Chapter 3 The First Judgment: The World Prior To Adam There may have been many judgments upon the earth since its beginning millions or billions of years ago; however, the present commentary will deal only with the last tens of thousands of years of earth's existence. In Genesis 1:2, the verses written by Moses (as author of the Genesis account) portray an earth that was veiled in darkness so that its form could not be discerned. The earth at that time was covered with water (ice) high above the mountain tops so that it gave the appearance of being a dark revolving sphere of frozen water (Table-2). God's spirit is described as hovering over this revolving ball of water and brooding over the sad condition of this dark, void planet. God did not create a dark and dismal planet at the beginning, because God does not create darkness; in fact, darkness is incompatible with His existence and presence. So what had happened that God viewed (Gen. 1:2) such a decrepit state of the world? Does scripture attempt to explain this phenomenon, or does the inspired word of God remain silent on this issue? It was first proposed as a theory by the Scotsman Thomas Chalmers in the early 19th century that a "gap" in time existed between Genesis

1:1 and Genesis 1:2. This gap-in-time would encompass a "ruin-reconstruction theme" and the existence of pre-Adamic living beings. Obviously, a huge catastrophic event would have had to occur to produce this decadent state of the world. The "gap concept" was later popularized by mention in the margin notes of the Scofield Reference Bible.

If you're open to hearing God even when you're sleeping, your dreams can be a rich source of revelation and insight. One man's dream saves his family from what could have been a deadly fire. A fifty-two-year-old woman finally understands a dream she's been having since she was thirteen. A policeman's dream warns a friend of a dangerous encounter with a suspect. Church elders have the same dream about a change in the church's leadership. A strange and frightening dream warns a mother of a potentially dangerous relationship in her son's life. A dream confirms an East Indian man's decision to become a Christian. As you read the details of these and other dreams that Dr. Greg Cynaumon describes you will find that they and the circumstances that surrounded them were more than coincidental. You will be convinced that God, who is concerned and involved in the lives of individuals, has something to say through dreams. And you won't want to miss His messages. Dr. Cynaumon examines dreams from a perspective that is both scientific and biblical. He explores dream interpretation, explains some common dream symbols, and answers questions about dreams and their occurrences in Scripture. He also corrects several popular myths about dreams. If you desire to unravel one of life's great mysteries but are wary of secular approaches to this subject, then you'll want to explore with Dr. Cynaumon how God still speaks through dreams.

Every Life Has a Soundtrack. If you've ever had the opening bars of a song transport you back in time or remind you of a pivotal spiritual moment, Matthew Paul Turner's honest—and frequently

hilarious—musings will strike a chord. Straightforward and amusing, *Hear No Evil* is Turner's "life soundtrack," a compilation of engaging personal stories about how music—and music's ability to transform—has played a key role in his spiritual life. Groove along on his journey as young evangelical Turner attends forbidden contemporary Christian concerts, moves to "Music City" Nashville, and dreams of becoming the Michael Jackson of Christian music. Cosmic and compelling, keen and funny, every page is a new encounter with the people, places, and experiences that have taught the music-editor-turned-author some new things about God, forced him out of his comfort zone, and introduced him to a fresh view of grace along the way.

With contributions by: Suparno Banerjee, Cait Coker, Jeshua Enriquez, Joan Gordon, Veronica Hollinger, Malisa Kurtz, Stephanie Li, Bradford Lyau, Uppinder Mehan, Graham J. Murphy, Baryon Tensor Posadas, Amy J. Ransom, Robin Anne Reid, Haerin Shin, Stephen Hong Sohn, Takayuki Tatsumi, and Timothy J. Yamamura Isiah Lavender III's *Dis-Orienting Planets* amplifies critical issues surrounding the racial and ethnic dimensions of science fiction. This edited volume explores depictions of Asia and Asians in science fiction literature, film, and fandom with particular regard to China, Japan, India, and Korea. *Dis-Orienting Planets* highlights so-called yellow and brown peoples from the constellation of a historically white genre. The collection launches into political representations of Asian identity in science fiction's imagination, from fear of the Yellow Peril and its racist stereotypes to techno-Orientalism and the remains of a postcolonial heritage. Thus the essays, by contributors such as Takayuki Tatsumi, Veronica Hollinger, Uppinder Mehan, and Stephen Hong Sohn, reconfigure the very study of race in science fiction. A follow-up to Lavender's *Black and Brown Planets*, this new collection expands the racial politics governing the renewed visibility of Asia in science fiction. One of the few on this subject, the volume probes Gary

Shteyngart's novel *Super Sad True Love Story*, the acclaimed film *Cloud Atlas*, and Guillermo del Toro's monster film *Pacific Rim*, among others. *Dis-Orienting Planets* embarks on a wide-ranging assessment of Asian representations in science fiction, upon the determination that our visions of the future must include all people of color.

