane, but here the bridge carrying the trolley is rigidly supported on two or more legs moving on fixed rails embedded in the floor. Overhead traveling cranes are also available in various configurations. The two main categorizations are top-running versus under-running bridge cranes and single-girder versus double-girder bridge cranes. Crane travel is directed by an operator, either manually or with a wired pendant station or wireless controls that guide their electric- or pneumatic-powered travel. Typical uses include multi-directional movement of materials through the

production process, support manufacturing, transporting heavy items to and from storage areas, loading or unloading activities inside a warehouse or onto open trailers or railcars. This 6-hr course presents an overview of electric overhead travelling cranes and discusses the mechanical aspects of appropriate selection and includes civil, structural and electric design parameters. This course is aimed at mechanical engineers, electrical engineers, structural engineers, construction engineers, factory and workshop operators, supervisors, O & M professionals, facility managers, estimators and general audience. No specific prerequisite training or experience is required. The course includes a multiple-choice quiz at the

end, which is designed to enhance the understanding of course materials. Learning Objective At the conclusion of this course, the reader will: -Learn about various types of overhead cranes. - Describe the components and terminology of overhead cranes. - Understand crane duty groups and service classification such as CMAA, HMI/ASME, FEM and ISO. -Learn about various types of hoists, their application and safety features. -Understand the various types of loads (forces) on the crane runway girder and the building structure. -Learn the methods of crane electrification including festoon systems. -Learn the types of motors and enclosures based on NEMA standards. - Understand the electrical grounding requirements per NEC and the control

systems. -Learn standard specifications covering mechanical, structural, and electrical requirements. -Understand the key crane inspection and testing requirements as specified by OSHA.
