*The Viewpoints* is a technique of improvisation that grew out of the postmodern dance world. It was first

articulated by choreographer Mary Overlie, who broke down the two dominant issues performers deal with—space and time—into six categories. Since that time, directors Anne Bogart and Tina Landau have expanded her notions and adapted them for actors to function together spontaneously and intuitively and to generate bold, theatrical work. The Viewpoints are a set of names given to certain principles of movement through time and space—they constitute a language for talking about what happens on stage. Coupling this with Composition, which is the practice of selecting and arranging the separate components of theatrical language into a cohesive work of art, provides theatre artists with an important new tool for creating and understanding their art form. Primarily intended for the many theatre artists who,

in the last several years, have become intrigued with Viewpoints yet have had no single source to refer to in their investigations. It can also be used by anyone with a general interest in collaboration and the creative process, whether in art, business or daily life. Anne Bogart is Artistic Director of the SITI Company, which she founded with Japanese director Tadashi Suzuki in 1992. She is the recipient of two OBIE Awards and a Bessie Award, and is an associate professor at Columbia University. Her recent works include *Alice's Adventures*; *Bobraschenbergamerica*; *Small Lives, Big Dreams*; *Marathon Dancing*; and *The Baltimore Waltz*. Tina Landau, noted director and playwright, whose original work includes *Space* (Time magazine 10 Best), *Dream True* (with composer Ricky Ian Gordon) and *Floyd Collins* (with composer Adam Guettel), which received the Lucille Lortel Award for Best Musical, an OBIE Award and seven Drama Desk nominations. She has been an ensemble member of the Steppenwolf Theatre Company since 1997.

From an inauspicious beginning at the tiny Left Bank Theatre de Babylone in 1953, followed by bewilderment among American and British audiences, *Waiting for Godot* has become one of the most important and enigmatic plays of the past fifty years and a cornerstone of twentieth-century drama. As Clive Barnes wrote, "Time catches up with genius ... *Waiting for Godot* is one of the masterpieces of the century." The story revolves around two seemingly homeless men waiting for someone—or something—named Godot. Vladimir and Estragon wait near a tree, inhabiting a drama spun of their own consciousness. The result is a comical wordplay of poetry, dreamscapes, and nonsense, which has been interpreted as mankind's inexhaustible search for meaning. Beckett's language pioneered an expressionistic minimalism that captured the existential post-World War II Europe. His play remains one of the most magical and beautiful allegories of our time.