A Dweller on Two Planets is one of the most important texts of the 19th century Atlantis canon. The book was "channeled" to Frederick Spenser Oliver (1866-1899) at his Northern California home near Mount Shasta over a period of three years, beginning when he was seventeen. Oliver claimed not to have written any of the text, asserting that he was merely transmitting what Phylos revealed to him. In fact, professed Oliver, the manuscript was dictated to him out of sequence (much of it backward) so that he could not interfere with the outcome. Phylos was also Walter Pierson, a prospector in northern California during 1863-1866 who is the reincarnated Phylos from Atlantis. As Phylos/Pierson dictated the book to Oliver, Oliver produced the text in a form of automatic writing. The book begins with Phylos' lives in Atlantis and the wonderful technology that those people had, including electricity and airships. In part two of the book, Phylos reincarnates as Walter Pierson and is taken inside Mount Shasta by a Chinese Master named Quong. During his time inside Mount Shasta Pierson is taken in his astral body to Venus; hence the title of the book. A better title might have been "From Atlantis to Mount Shasta." While some have called the book brilliant speculative fiction (if somewhat disjointed), believers in reincarnation cannot help but think that there is some sort of reality to this strange book that goes into great detail about antigravity, mass transit, the employment of 'dark-side' energy (which today would be called 'zero point energy'), and devices such as voice-operated typewriters. The cigar-shaped, highly maneuverable Atlantean flying machines, or vailx, have an eerie resemblance to 19th and 20th century UFO reports. Phylos also speaks of personalized heavens, almost like virtual realities, something very compelling.

In the Beginning God Created the Heavens - The Planets. A beginning level Christian children's book by The Bible Tells Me So Corporation.

Journeys Into the Moon, Several Planets and the Sun FaithWords Praise Faith To God's Glory is a special collection of short stories written in the sub-genre of Christian Science Fiction. Too often in the past, Christians who like to read science fiction have had to deal with the obvious "put downs" when it came to having faith in God. This book and these short stories were written to address this issue. In the grandness of things, it is ridiculous to believe that all of the wonders of the universe simply happened. "Chaos theory" suffers from its own "big bang" and who better to write speculative fiction than someone who believes in the Ultimate Being. These stories express what Christians have known since Jesus Christ walked with us, and expresses what modern day physics seeks so hard to discover the unified theory but God is One. Christians have had the unified theory of the universe and all creation since the beginning. This is science fiction with a Christian attitude!

Almost eight months after her adventures around the world had concluded, twelve-year-old Sadie Meadows has been celebrating her birthday at home when 'The Book' pays her another unwelcome visit. This time, it tells her that she will be taken to the various planets of the Solar System, one a year at the end of this and her next seven birthdays. When she awakes, she finds herself on the surface of the planet Mercury, where she is given a task to complete before she will be allowed to go home. Will she be able to fulfil her requirements, year-by-year, until she can finally go back for good?

"THE FINAL EXODUS" is our (47th) forty seventh Book which we have written. This is the most important and powerful Book that we have written. This Book, also, like all of our previous (46) forty six Books, was written because God told us to write it. You will agree with us, no other Book ever written is as enlightening as this Book, with the exception of the Holy Bible. This Book is wonderfully informative. This Book will turn the world upside down. God will use this Book to get all of our Books distributed throughout the earth. Although we are little known at this time, this Book will make us known by all the world; saved and non-saved. This Book will facilitate Apostle Frederick E. Franklin establishing God's end times Church. This Book will facilitate my

death and my wife's, Prophetess Sylvia Franklin's, death; when God get ready for us to die. God has said that we would not die until, we allow it to happen. God will say to us at that time, let them do what they will, the sooner they do it, the sooner we will be with him.

Many scientists look at the universe and conclude we are here by chance. The astronomer and historian Owen Gingerich looks at the same evidence—and the fact that the universe is comprehensible to our minds—and sees it as proof for the intentions of a Creator-God. The more rigorous science becomes, the more clearly God's handiwork can be understood.

EVER WONDERED... Why we are so different from each other even though we share the same planet? Over the centuries, our solar system has been the subject of constant research, endless directions, dimensions, ideas and theories have been formulated on this subject. But every story takes us from one horizon to another, and a new endless story starts from there. This book is a work of science fiction and the ultimate exploration of the origin of human and other forms of life on the planet Earth, which is based upon the author's intuition. According to the author, she does not have any scientific evidence to prove her story that states migration took place to the Planet Earth, but it may lead someone someday to give validity to this amazing history that has never been thought of or explored. The distinctive feature of this book is that it does not relate to any culture, religion, spirituality, astronomy, astrology or romance. Rather it is a marvellous journey backwards in time to unveil the mystery of the lives of other planets.

Introduction Moon People 3 Thank you for reading my book Moon People 3. My goal in Moon People 3 was to make it as action pact from start to finish just like my first two Moon People books. I had to make a "Grand Finale" so I put everything into Moon People 3. I would also like to talk to you about the Venus genesis in this book for a moment. All of the Venus technical data is accurate and the Venus genesis formula is based on an actual analytical possible "Venus Genesis". It took me a while to figure out a true Venus genesis possibility. Because of the real high pressure in the

atmosphere and on the surface. Also the very high temperatures on the surface. If it wasn't for me trying to figure out how to do a genesis on Mars and Venus. I would not have believed it possible. But now I believe it really can be done on both planets, Mars and Venus and other planets and maybe easier than we all thought. You know it is true that we can not go beyond our solar system because of distance and time in our life cycle. But I submit that we should be concentrating on the planets in our solar system. Could you imagine if we could pull off a Venus genesis or even a Mars genesis. We could colonize another planet in our solar system. Wouldn't that be the ultimate! Besides all of the above. I hope you don't mind but I just had to add some "Action Pack Sci-Fi Space Adventure" to the mix also and did you hear the latest? Amazon rated Moon People 3 with 5 stars. I hope you enjoy my book Moon People 3. I really enjoyed writing it for you. If you like Moon People 3, I hope you will read 1 And 2 also. I know you will enjoy them. If you have any questions or comments please e-mail me at: :Fishinghole1112000@yahoo.com Thank you for your time and God Bless. Author Dale M. Courtney Sci-Fi Books "Moon People Trilogy"

I was given an opportunity to return to Earth to complete my

unfinished business from God. While I was visiting heaven, I had re-signed a contract with God, promising that I would write a book about my experience. I always fulfill what I promise; I believe it is a beautiful thing to do. I have written about my experience in this book, Retrospective—From the Void of Emptiness to Planet Earth. I have explored what it is like living as a spirit in nothingness before we set foot on Earth. In my opinion, our true nature is an infinite being temporarily accommodated in a physical body that we animate on Earth. This is part of the spiritual journey we must take. I have explained how a person should take care of himself, because no one else can provide such personal responsibility for another individual. Therefore, you should love yourself and believe you are significant. Celebrate your life at every moment. In addition, in discussing an issue regarding my health, I realized that the most valuable thing in life is to have superb health. That is how I ended up in heaven but was given a second chance to return to Earth to finish what I wanted to complete.

One week after Wendy Blight's college graduation, she walked into her apartment to find a masked man holding a knife and waiting for her at the top of the stairs. The man spent an hour physically and sexually assaulting Wendy, leaving her changed

forever. After this terrifying experience, she lived for years cocooned in a prison of fear, despair, and hopelessness. Finally, after years of searching and believing she had nowhere else to turn, she fell on her knees before God and poured out her tears, anger, and questions to Him. Wendy's story is one of transformation from trauma to rebirth through the power of the Word of God. Through Hidden Joy in a Dark Corner, the reader will experience hope and the encouragement necessary to press forward to healing and restoration.

There are few songs more recognizable to the Christian believer than Anna B. Warner's beloved hymn, "Jesus Loves Me." The simple yet eloquent lyric states the basic elements of faith both plainly and succinctly; within the three title words are found the tenets of Christianity. Now, by examining this beloved hymn verse by verse, including the little known second and third stanzas, Calvin Miller seeks to remind believers of the clear and abiding truths found within this child's rhyme. In doing so, he establishes the song as a creed by which busy Christian adults can live and grow.
